PREFACE

These “*Stories From Heaven*” could not have been given to the world at a more appropriate time than now. The world is in a terrible state of corruption and confusion politically, religiously and socially. Honesty, modesty, genteelness and morality seem to have been eliminated from our way of life, at least in effect if not consciously. However, God has given the world a Miracle it needs.

On July 28, 1967, *The Miracle Of Saint Joseph* was formally announced to a True Mystic. God had chosen a woman to give us the sound direction, hope and example we need. It was not the first time God had chosen a woman to accomplish His Purpose, always for a specific task in a particular time. This True Mystic for our day is Frances Marie Klug. She resided in Southern California as a wife, a mother, and a grandmother until her death on November 15, 2009.

In This *Miracle Of Saint Joseph*, Many Saints have come forth to speak through Frances Klug. These “*Stories From Heaven*” are just a few of the thousands of Revelations received through her. Very often these

Revelations were preceded by extensive Teachings which time and space did not allow us to put in print. However, some of these Teachings will be found in several of the many Volumes of "*Stories From Heaven*".

In these Revelations The Saints refer to Frances as "the child", "the funnel", "the spoon", "the instrument" and "the little one". God made her our Spiritual Mother. For many years now, because of this fact, she has been called "Mother Frances", or simply "Mother". Heaven also refers to people of all ages as "children" and emphasizes time and again, This Miracle is for people of all races, all colors and all creeds.

For someone turning the pages of these "*Stories From Heaven*" for the first time, they will easily recognize the sound logic and sound direction the Messages contain. Mother Frances heard the Words with the Ears of her Soul, and would repeat Them aloud when she was told to do so.

This Teaching Miracle is a direct parallel to the time Our Lord walked the earth. He did not loudly proclaim to everyone, "I am The Son of God." He taught in a quiet manner, simple, extensive, but always detailed

in repetitiveness, instilling in those listening what He wanted them to remember. He taught in parables, short, simple stories containing moral lessons. He knew men could more easily understand and remember the point He was trying to make this way. His “Teaching Stories” pertained to everyday living, practical matters, and how to become a Saint. He gave hope through these stories. He gave example.

Now in our time, God is once again giving us “Teaching Stories” through Saint Joseph and His instrument, Mother Frances. Through her, in a quiet, unassuming and genteel way which appears so “natural”, mankind is again being taught the Purpose of life, and what God expects man to be like in his daily living. People feel hope in these Teachings, Example always given.

Two major Revelations of significance have been given for us in our day. Our Heavenly Mother is Part of The Divine, and Saint Joseph is truly The Holy Ghost. These should not bring an immediate rejection, but should pique our curiosity and interest.

Our Faith in God is based upon many mysteries. Whether it be The Holy

Trinity, the Incarnation of God, or The Holy Eucharist, men strive to understand These, trying to grasp a small glimpse of the Beauty of the Truth They Are. These mysteries also pique our imagination and interest. However, even though we know God revealed these mysteries to mankind and we accept them in Faith, they still remain just that, mysteries.

One has only to look at these “*Stories From Heaven*” to see the value They are, and to feel the hope They instill. No man can logically deny purity of thought when it is so obvious. No man can deny purity in direction, when it is based on sound morals, sound values, sound standards. Do not be blind to truth. Skepticism is for people who are unable to see the truth of a matter or situation, and many times skepticism drowns out purity because it is full of ego and pride in one’s self. Skeptics find it an easy out to disclaim truth.

There is no doubt that it takes time for such Phenomena as This Miracle to penetrate even those minds who feel they are capable of discerning such Phenomena. We must not be governed by purely another man’s determination, but we must understand that logic, sound reasoning and purpose must be the criteria of our Faith in God.

PLEASE READ

In some early volumes of "Stories From Heaven", many Revelations describe edifices to be built on Saint Joseph's Hill Of Hope. As just one facet of The Miracle Of Saint Joseph, God invited men of all races, colors and creeds to participate in building a "City Of God". Every building, chapel, bridge, shrine, garden, amphitheater, and even a hospital and a research center, to be included in this Magnificent Project, would be designed down to the most minute detail by Heaven.

This City Of God would be a place of great beauty for men throughout the world to visit, to gain true spiritual strength and to learn firsthand that which Heaven wants all men to know.

Much to the great loss of every man, woman and child in the world, this City has not been built. Innumerable obstacles were placed in the way of Its completion by those who would have benefited the most. Not enough men volunteered to return the gifts of their time and talents to God. Not enough people came forward with the money needed to participate in God's Plan in a monetary way. Donations became less and less, because the men in the Church said, "Don't give." They discouraged people from participating.

For many years, Mother Frances and a handful of volunteers made every effort to overcome all opposition to men's lack of wisdom, to build this City for God. However, we are not at a total loss. The Sound Teaching and Sound Direction given by Heaven in the many volumes of "Stories From Heaven" continued through the years, and will benefit people everywhere for many generations to come.

In the future, if the hearts and minds of men change, the world will one day see the Beautiful City Of God.

All Revelations are delivered spontaneously and continuously as witnessed by all those present at the time.

SAINT AGNES

“I am Saint Agnes. I have been given permission to speak, hoping that the young will read My Words, and remember the meaning that I desire to help them better understand that youth is the foundation for life.

There have been many times in the History of mankind that mankind followed foolish ideas, values, and ideals of others, regarding forms of entertainment, forms of behavior, forms of education, forms of artistic participations that were not always moral.

I say these things at this time, because it is important that those in charge of the young guide them in sound moral values, in sound moral standards; also, in the Importance of the Gift of human life, because it is a Treasure beyond human understanding.

There are so many distractions in so many areas, for all ages of human life, but the vulnerability of those who are just learning can be dangerous to

them morally, physically, emotionally, spiritually.

There is so much to be spoken with regard to young people learning to be able to choose, not what is comfortable to them, but what is beneficial to them. There are so many being drawn into areas, forced to be comfortable, even though the areas are dangerous to their mental, physical, and Spiritual welfare.

All of Us Here understand that sometimes it is difficult to convince those who are beginning to live a fuller life, on the importance of morality in everything they do, they say, they listen to. In some ways, those in charge of the young forget to be example, which is one of the greatest ways to instruct others.

You live in a time worse than so many times in past History, because of the advancement in so many fields that everyone is able to partake in: the medical field, the religious field, the entertainment world. I could go on and on. The list would almost be endless, but I plead with you to be example, because through your example, whether they know it or not, they imitate and

relate to circumstances because of what they learn from you.

I could speak endlessly on this subject, because there is so much concern Here in the Heavens over the lack of sound example, reasonable instruction that is being given to the young, totally ignoring that they have a Soul within them that automatically accepts the responsibility of all the individual does.

Before I leave you, I ask you an important question: ‘How often do you speak of the Soul when you speak to the young?’ So be it.”

SAINT JOHN OF THE CROSS

“I am Saint John of The Cross. The world is unaware of the Precious Gift The Father has so generously given to mankind for all ages, all mentalities, all backgrounds. I speak through *a small one* that is ever alert to the Presence of The Divine.

A long time ago This Phenomena was declared to be available to mankind, constantly instructing mankind of the Importance of human life and what a Precious Gift it was, because it has a Goal nothing else created has.

Mankind is in a state of advanced humanism. By this, I mean that in so many ways mankind is ignoring God, and putting all things on human advantage, interest, practices and goals.

This *little one* through whom We All deliver Words of Love, Direction, Concern and Hope, is *a warrior* beyond what mankind considers a warrior to be, because mankind only connects such a task to be chartered by specific

reasons that mankind associates a war to be.

The Father has requested I give These Words at this time to prove two very important things: First, no human being could totally wipe out the confusion, the sounds, and the obvious, unbearable distractions that are present; second, even an ordinary love for The Divine would be unable to ignore what occurred at this time.

As I speak These Words, *the little one* says she is confused by My Words. I smile at this, because what she really means is: why would I say it the way I did? We love her — All of Us.”

SAINT CATHERINE OF SIENA

“I am Saint Catherine of Siena.

It is sadness Here in the Heavens when We see so little understanding of the Importance of human life, because mankind does not fully understand that human life was given not just a design that would be extraordinary in so many ways, but a mind, an intellect, that would allow mankind, individually, understand that his or her life was Special, different than any other living thing, matter.

Eventually it was allowed to be known that human life had a Purpose beyond all other living things. Human life was given reasoning, intellect, understanding, the ability to learn many things, and deal with this knowledge constructively; plus, the other advantage human life was endowed with: the Gift of moral values, moral standards. This Gift was a Gift and is a Gift that separates human life from all other living things.

We hear and We see so many men, women and children ignoring

what a great Gift they are capable of using: the Gift of understanding right from wrong, good from evil, and a Gift of innately knowing that human life, in all its greatness, is subject to a Superior Entity of Life, and that is The Supernatural.

No other living thing has the understanding above what they are capable of doing. Only human life has this knowledge that there is a Goal for the Soul that is given to each human being at the moment of conception. Logic automatically says to mankind: As you know right from wrong, good from evil, does this not tell you there is a Reason for this Gift that is above all other living things?

We, so many times, find individuals feel that they are intellectually above the normal knowledge of others, but We also see through many individuals, that they find it easy to ignore the values of purity of the mind, of the body, of the Soul.

The Father has designed This Miracle of His Divine Love, instructing mankind in what would be termed 'short, brief Lessons' on the Purpose for human life and the privilege it

is, and that mankind must realize that He created human life for a Goal. Some might say, 'How can I be assured of this?' I say, 'Is it not innate in most human beings to reach for a goal, a sense of achievement, a sense of sound values, a sense of progress, advancement?' Then is it not reasonable that this Gift was instilled for a Higher Reason, so that mankind would, by instinct, rationalize that human life has a Goal, and this Goal is above all other achievements?

So little is spoken about the Soul because It cannot be seen, but do not forget, nor can the intellect of any human being. When it is seen, it is seen because of an expression of knowledge, an expression of knowing something, the ability to achieve in some way, some form, some manner, some degree.

There is so much logic instilled in this Gift of The Father's Love, called 'human life'. That is why it is important that mankind of all races, all cultures, all creeds, read All that has been passed through This Gift of The Father's Love, called '*The Miracle Of Saint Joseph*'. So be it."

SEPTEMBER 4, 1997 AT 1:28 P.M.

OUR HEAVENLY MOTHER

“I am your Heavenly Mother. I speak with you today with My Heartfelt Thanks for your service to God in This Great Miracle of His Divine Love.

All of Heaven partakes in This Gift that must one day be recognized throughout the world for the Greatness It is, the Tremendous Blessing It is, and of course, the Divine Love in which It is delivered.

Mankind must understand that Times such as These that The Father Decrees to be, are not numerous in the Magnitude that This One is. Granted, there are many prayers answered, and there are many Signs that The Father’s Love for mankind is evidenced by what occurs, to aid, to help, to console individuals, or groups of people at one time.

When This Gift was delivered, This Communication through *a small voice*, It began a very long time ago, and then The Father Declared ‘the time’, announcing It openly, so that mankind would be aware of It in an obvious

form. Without This Announcement at a Particular Time, mankind would have looked at all things passing through this *little one* as natural in conversation, in communication, in trust, in meaning.

To say to mankind, ‘You are being especially Blessed,’ is an important Statement, and it is sad when We hear denial of such Evidence of Communication: first by the continuity of Words, then by the Instruction in the Words, then by the logical interpretation that the Words openly describe important Facts.

It is important that all obstacles must be removed, and that This Gift of The Father’s Love be spread throughout the world, properly of course, in all languages, with no changes in Content. Mankind must understand that human life was created for a Goal, and that Goal is a Greater Goal than human life, because the Goal is for the Souls that will be identified for the one in whom They were given at the moment of conception.

The Magnitude of The Father’s Love is beyond human understanding; the Magnitude of The Father’s Abilities,

beyond any human knowledge. Mankind must see Faith in The Father as a Gift of Divine Love, enabling mankind to see the benefit of human life, and that human life holds within it the Greatest Gift mankind can have. It's called 'a Soul'. To deny acknowledgment of this Gift, is in many ways rejection of The Creator of All Things.

Mankind looks for physical help, moral help, even to the point where mankind strives to learn more mentally, to be able to live in the world more knowledgeable amongst mankind.

It is important that mankind achieve goals, but the Greatest Goal that mankind can achieve is to one day return the Soul that was given at the moment of conception, in as Pure a State as possible, because it is important that this Soul be returned to The Father and bear the Title 'Saint'. So be it."

SEPTEMBER 5, 1997 AT 1:40 P.M.

SAINT JOHN THE BAPTIST

“I am Saint John The Baptist.

Throughout the world there is so much Spiritual misunderstanding. It is a sadness to see, because mankind in many ways avoids Spiritual responsibilities. Men, women and children do not fully understand The Commandments of The Father that were given in great detail, so that no individual would not be able to apply each one of Them to their daily living.

Today, as Many of Us Here Where I am look at men, women and children in different places throughout the world, see so much moral corruption, indecency, totally ignoring what these things do to their Soul. We see thousands, if not millions of men, women and children of all races, all colors, all creeds, totally unaware of the importance of The Rules that were given by God Himself, so that mankind would always have the Basic Knowledge in how to live each day, irregardless of sadnesses that would occur, disappointments that would

occur, problems that would give individuals important decisions to make on moral issues, physical issues, mental issues.

There have been many times in the History of mankind, that the enemy of God and man roared loudly in the midst of mankind with pleasure, because this enemy is realistic, not mythical. This enemy lives each day in a world impure, unjust, undignified. This enemy is of God and man.

We look at men, women and children of all ages, and many times when they must make a decision, We try to help them see the value of purity over impurity, because of this Precious Gift that each one has, that is to return to The Father to live Forever in Glory, in Love. The Soul must be remembered each day, to be protected from any evil, any injustice, any immorality that will mar It, scar It, belittle It, demean It, or cause It to suffer time away from The Father, of Whom It is an Important Part, Portion, Connection.

It may be difficult for mankind to understand such a closeness to The Creator of All Things, but logic should

tell mankind that as there is a right and a wrong, there is a good and an evil, there is hope and despair, there is justice and injustice, that mankind must see and base all actions on the value of the actions as being pure or impure, because of the Soul that is the recipient of all an individual partakes in, dwells on, or makes decisions when the decision should be for the benefit of the Soul, against all that is impure and devastating to the Goal for which the Soul was intended, to be Representative of the individual in whom It was placed at the moment of conception. So be it.”

SEPTEMBER 10, 1997 AT 1:24 P.M.

SAINT STANISLAUS

“I am Saint Stanislaus.

Mankind is ignoring the Importance of human life, the Reason for which it was created, and the Goal The Father has Decreed it to have. We hear so many ordinary conversations, talking in detail on all that is occurring in the lives of so many men, women and children.

As We speak through This Miracle of Divine Love, We want mankind to understand that human life was designed for more advantages, abilities, and higher learning, than any other living matter or thing. Along with this, the Soul in human life gives to human life a Higher Course of Direction, Potential, Ability, Reason, Purpose and Goal. It is sad when We see men, women and even children dismiss in their actions, attitudes, performance, that human life has a Dignity, a Purpose, and a Goal that must be respected in every facet of it, cared for, because of its Goal.

Mankind uses time to make distinguishing points of understanding more about human life. Many times there is much concentration on how mankind acted three thousand years ago. We rarely hear mankind discuss the advantages and disadvantages of human life before the Time of Moses. It is discussed in circles of individuals who enjoy learning, or expressing their opinions on the pre-days of this period of time.

Mankind should ask himself or herself: Was it not a Chosen Time for many Reasons, when The Son of God was presented to the world? This Factor, in logic, should encourage mankind to not just believe, but to rationalize that up to this point, mankind in many ways did not have the values, the standards that the Soul of every living human being needed to help the Soul return to God, a Saint.

Granted, perhaps a thousand years before the Time of Christ, the Time of Moses was of the utmost importance to all human beings. It was a time of Structure, Instruction; a time in which mankind was deliberately shown that mankind was different than all other living things, and had

a Greater Purpose. The Father, at this time, gave to mankind not just Rules but Commands, to seek out in life the importance of morals, and to address immorality as negative to the Soul, reducing the Soul in so many ways to being a victim of the morals of the individual in which this Soul was present. This Time in the History of mankind, mentally elevated the human mind to what a Precious Gift human life was created for.

Mankind, in the time now, has in many ways transgressed, and obviously is ignoring what a Precious Divine Gift of Love human life is, and was created for. As We look at what is going on in the world, We see so much desecration, degradation, despicable violent rejection of obedience to God's Commandments. We hear mankind say: 'We live in a modern world. We live in a world of progress. We live in a world where We are looking to outer space.' Mankind has intellect and is proving it by so many great inventions, progress, that mankind never had before. The greatest progress mankind can reach should be evident, and that progress is to become 'a Great Saint'.

We have a sadness within Us Here, because mankind is abusing the intellects of so many great Gifts by diminishing the Most Important Part of human life that is to return to God, the Soul. All the progress in the world has no comparison to this Great Gift of Divine Love.

The Father has given to mankind This Miracle of His Divine Love. It is called ‘a Miracle’ because It bears the Name of The Holy Spirit of God Who, as man, walked the earth as ‘Saint Joseph’. Logic should tell mankind no real lineage was found for This Individual.

All of Us Saints in Heaven want to shout simultaneously: ‘Wake up, mankind, your Soul must return to The Father from Where It came!’ So be it.”

SEPTEMBER 11, 1997 AT 1:32 P.M.

SAINT BONAVENTURE

“I am Saint Bonaventure. I do not always announce My Name when I use this *small voice* to speak Words of Concern, of Direction.

It is sad to hear so many hundreds, even thousands of people rejecting the awareness of This Gift of The Father’s Love. The rejection is in many ways, not of What is spoken, but the responsibility to What is spoken.

It has been said many times, ‘You live in a time worse than Sodom and Gomorrah.’ We see These Words passed over quickly, and without understanding the full Content of Them, the Meaning that They express openly, unquestionably.

Mankind says: ‘I live in a modern world. I am happy I did not live at other times.’ This statement varies in many ways, because some feel it is a time of freedom to think, act, make decisions comfortable to their way of life, to their degree of understanding. There are so many opinions about what time is important to live.

Mankind must understand the time is not always to blame for one's unhealthy attitude morally, physically, spiritually, because do not forget mankind has a free will. We hear some say, 'That's not true for everyone, because some people live under conditions that are controlled, such as prison life, and in countries where there is little left to the free will of an individual.' Also, We hear some say, 'What about some so-called "Christian organizations" that bind the individuals to a set of rules applicable to a particular way of life?'

If all the excuses mankind has were put into one paper bag, there would always be room for more, because mankind uses excuses to eradicate logic, values, truths, and many actions that are vile, contemptible, in regard to The Father's Commandments.

Every man, woman and child should ask themselves: 'Do I obey what God has given me to understand as His Rules for me to live by? Do I understand that human life has a Purpose higher than any other living thing; first of all, the ability to think freely and to act freely, to learn to great lengths subject matter that is

many times the means to seeing the Magnitude of human life, and the ability to use the mentality?’

So much has alerted mankind through This Miracle of The Father’s Love. Everything has been presented in a format easy for all degrees of mentalities to understand, and to see as beneficial to daily living; plus, mankind has learned about that closeness to God that only human life was given, because human life has a Goal that nothing else has.

We hear all ages desiring, wishing, pleading to be successful, to be important, to be outstanding, to be creative, so that others will recognize them having an unusual talent, ability.

I ask you, ‘How many men, women and children, at this moment, are thinking about that time of accounting to God on the subject of the Soul being Judged for all that the individual acted in, and used?’ Every day, every human being, no matter what Faith in God they follow, no matter what country they are a resident of, should ask himself or herself, ‘If I were to be Judged at this moment by God, what would my Judgment be: Heaven, or

**Purgatory where reparation would be,
or Hell for all eternity?' So be it."**

SEPTEMBER 12, 1997 AT 1:24 P.M.

SAINT THOMAS AQUINAS

“I am Saint Thomas Aquinas.

The Father has given to mankind a Gift of Logical, Sincere Instruction with each explanation of a particular facet of what He expects of mankind, knowing that mankind needs at this time, Instruction of His Commandments.

The world of mankind is in so many ways deliberately acting, speaking, instructing, and performing physically, mentally, morally against all that The Commandments of God are meant to be understood in, for.

We hear men, women and children ignoring what they know is moral, and doing exactly opposite. We do not understand such abuse to the Will of The Father, because mankind instinctively knows that human life is above all other living things in knowledge, in concept, understanding, behavioral reasoning.

The Father created mankind as a Gift of His Divine Love. There has

never been a full explanation of This Love that He has for this Creation of His, because no human mind would have the capacity, the intellect, the sensitivity, the understanding of the Importance that human life has that no other living matter has, and that is a Soul.

It is important that those who have heard so Many of Us speak through This Miracle of The Father's Love, accept the privilege, the opportunity, the tasks and the responsibility to be like the Apostles were a long time ago, and that is to spread All the Words that have been delivered through This Gift of Divine Love.

We hear some who, in reading some of the Revelations through this *small instrument*, ask God, 'Is this true, what You say at this time, or is it spoken to get attention?' What foolish response this is. Mankind's jealousies take over and they use jealousy as an excuse to not understand, to not accept, to not value What is so logically sound, reasonable, important, and in every facet of It, Enlightenment beyond what the ordinary human mind is capable of.

In the Time that The Beloved Son walked the earth, He too was questioned, many times arrogantly, insincerely, also because of jealousy. The time has come for mankind of all races, all colors, all creeds, to look at human life as a Gift of Divine Love that has a Purpose, a Goal, beyond all other living matter.

It is sad when We hear The Commandments of The Father put in such a concise manner, dwindling Them down to one Word of Command, one Word of Meaning, that eliminates the reality that there is much more to what The Father would Command for the benefit of mankind's Soul.

Compare this to what mankind oftentimes answers someone with on an important issue, one or the other words, 'Yes' or 'No'. This oftentimes leaves much doubt, misinformation, a lack of justice. I could go on and on, on this subject.

The world has been given a Miracle of Divine Love, a Miracle of Enlightenment, structured to allow individuals of all degrees of intelligence to understand the Importance for which human life was

created and that there is a Treasured, Precious Goal for it to live on Forever. Granted, it's not the human body, but common sense, logic in the human mind tells mankind there's more to human life, and It's called 'the Soul'.

Logic should also say no human being is capable of creating all that is available to mankind to understand, to see, such as the stars, the moon, the sun, large areas of water called 'oceans'. This list is endless. These things alone should tell mankind there is a Higher Being in Command, in Control. So be it."

SEPTEMBER 15, 1997 AT 12:55 P.M.

OUR HEAVENLY MOTHER

“I am your Heavenly Mother.

Throughout the world there is so much diabolical intervention, constantly suggesting to all walks of life sinful responses, encouraging all ages to think in a free manner, ignoring that human life was designed for a special dignified order of life.

We hear some say: ‘I cannot believe that human life has a Soul. What can a Soul be? Is It like a thought? Is It like a personal feeling? What Part in my life does my Soul play if I have no sense of Its Presence?’ We hear so many excuses rejecting human life having a Gift of Divine Love beyond what human life can see, feel.

Logic should tell mankind that instinctively mankind knows when something is moral, immoral, just, unjust, pure, impure, decent, indecent, vulgar in its very concept, in the very thought of it, making it more pleasing to the enemy of God and man than what something pure would make an individual see as right, over and above

what is totally based on vulgarity, immorality.

It is sad when We see so many things that have been dictated for the benefit of Souls throughout the world, being rejected, cast aside, ignored, even totally dismissed, because of an individual or several individuals who innately feel that they do not have the capacity to stand against what is wrong, in defense of what is right, what is pure.

So much at this time is acceptable, because mankind talks loosely, acts loosely, and defines responsibility in such a general way that the definition omits the importance of whatever the subject is.

We hear very learned people justify immorality in every way, every act, every formula that mankind can conjure up. Decency of the mind is not thought of as a necessity. Many times it is just seen as an excuse.

If an individual were to look at a ball and the ball was on some form of stand, and the individual was forced for twenty-four straight hours not to take their eyes off the spinning ball, for the most part it would be

impossible for an individual to do because of the distractions around, but it would also be so detrimental to every fiber of a human body to be able to withstand for twenty-four hours, because of the human abilities that an individual would fight to do, trying desperately to reject something that was so distracting to the freedom of their life.

It might be difficult to understand for some, but satan uses many diversions to distract individuals of all ages so they will not be able to concentrate on what is pure, what is impure, what is logical, what is illogical, what is important for the Soul, and how important it is to reject being forced to do something that is incapacitating.

Mankind should train himself or herself to, at one time during the day, let all distractions be cast aside and repeat to themselves The Father's Commandments, but in the repeating of These Commandments, use their mental ability to make a conscious effort to examine their conscience as to their actions, their speech, and how they have affected the lives of others by what they have done, and how they

have allowed others to affect their lives in that short period of a day.

For the most part, the human mind allows distractions that are not always beneficial to their Soul. There is not enough emphasis on the Importance of what life was created with and for. There is very little sound instruction throughout the world on the Importance for which human life was created. In some cases, those who are in authoritative positions of counseling are more apt to dwell on something or some area that bases all things on humanism, thus ignoring that within each human life there is a Portion of God, called 'a Soul'.

So many times We try to distract an individual so they will not falter and accept an impurity over the option of something pure in value, in morality, pleasing to God.

The world has been Blessed so many times down through time, and now you live in a Time wherein The Father has openly given a Blessing understandable, because This Blessing is a Blessing of Instruction, but also, It is Personal in so many ways, because of so Many Saints that are being allowed

to speak openly, concisely, giving Hope, Divine Love, and a Strength in What is being spoken that is logical for an individual to be able to evaluate with the human mind, and see as beneficial in so many ways, especially to the Soul that will be the Part of human life that will be left, representing that individual for All Eternity. So be it.”

SEPTEMBER 16, 1997 AT 12:36 P.M.

GOD THE FATHER

“I am God The Father. I have given to the world a Personal Gift of My Divine Love, and I hear them blaspheme This Love.

I hear men, women, and even some children, act in a superior manner, saying they are knowledgeable on what I am all about. This saddens Me, because these remarks take man’s mentality and Faith in Me back to the days that were diabolical in so many areas, so many ways.

The world has been Blessed by This Gift of My Divine Love, using the Beloved Name of ‘Saint Joseph’ as the Point of Instruction, of Guidance, of Facts, of Truths. So Many Saints have revealed to mankind important Gifts of Instruction, regarding that I am within each living human being in a Form, in a Manner, that gives Strength, Honor, Dignity to human life.

I have instilled in human life the logic of understanding My Existence and My Constant Association with each one individually. I hear men and

women who have read the teachings of so-called 'great authors', resisting This Gift of My Divine Love that I have allowed so Many Here to instruct mankind in gentle ways, pure ways, on the Importance of each one's closeness to Me.

When I hear rejection of This, I see only the evil using doubt, jealousy, hate, envy. I have dictated verbally through *a small voice* so much Information, giving to mankind of all races, all colors, all creeds, all degrees of intelligence, obvious Truths, obvious with My Love in each Lesson.

There are thousands of children being born every day throughout the world. Some face dreadful neglect physically, mentally, morally. Some face addictions to all that is wrong in their way of life. They are taught to steal, to lie, to cheat, to hate.

I have for a long time passed through *a small voice* My Love for mankind. I do not pick just the wealthy or the highly intelligent. My Words are for all I create, whether the creation happened before this time, or the individuals are active at the present time. I want those who are

available in any way, no matter what age, what background, what degree of intelligence they display, to know that I have given to the world an Open Act of My Divine Love through *a small voice, a small body, but an obedient one.* So be it.”

SAINT TERESA OF AVILA

“I am Saint Teresa of Avila.

The world is saturated with diabolical pleasures based on sins of the flesh, sins of the mind. The world has ignored for so long the importance of purity of the mind, the body, and the Soul.

We hear some highly educated men and women justify immorality in so many areas of human life. Many times the justification is to defend themselves in areas of total impurities.

Children are not being instructed on The Commandments of The Father. The Commandments are being ignored, because The Commandments limit mankind and point out to mankind offenses against all that The Father Decrees to be what He Wills mankind to use as a means of returning to Him the Soul that He places at the moment of conception, in all races of human life, all colors of human life, all places wherein human life comes together.

Morality is rarely discussed. Mankind is more apt to speak about modernization and the times have changed, thus eliminating The Commandments of The Father. Sodom and Gomorrah was a perfect example, close to what mankind at this time practices, morally, immorally, justifiably, unjustly.

Children are not being instructed to protect their bodies and to use their mind as weapons against all that is evil. Children are being exposed to vulgarities, impurities, allowing them to feel in their minds, think that these things are normal, natural, acceptable to participate in. They are not being instructed on the vulnerability that they can be the victims of, in so many impure practices of adults, or others their own age.

We hear medical science talking about the growth of knowledge in the science that pertains to the body. So many times We hear improper methods that are acceptable, because of the mentality of the individuals that are involved, ignoring the moral standards that The Father would Will it to be done in, and for.

Mankind struggles for education, struggles to be known to others as being highly educated. In most cases it would be better if they were known as being morally exceptional, and devoted to God in duty, in service, in love.

It is difficult for some individuals to accept This Miracle of Divine Love, because inwardly they cannot fathom such an Occurrence being so explicit, so often, on so many subjects, or on the same subject in so many ways. Logic should tell them that there is no human being that has the capacity to care this much, regarding the Souls of all of mankind.

All of Us Here in the Heavens want This Miracle of Divine Love to be spread rapidly throughout the world, because as time moves on, many Souls are being degraded and Some even lost, because of the behavior of the individual that They are assigned to, for the lifetime of that individual.

Mankind must start praying in a personal way, pleading with The Father to help the Souls of those who do not practice purity in any form, any manner, any degree, because the Soul,

as the recipient of the individual in whom It is placed, is victimized, and It is innocent.

Think about an innocent individual that you know that is being abused unmercifully. Do you not have compassion, concern, worry for the individual, and many times feel helpless in being able to aid in some form, manner, way, the one being abused? Imagine what The Father feels at times when, through an individual, the Soul that is a Portion of Him is being disgraced in many, many ways! I say to the world: 'There must be an awakening period. The time is now.' So be it."

SAINT IGNATIUS LOYOLA

“I am Saint Ignatius Loyola.

The educational facilities at this time in your time, are more physically comfortable than they are morally acceptable.

The Father, in so many ways, is using This Gift of His Divine Love, This Miracle of Hope, to instruct all ages of human life on the Importance of why He created human life, and what human life consists of that is above and beyond all other creations.

In the mentality of human life, there is an obvious understanding that human life has a distinction greater in concept than any other living thing. First of all, mankind is innately understanding of the reasonability that a moral code of ethics is instilled in human life, that nothing else has. This should encourage men, women and children of all ages, to practice purity of mind, body and Soul, due to the fact that man is so closely associated with God, the Connecting Link being a Portion of God, called ‘the Soul’.

This *little one* through whom We All speak is a *connecting link* to the Will of The Father, because of the Souls that are to be saved through the understanding of the individuals in whom They are placed at the moment of conception.

Human life is above all other creations. This Gift of The Father's Love bearing The Holy Spirit of Him, humanly called 'Saint Joseph', must spread rapidly before millions of Souls are lost. So be it."

OUR HEAVENLY MOTHER

“I am your Heavenly Mother. I have spoken so many times on the Importance of human life, and the dignity for which, in which, by which The Father created it.

Since the beginning of human life, mankind had to learn what was beneficial for the human needs. Many times there was so much accent on humanism that The Creator of human life was ignored. Logically, mankind knew there had to be a Supreme Being because of the inability of human life to be able to create all there was: the earth, the atmosphere, the sky, the stars, the clouds, the rain, and many other things.

Today as I speak through *a small voice*, My Words to mankind are These: Be aware of the privilege of human life, and be sure that you, in your daily duties and at times when you are seeking pleasures, that your life has a Purpose, and that is to one day return a Portion of it from Where It came, and That Portion, of course, is

the Soul that you are responsible for in all things you do, you say.

All through time mankind has created false gods, most of which were to satisfy their own inability to see the greatness of all things that were created. The vastness in the creation should have alerted mankind, but sad to say, mankind could only relate to a very small area in which he or she existed.

Even in your times now, of great explorations, inventions, and the vast knowledge that mankind has been subjected to, most of mankind lives in what I would term ‘a cave’, ‘a cone’, wherein the Reality, the Greatness, the Purpose for human life is not seen in the full measure for which it was created.

Human life is the only Creation of The Father that has an Ultimate Goal, and it is not being instructed properly on this Gift of Divine Love. Through This *Miracle Of The Beloved Saint Joseph*, The Father is instructing mankind on the Importance of human life, and the vastness of the areas that mankind is capable of participating in, but hopefully always for the right

results, and that is, to return to God the Soul that will represent the individual in which It was placed at the moment of conception.

We see so much diabolical acceptance, very little rejection of it. The world is saturated with so-called 'vision' of all that can be done, all that can be accomplished, all there is to conquer, thus ignoring the Greatest Gift every individual human being is the custodian of — a Soul. This Soul is a Portion of The Father, which gives to mankind the enlightenment, the knowledge, the logic of right and wrong, beauty over ugliness, truth over untruth.

Automatically, mankind looks for goals in life, strives for them in many ways, mentally, physically, monetarily. It is innate in mankind to reach goals to accomplish, and to be known for the accomplishment. Some say, 'I do not look for publicity or acknowledgement.' Perhaps not, but the innate satisfaction to an individual is evidenced in many ways by the individual, because failure to mankind has a depressive reaction to it, whether the individual ignores it or not. Sometimes an individual who

is motivated to seek **Spiritual growth, happiness, finds in it a satisfaction beyond what anything else could give him or her.**

The Father has given to mankind a Gift of His Divine Love, openly allowing so Many Here in the Heavens to speak in a manner understandable, so that mankind has the ability to look at many ways for them to grow closer to what is reality, and that is to be ‘a Saint in Heaven’.

We hear many try to ignore This Statement, but We also are fully aware that mankind is innately fearful of death, and this is natural. That is why it is important for mankind of all ages, all cultures, all creeds, to set their sights on a Higher Goal, Higher than what human life can give to them, and that is to strive in every facet of life to please God, and strive to become ‘a Saint’.

They do not have to advertise this. It is their Goal for Life after the human life is over, and God is fully aware of all things: every thing, action, thoughts, deeds, words, that an individual uses when the physical life is active. The mind of the human

being is capable of so many great deeds, accomplishments, and these can all be directed for the benefit of his or her Soul.

I say to the whole world through *a small voice*: The Father's Love, My Love, is in the Spirit of Hope, because of the Soul that each child born to the world is gifted with, and that is the Portion that will return to one day be called 'a Saint'. So be it."

SAINT BENEDICT

“I am Saint Benedict.

The Father has not just given to the world a Great Gift, but has entrusted This Gift of His Divine Love to those who will be responsible to all of mankind, because of the Soul that each living human being is the custodian of.

Many of Us speak at different times through This Gift of The Father’s Love, not always asking for It to be written, but the Lessons are oftentimes in the form of speech, mannerisms, reactions.

The world has become so demonic-oriented. Some might say, ‘Why could He, how could He, what would make Him use this word about human beings?’ Truth is easy to speak, especially when it is beneficial to the Souls of all human beings, all cultures of human beings, all mentalities of human beings, all who hold Faith in God as a symbol of how they feel, and the importance in how they feel about

a Superior Being as The Creator of All Things.

The world is in great turmoil morally, mentally, socially, physically, spiritually. There are so many definitions for this turmoil, this unrest, this lack of sound understanding regarding the enormity of the degrees that The Father of All Mankind, God, has given so that mankind would be totally informed of what was expected, what would be expected, no matter what nationality, or what form of Faith man would claim to have.

We hear so many professions of individualized moral values, moral standards. Many of them are based on the time that man feels is associated with how they must react, how they are expected to react to what is morally sound, morally acceptable, or even what is immoral in the same category as these two definitions.

When an individual with little Faith in God says a prayer such as the following: *'If You truly exist in some form, some way, some dimension of reality, You will answer my request,'* this in some ways is a prayer of more individuals than others are aware of. The word 'if' is a word of question,

but also a word of hope. Sometimes the smallest word in the world covers many subjects, and many areas in which mankind is daily involved.

If I cause others to sin, I am responsible for them. If I take what belongs to another one, I realize it is wrong. If I practice impurity of the mind or the body, I instinctively know that a Part of me I cannot see, I cannot feel, lets me know that I have committed a wrong, an offense that will in some way have to be corrected, and/or I will be punished for it, perhaps not punished physically in the way mankind sees punishment to be, but I know that there will be some form, some source, that will have to make amends for the wrong.

There is so much leniency on immorality throughout the world, even when individuals know that what they are doing, what they are accepting is offensive to some Portion of their being that they cannot see, they cannot feel, but they continue to do it. Why?

The Father has given to the world a Gift of His Divine Love through His Holy Spirit, and This Gift has been and is still awakening mankind

to the Importance of human life, the Reason for which it was created, and that it is the most important creation above and beyond all other creations, because The Father instills in every conception of human life a Portion of Himself, called 'a Soul'.

We hear some men, women and children wonder why they feel concerned over what they have done or practiced that is immoral, indecent, impure. Oftentimes they say, 'My conscience bothers me, but I'll get over it.'

This Miracle of The Father's Love that has passed to mankind thousands and thousands and thousands of Personal Revelations, and Revelations for all of mankind, touching on things and situations that individuals become involved in, must be seen as a Gift of Divine Love.

Mankind knows right from wrong, truth from untruth, purity from impurity, and yes, fully aware of deceit, lies, falsehoods. All of Us Saints using This Miracle of The Father's Love, use It to awaken mankind to the Importance of human life, and the

Divine Love in which human life was created.

Of course, what I have spoken is not the last that will be spoken by One Here, because of The Father's Generosity at 'this time', in your time. The world has been Blessed, and it is sad to see how few recognize This Gift of Divine Love as a Blessing from The Divine. So be it."

SAINT JOSEPH, THE HOLY SPIRIT

“I am Saint Joseph. I am very pleased that so many are learning so many things at this time about the Importance of human life.

It is with Deep Love I speak today, because My Name is being expressed in a form, in a manner, that never before has It been done with such Honor, Love and Dignity. Those who are dedicated in spreading My Name, I bless abundantly in ways not seen or heard, but I assure you, you are Blessed, because you are in so many ways giving time, energy, love, helping thousands, perhaps even millions to one day understand what a Treasured Gift human life is for man.

This time of so much explanation was destined to be at ‘this time’. It was planned a very long time ago. So many Things that have been spoken have surprised individuals because of the new concept, new meaning, of what human life consists of. Mankind usually felt it meant that human life was closely associated with The

Father through the mind, through an individual's behavior, through what they practiced spiritually.

Now, through This Gift of Divine Love that bears My Name, mankind is learning so much about 'the Soul' that is 'a Portion of The Father' in each human life; plus, so much is being instructed in further detail on the Real Facts in which The Holy Family consisted of.

True, it is difficult for some to believe or to fathom or to consider, because they did not learn it as a child, but This Gift of The Father's, instructing all races, all colors, all creeds, on the In-depth Love that is placed within each human being at the moment of conception, is the Greatest Gift that human life could ever receive.

Man says that I was chosen to be The Foster Father of The Son of God because of a flower that was said to be seen. Sometimes man made up stories to allow Facts to be realistic at that time, and for mankind to be able to mentally visualize a closeness to what is practical to them, logical to them.

As We walked the earth as Mother, Father, Son, We walked as a Trinity of Love for that time and for all time to come. We stood in many places for many reasons, because We knew a particular time would come when The One We walked with would be Sacrificed for many reasons. Many of these reasons are just slowly being delivered through This Miracle of The Father's Love that bears My Name.

It is true, everything has not been written before this time in the complete detail that it occurred, or what was the full Value of what mankind understands to be 'The Holy Family'. Sometimes for mankind to be able to fully understand such Monumental Reasoning, it takes steps, one at a time, so that mankind can accept what is Fact, because if All that is being delivered through This Miracle that bears My Name had been delivered before this time, in the manner It has been delivered at this time, mankind would have found It difficult and unable to understand the Magnitude, the Reality, the Reasoning, the Purpose, and the Divine Love that was the Background of Our Time upon the earth.

The Father has given to the world a Gift of Instruction, requesting so Many Saints Here in the Heavens to speak, to deliver to a degree understandable, so that all degrees of mentalities, all degrees of love for God, can absorb and then see individually, the importance of every step that leads up to this time in which you live.

When a child is born, the child takes one step at a time, and everyone is overjoyed and feels great accomplishment. The child's first words are so important to those close to this child, because it is progress, and it makes those close to this child feel the beauty in the physical life that is allowed step by step.

So it is with This Great Miracle that The Father has given to the world. It has been handed to mankind step by step, because of The Father's Great Love, Divine Love for human life.

Remember What I have spoken and look at the Beauty in It, the Wisdom in It, the Logic in It, the Divine Love in It. So be it."

SAINT MARTIN DE PORRES

“I am Saint Martin de Porres.

There are so many despicable practices in all countries of the world. This Statement I make is an important Statement, because morality is not prevalent throughout the world, but immorality is prevalent throughout the world, in all ages, all degrees of intellect, all areas of life.

Mankind is ignoring The Commandments of The Father. Many are saying: ‘They are the things of the past. We live in a modern world.’ This, of course, is only an interpretation of how mankind feels about his or her personal understanding of The Commandments of God, that were delivered thousands of years ago and still have Their full meaning in Them for mankind in this date and time of life to be reminded of what is wrong, what is against The Father’s Will, and how many impurities can be acted out and be grievous sins against one’s own Soul, also could include the Souls of many, many others.

This Gift of The Father's Will, called *'The Miracle Of Saint Joseph'*, is a Gift of Instruction, Enlightenment. Also, Its repetitiveness on the importance of The Commandments of God should awaken mankind of all races, all colors, all creeds, all personalities, all degrees of personal gains, progress, that These Commandments were delivered for all time, for all of mankind to have as personal Rules to live by, because of the Soul that every human being is the custodian of.

As I speak, I would like very much to ask every human being in the world: 'Do you ever think of your Soul as the recipient of your moral values, your moral standards, your strengths, your weaknesses, your perfections, your imperfections, your understanding that The Creator of All Things is aware of all things that every human being takes for granted, but also, very often abuses the purity that the Soul depends upon?' because the Soul is a Portion of God, and must be protected, not abused by indifferences of moral values, acting totally immoral, impure, disregarding what effect these things will have on That Portion of human

life that resides within each human being, called ‘the Soul’.

It is important for youngsters of all ages, even the very, very young, to know that truth is important, purity is important, and they must understand that all things register within them in the Soul given to them at the very, very, very beginning of their life, and that this Soul protects them in many ways, because this Soul is a Portion of God that He gives out of His Love, so that every human being has the strength morally, physically, emotionally, to fight off all dangers that abuse their purity in every avenue of life. So be it.”

SAINT CATHERINE OF SIENA

“I am Saint Catherine of Siena.

Throughout the world pornography has become not just a means of entertainment, but a way of life for so many, not just hundreds but thousands of individuals. They thrive on being part of such a diabolical plan, and they do everything they can to initiate others into becoming involved in this plan.

As We look at children of very vulnerable ideas, ideals, We find it difficult not to be able to stop them before it is too late. So many children are being drawn into a total diabolical sense of judgment in many areas of life. Innocence is no longer evident, because children are being exposed to so many avenues that adults are in many ways introducing to them, allowing them to partake in immoralities that are so debasing to human life, to the mentality.

Innocence in many areas of the world is no longer a way of life. Many times words were delivered on

what a terrible situation Sodom and Gomorrah was example of. You live in a time worse than Sodom and Gomorrah. Some say, 'How can it be worse?' The answer to this is easy: Because of so many inventions that all individuals, all ages, are exposed to right in their homes, in their classrooms, on the playgrounds, in the theaters, on the streets, innocence is in so many ways being drained from the minds of the very young.

The Father has given to mankind a Gift that bears the Name of The Beloved Saint Joseph. Daily We hear denials of This Gift. Daily We even hear This Gift blasphemed, because the diabolical forces throughout the world are fighting what This Gift of The Father's Love is all about. They are superseding the Purity of What is being delivered by acting out against the Purity, and demeaning this Purity verbally, physically, emotionally, educationally.

The Father has in past times given similar Gifts to mankind, and there has always been an enemy using every source, every force, every means, every type of jealousy, to draw not just a few individuals, but hundreds and

thousands of individuals away from what is important for them to feel, to understand, to follow, for the good of their Soul.

Ask yourself how many individuals that you know personally, or in general conversation when you meet others out of your circle of friends, does anyone ever say: 'Isn't it sad we live in a time worse than Sodom and Gomorrah?' We don't hear it, you don't hear it, because it is not being seen as a time that is worse than Sodom and Gomorrah. Many are calling it 'progress'. Many are saying: 'It's the times in which we live. Change is necessary.'

The world must begin to see that purity of the mind, of the body, is an important asset to happiness in families, amongst friends, and even in casual acquaintances. There's a lightness, a brightness, a feeling of security when things are in a pure state of association. Things are not getting better. They are increasingly getting worse morally, psychologically, physically, spiritually.

I could speak hours on this subject, but as I leave you on this day,

I beseech you: Do not be entrapped by what mankind surrounding you feels is what modernization is all about. Speak up, say what you know would please your Soul, and as you do you will find much happiness, because within you, your Soul will give you the Grace to develop a happier way of life. So be it.”

SEPTEMBER 28, 1997

SAINT JOSEPH, THE HOLY SPIRIT

“The world has been Blessed in many ways, but the world has been especially Blessed by a Miracle that bears My Name. The world was in great need of This Miracle because the world was confused.

Mankind looks at many things in such a materialistic way. The Soul is not a piece of material. The Soul is a Portion of The Father that must be taken care of daily and constantly during that day. The Soul must never be dismissed as not being there. The Soul must be recognized as being a constant Portion of human life.

The Soul is a Treasured Gift of Divine Love, and you must learn to recognize It as such. You must learn to feel that within you, you have a Portion of God. That’s what helps your mentality. That’s what helps you be able to practice so many things in life, participate in so many things in life, but always remember that you are a Special Design of The Father. Human

life was designed to return to Him one day, representing the individual.

The Father loves this Design of His, and the Soul that is within each living individual He wants to be returned to Him in a State of Purity, a State of Love, and only you, in your human way, can do this. So be it.”

SEPTEMBER 30, 1997 AT 1:22 P.M.

THE SACRED HEART

“I am The Sacred Heart of The Son of God. I have come today to speak openly about a Particular Time that mankind must remember in its full degree.

As The Son of The Father hung upon a Cross made of wood, it was called ‘a Crucifixion’. Those looking on, many felt sorrow, fear, and many could not believe that this could be happening to One they saw as Holy, as Innocent, as a Great Instructor of All that was important to know. They innately felt His Importance, but they could not stand up for Him openly, against so many who were in a violent manner of this ugly Crucifixion of such an Innocent Human Being. The world talks about This Time, but has no real concept of the ugliness that took place to such an Important Individual.

Today many are casting aside the wooden cross showing His Body on it. There is little attention given to It, because mankind has replaced this Sacrifice of Divine Love with

much attention on humanism, and many are in many ways following what they call ‘freedom to do as they please morally’.

The Father is saddened at this time, because with so much Knowledge that mankind has been introduced to and shown to be important to understand, is being ignored. Sometimes when We speak openly through this *little one*, it sounds repetitive to some who listen, or who read Our Words. You must remember that repetitiveness is one of the greatest teachers in the world. It instructs automatically in different, various ways, giving individuals of all dimensions of knowledge, the ability to understand the Importance of What has been spoken.

The Father has given to the world a Miracle of His Divine Love, Divinely hoping that mankind will see the Value of All that is being delivered, and not just be example of what is right, what is pure, but to instruct others on the Importance of human life and that human life contains a Soul, a Portion of The Father, that is to return to Him at a given time.

When We see or hear doubt of This Precious Gift of Instruction to mankind, there is a great sadness, because no place in the world is there such a Personal Contact being openly given to mankind on the Importance of human life, and that human life has a Goal.

The little one through whom We All speak is as *a funnel*, and Our Words pass through her in many ways. First of all, she is constantly attentive to Our Presence, no matter where she is, or what she is doing, or who is present. At this time she automatically listens for Our Contact that has become so familiar to her mentally, that there is no doubt within her that What she is hearing is from Us.

The world must understand, men and some women can appear as though they are highly learned on Spiritual facts, Spiritual initiatives, but This Gift The Father has given is a Gift beyond all human knowledge. It is direct when It is delivered, and It is presented automatically through *a little one* who has been trained to repeat Our Words, Our Directions at the moment she is directed to do so.

Mankind finds it difficult to fathom a Great Miracle is occurring, but remember this: At the Crucifixion, though some believed, no one had the courage to stop the horrible wrongdoing. This Gift is a Gift beyond human love, and It must travel throughout the world in all languages, because the world is in great need of knowing that so Many Here in the Heavens are Personally directed by The Father to speak openly Directions giving Hope, Assurance and Divine Love to all of mankind, because of the Soul that each human being is the custodian of, because that Soul is a Portion of The Father that He gives to all living human beings at the moment of conception. So be it.”

SAINT JOHN THE BAPTIST

“I am Saint John The Baptist.

It is important that mankind throughout the world hear of This Gift of The Father’s Love, that in Its Instruction fully describes to mankind the Importance for which mankind was created, and the dignity that The Father expects mankind to stand in, follow, and be example of.

You truly live in a time worse than Sodom and Gomorrah, but so many are denying this resemblance to that time in the History of mankind. It is not just a resemblance factor; it is, in reality, worse than the first Sodom and Gomorrah, because mankind has grown to know the in-depth meaning of sound morality, sound standards, sound values, not just through education, but through environment that The Father has allowed mankind to learn more about. This, of course, is based on the importance of dignity of morals, dignity of respect, dignity of truths, the dignity in recognizing

a Supreme Being, The Creator of All Things.

Children, in so many ways, are being shown physically that human life has the ability to make decisions, and all decisions are not of a pure state of action or mind. Children are being exposed to not just hypocrisy, but a degeneration of moral values, moral standards; also, are being exposed to obscenities and forms of matter that give them a physical injection that will cause them to act impurely, irrationally in so many ways.

Needless to say, through This Gift of The Father's Love that bears the Name of The Beloved Saint Joseph, so many Truths have been delivered, so many Instructions have been extensively explained, so that mankind can easily see the logic in purity over impurities of the body, the mind.

Mankind says, 'We have reached much progress.' This is true in facets of being able to explore physical means in scientific ways, measures, but on the other hand, mankind has digressed morally into depths in which the Soul is being victimized, and the Soul is paying a major price because

of an individual's lack of sound moral values, sound moral standards, and vile measures of impurities to the human body.

These Words are difficult for Me to speak, not just for Myself, but for All of Us Here Who speak through This Gift of The Father's Love, but it is important that mankind of all degrees of knowledge, all degrees of Faith in a Supreme Being, understand that you do live in a time worse than Sodom and Gomorrah, and the enemy of God and man is the only one that is being pleased. It is time for mankind to awaken to the Truth that human life was created for a higher degree of standards in morals, in practices, using everything to please The Creator of All Things.

It is important that though many may reject This Gift of The Father's Love, you must understand that the enemy of God and man will use jealousies and false practices, intentions, ideals, doing everything to ignore This Gift, to discredit This Gift, and to discourage others seeing the Beauty of This Gift of Divine Love. So be it."

OCTOBER 6, 1997 AT 2:08 P.M.

THE SACRED HEART

“I am The Sacred Heart of Jesus. As mankind puts much emphasis on his or her heart, using it as a sign of love for another person or persons, My Heart beats with a Love for mankind beyond what mankind knows This Degree of Love to be.

When I walked upon the earth as man, I spoke of Divine Love, injecting into this manner of speaking, that Love was the Foundation in which mankind was designed, given life, Purpose, and a Goal for this life. The Goal was an Ultimate Goal, and that was to return to The Creator from Whom It was created.

When a child is born, the child is automatically understood to consist of two inheritances, one from the father and one from the mother. For each conception of mankind, the design for conception had an Ultimate Purpose, Reasoning and Goal. It is sad to hear such little understanding of the Importance of human life, taking it for granted, not seeing the Importance

for which it is created, and that in this creation there is an Ultimate Goal because of the Soul that is present at the moment of conception.

You live in a time like some of the past times, where there is so much diabolical interferences, suggestiveness, and participations, yet with all this diabolical action, every individual conceived in human life bears a Soul that is a Portion of The Creator of All Things.

When We hear individuals feel so knowledgeable on the human creation, We oftentimes hear them omit that along with this creation of human life, there is a Divine Reason, and a Portion of The Divine instilled at the moment of conception, never seen by man, but mankind should logically understand that The Creator of All Things, beginning with the universe, would have participation in this birth of a human being, because of human life being handed so much, so many Gifts, making human life different than all other living things.

Human life has a mentality on so many subjects, and the ability to use the mentality for great goals if

the individual has the initiative to indulge in using what is available to use. Human life has a conscience, the power of discernment. Human life has talents in many forms, many areas. Human life has integrity, and knows when honesty and truth are necessary. Human life has a Goal beyond all other living things, because of the Soul that human life is the custodian of from the moment of conception.

Logic tells an individual that he or she is different than all other living things, and that they have a conscience within them that allows them the ability to make decisions based on The Rules on which, from which, The Commandments of God have all the reasonable intentions, meanings, guiding mankind in every aspect of human life.

As My Heart speaks These Words today, I remind mankind that they often use the term, ‘I love you with my whole heart.’ That means to them the ultimate in caring. Today as I speak, I say to all of mankind, no matter what race, what area of the world you were given birth in, ‘I love you with My Whole Heart.’ So be it.”

SAINT THERESE OF LISIEUX

“I am Saint Therese of Lisieux.

This Gift that The Father has given is a Gift of Divine Love; difficult for some learned men and women to fathom such a Gift through *one individual*. A Gift of This Measure mankind would expect to be able to see the Saint themselves, because they automatically say to themselves, ‘This Direction is of such Great Advantage, I cannot picture It coming through one such as myself.’

The birth of a child is a Miracle. The ability to learn with the human brain is a Gift of Divine Love. The advantages of being able to do so many things physically, is also a Gift of Divine Love. Human mentality is different than the mentality of all other living things, because human mentality has the ability, the distinctness to be able to absorb, express, use, and be individually guided to use it productively according to the will, the nature, the personality,

and the mentality of each individual human being.

The Father has given to the world a Miracle, called *'The Miracle Of Saint Joseph'*. His Name, it has been found out, is the human Name given for The Holy Spirit of God. The Father, in His Design of giving to mankind so much Information, so much Personal Direction, so much of Divine Love, used as the Foundation for this, the family way of life: a Mother, a Father, a Son. This, of course, at a later time was pronounced to be *'The Holy Family'*. All things that pointed to This Family automatically were logically derived from, instituted, by God Himself.

If this had not occurred the way it has, how would mankind be able to feel secure that human life was designed from a Special Force, Source, Means, Manner, Way, beyond human nature, human means?

The Father, in His Love for mankind, designed what He knew mankind could relate to, and also see the Advantage to what These Three stood for, and that of course was the human family way, designed to imitate procreation, purity of mind, body and

Soul, and also to help mankind better understand that Divine Love was Part of every human being born to the world.

Human love, in many ways, is the deepest love that mankind can rely upon, because it is a physical, mental, emotional feeling of strength, and in this strength there is a oneness, and also, intuitively a goal.

When We hear ridicule of This Gift The Father has given to mankind, showing mankind that The Holy Family was, in so many ways, not just Example for human life, but Proof that human life was Important, had Reason, and definitely had a Purpose and Goal. When We see jealousy, or even unkindness through untruths, regarding This Miracle that was so Divinely Designed to give mankind, not just Definition, but Facts that were so reasonable in structure, it is a sadness to Us, this rejection, because in omitting what This Gift of Divine Love truly stands for, mankind loses sight of the Beauty that Divine Love is, and that Divine Love is not some distant configuration of someone's mind, but It actually Exists in the very sight of human life, in the abilities of human

life, in the structure of human life, in the will of human beings knowing right from wrong, purity from impurity, love from hate.

The world has been Blessed by This Gift of The Father's Love, because This Gift came to the world at a time when mankind desperately needed the Instruction, the Divine Love, the Personal Communication that was so obviously logical, giving Strength to Faith in God, Faith in The Divine, and yes, Hope to one day walk amidst The Saints like Those before.

The Father has Blessed the world with This Miracle. It is a Blessing of Divine Grace, Divine Hope, Divine Love, and It must spread throughout the world, because there is no man, woman, or child that must not be allowed to hear about It, and to better understand that human life has a Great Purpose, Great Reason, and in a given way, is closely associated to The Holy Trinity through The Father's Love, by way of the Soul that every living human being is given at the moment of conception. So be it."

GOD THE FATHER

“All of mankind must learn about This Gift of My Divine Love. I find it difficult to tolerate rejection of My Love that I speak through Words mankind can understand.

The world is in chaos morally, mentally, physically, spiritually, educationally. There are many religions formed, but all of these do not address Me in the proper form, or do they hold Me for Who I Am, What I Am.

So much of human actions, thoughts, understandings and preoccupations are based on total humanistic values, characteristics, and importance to daily life. The enemy of Mine and man’s is prevalent in every area of humanity’s life, in all degrees in which human beings are active, interested, motivated to be part of.

As I see the Souls of human beings, all ages, all degrees of mentality throughout the world, I say to them, ‘I have given you much Instruction through This Gift of My Divine Love,

leaving out nothing that will give you the Strength to fulfill My Will as you live each day.'

I never ask an individual to do the impossible, because I created mankind and I instilled in mankind a sense of understanding, a sense of logic, a sense of right over wrong, purity over impurity. I instilled in mankind a rational understanding that I Exist, Have Always Existed, and I prove This Point every day, because I Am The One Who Holds All Things In Place.

I Am The One Who instructs individuals on what is sound morally, mentally, physically. I Am The One that is a Portion of every living human being, because I have generously placed at the moment of conception in each individual, a Portion of Me that instantly reflects in the human mind, sound moral views, values, standards.

Also, as mankind seeks progress, the greatest progress mankind of all cultures, all ages can reach, is to return to Me in a State of Purity, irregardless of how they live, where they live, how intelligent they are. The Soul they have within them is in constant touch

**with their values, their intentions,
their knowledge of right over wrong.**

**It is sadness to Me when I see
refusal to accept what a Precious Gift
human life is, because it has a Goal of
the Highest Dimension, and that is to
return to Me, the Soul. So be it.”**

OUR HEAVENLY MOTHER

“I am your Heavenly Mother. I have many Titles. Each One has a reason, Each One draws attention to a particular area for mankind to think about, to be alert to, and to gain more understanding regarding the Importance of human life, and what a Gift of Divine Love it is.

As I speak to you today, I will speak about the Angels. So many men, women and children cannot relate to the Fact that there are Angels. Angels are a Special, Specific Creation of The Father’s.

I would like to discuss first about the Angel that walks with you each day, the Guardian Angel. So many men, women and children ignore this Fact, forget this Fact, and many even do not believe that they have a Guardian Angel. This Angel oftentimes alerts you to not speak, to not act on a decision you are about to make. This Angel guards you in many ways.

We hear some men, women and children openly say, ‘There is no such

thing as an Angel.' This, of course, is sadness for Us to hear, because Angels are Spirits of Divine Love, and have many avenues in which They live, working daily to help mankind in many ways.

The Guardian Angel is not myth; it is Fact. The Guardian Angel has many times walked between every human being, and saves attacks from the evil that could occur either physically, or mentally, or spiritually. So little is spoken about this Gift of The Father's, and yet mankind can dwell on emotional myths that have no credence.

Saint Michael is an Angel of Great Strength, Great Power. His Closeness is more evident than you may think, because of the Power in which He exists. Other Angels immediately respond to His Direction, helping individuals through trying times, through dangerous moments, and always helping when an individual is close to a situation that is dangerous to the Soul.

Mankind says, 'I can believe in many things, but it is difficult for me to believe I have an Angel that guides

me, guards me, protects me, intercepts for me'; but nonetheless, it is Fact, it is Truth. The Father protects mankind in many ways, many times, for many reasons.

You live in a time worse than other ugly times in the History of mankind. Much evil is evident, because of so much immorality based on promiscuity and permissiveness in sins against one's body, which automatically is registered in the Soul of the individual.

I could speak hours on this subject. I ask mankind to remember to try daily to say a prayer to his or her Guardian Angel, but also, in the prayer thank the Angel for being there, and do not forget to thank The Father at least once a day, for giving you the Faith to believe in Him and in Heaven, and in All that human life has available to it, because of the Soul that every human life walks with, lives with, every day and night. So be it."

SAINT PETER

“I am Saint Peter.

There are so many abominations on and in moral values and moral standards, because mankind justifies all that he or she desires to do, over what is moral to do.

Children of all ages are not learning the value of protecting the dignity of life, or the purity of their Soul. Men, and even some women who feel very learned on Spiritual ways, means, descriptions and choice, ignore what is logically factual and logically pure in all facets of its existence.

We hear many disagreements of sound moral values, because mankind declares openly that the advancement of knowledge in the minds of mankind, and in the practices man is capable of doing, that mankind has the ability to be more extensive, liberal, in areas that were once termed ‘immoral’.

I speak harshly through this *little one*, because The Father, in many ways, is angry because of so little

understanding of the Importance of human life, and that it was created for a Goal to be close to Him for All Eternity.

As things are being preached, instructed, and deliberately explained wrongly, We see so much diabolical acceptance in all areas of human life, and in all areas of the world. Mankind is more impressed, more dedicated with appearance, rather than the results of activities, actions, participation, indulgences, that are detrimental to the Souls of each one involved.

The Father has given to mankind a Miracle of Instruction, Direction, instructing mankind in a Personal Manner, understandable to all mentalities, on the Importance of human life, and the Reason for which it was created; plus, the Gift that each human life has is a Portion of Him, and This Portion, called ‘the Soul’, must never be violated in any manner, for any reason, by anyone. So be it.”

OCTOBER 17, 1997 AT 1:37 P.M.

SAINT ANASTASIA

“I am Saint Anastasia.

Children are not benefiting on important Messages instructing them to follow moral values regarding how they think, how they act, what they do, and definitely their conversations with others.

Children are being permitted to listen to many subjects that are detrimental to their understanding of what is morally sound, because the conversation is many times based on the individual or individuals who are speaking opinions that are more in keeping with their age limit, their behavior, their manner of living.

Oftentimes the young, and the very young, are subjected to information or ideas, practices that are beyond what a younger person can associate with, so it opens avenues, doors, to misinterpretation or wrong direction to the younger mind.

There is so little conscious effort to protect the young from subject

matter that can violate the innocence and destroy the conscience, because youth oftentimes automatically imitates whatever he or she hears, or is approached by with someone they trust, someone they know, someone they feel comfortable with, someone they look up to.

What I am speaking at this time is of Great Importance, because We are watching, hearing so many children being exposed to immoralities that cannot be erased from their minds when a conversation ends.

My Words hopefully will be read by thousands and thousands and thousands of individuals who never think of the importance of everything they do, that registers into the minds of the young. So be it."

OCTOBER 20, 1997 AT 1:33 P.M.

SAINT FRANCIS OF ASSISI

“I am Saint Francis of Assisi. My Words today are to alert mankind to the fact that All that passes through this *little one* through whom We All speak, is oftentimes not recorded. To have Everything recorded would be a task beyond human ability, because to repeat All We say, All Our Directions, would be physically beyond any human strength.

The world is saturated with what mankind calls ‘progress’, progress in inventions that in some ways are entertaining, and others are death-threatening. Mankind chooses to ponder over inventions, and also to feel the greatness of human abilities, many times forgetting that the Greatest Gift each human being has is a Gift of Divine Love, instilled at the moment of conception, called ‘the Soul’.

As mankind has a memory, a mind, the Soul in each human life is That Portion of each life that is indelibly instilled with everything a human being partakes in, indulges

in, becomes a part of, represents, and uses through daily practices. These things are registered in the Soul, and that is why the Soul, as a Portion of The Father, is That Part of each human life that will remain, representing the individual life at the moment of Judgment.

The Soul consists of many things. The Soul, as a Portion of The Father, records all that an individual says, does, uses, is example of, and how this individual practices a sensitivity to the Existence of God, using moral values, moral standards to please The Creator, because each human being, whether they admit it or not, instinctively knows that there is a Life Hereafter.

The Soul, as such a Close Entity of Power, is constantly the reminder to each mentality that everything an individual does, is seen, heard, by an unseen Factor. Even a child, a baby who is learning to talk, learning to walk, sees automatically a pleasure in the eyes of those close when they are doing something that pleases; also, something that is not pleasing.

This can be the closest thing that We can say to mankind to help mankind

know that every act, every word, registers within the human being, and it is the Soul that is the recipient. To compare a child with this may seem difficult for some to understand, but the child who cannot speak, cannot read, senses what the feelings are, the reactions are, the love is.

Mankind must understand that The Father has designed This Gift of Love, This Miracle of Divine Instruction, to teach all ages, all mentalities, all of mankind, that the Closeness man has to God is the Soul that is a Portion of God, and no human being can hide any wrongs from this Gift, that will one day stand before The Father in Judgment of the individual in whom It was placed at the moment of conception. So be it.”

OCTOBER 23, 1997 AT 1:46 P.M.

SAINT ALPHONSUS LIGUORI

“I am Saint Alphonsus Liguori.

When it rains it helps mankind in many ways, because rain has a purpose, and rain gives to the earth the necessary item to help things grow, and also, to give strength in other areas that mankind does not think of: clears the air, and it oftentimes fosters more progress for the good of mankind.

Mankind does not look at the universe in its full meaning, measure, purpose, reality. There are many reasons why the universe is out of man’s reach, because The Father has designed it for ultimate reasons, purpose. Each generation of human life seeks advancement in knowledge to attain higher goals, to experience progress in given areas.

If you were asked how old the world is, what would your answer be? You would probably look it up in a book, and then use the time that was designated by someone’s theory, understanding, and rely on their

ability of discernment according to what was evident for judgment.

Today I speak through *a small voice*, as I have hundreds of times before today. To give you a total on how Many Saints speak through This Gift of The Father's Love, would in many ways shock you, because the list is endless. They All do not announce Their Names.

The world has been Blessed abundantly, many times since the beginning of time, and each time there is a Specific Blessing such as This One through Whom I speak, mankind is enlightened regarding the Purpose of life, and the Importance of reaching the Goal for which life was created. There are many forms of life, and of course, human life is Special because human life has the intellect, but most of all has a Soul that no other living life is the custodian of.

Whenever a Great Miracle of Divine Love of the Magnitude that This One is, there is great controversy, jealousies and rejections, because mankind has an innate feeling that he or she have been given the advantage of knowledge, of understanding what

a Miracle of Divine Love would consist of; thus, there is rejection when they do not understand The Father's Superior Love, Knowledge, and Desire for mankind to be enlightened in ways that only The Father feels are necessary, are important, and are needed at a specific time, for those who are living at that time.

We see and hear discussions over This Gift of The Father's Love, called '*The Miracle Of Saint Joseph*'. We hear discussions on what others have read. It is sad that they depend upon what they can determine through their readings, and ignore What they can hear with their ears, or can read the present Revelations of Fact, of Direction, of Truths, given in a manner that mankind can understand.

The world is in great need of All that has been delivered through This Miracle of Divine Love, and yet We see so few want to recognize the Magnitude of the Love that is in This Gift. The jealousy surrounding This Miracle is insurmountable, because mankind innately wants to be important, and be the point of information for others.

No human being, even in imagination, could deliver the Ultimate Information, Direction that This Miracle of Divine Love has so generously, so pointedly, so clearly given in writing, for millions from this time on, to have such a monumental degree of Instruction regarding what a Gift human life has, that is so closely associated with The Divine.

We hear great acclaims over an individual's invention that will help others in some materialistic way, or in some physical way, helping the sight, helping the hearing, helping them walk, helping them able to become more active mentally, physically, but This Gift of The Father's, This Miracle of Divine Love, has added a Greater Gift of learning, and that is instructing mankind on the Importance of becoming 'a Great Saint', returning to The Father the Soul that is That Portion of human life that is instilled at the moment of conception; no exceptions here. Every human life becomes the custodian of a Portion of The Father.

Millions of Words have been spoken through This Gift of The Father's Love: Some have been

written, Some have been instructed openly, Some have been through casual conversation. The number is countless. The world responds to physical sight, physical phenomena, physical advancements that many times have no meaning, also many times no purpose, but mankind finds it exciting, interesting.

The Blessing of This Miracle in which I speak openly many times, is to be spread throughout the world, allowing no one to stop It because of jealousy, weakness, or superiority in nature, in knowledge.

The Father has Blessed mankind with Directions, and it is necessary for These Directions to be constantly, consistently forced into the minds and the hands of millions of human beings. So be it.”

OCTOBER 24, 1997 AT 1:30 P.M.

SAINT ALPHONSUS LIGUORI

“I am Saint Alphonsus Liguori.

The momentum of the spreading of This Miracle of Divine Love must grow, because too many Souls are being lost, due to the so-called ‘modernization’ of mankind’s practices and ideas.

Mankind imitates so many areas that, in sound essence, are detrimental to the moral values, moral ethics that The Father has designed for mankind to follow a path of morality, because of the Soul that is within yet never seen, but obvious through the ability of the human mind to make judgments of purities over impurities, truths over untruths, morals over immoralities.

I speak slowly on this day because of the voice of *the little one* that We All use to contact mankind personally. All that We speak is written when We command it to be so, because it is important that mankind be able to read and remember the Importance of What is being delivered through This Gift of The Father’s Love, because of

the Soul that resides in each human life.

There is no place in the world that so much is being Personally delivered, instructing mankind of all races, all colors, all creeds, all degrees of mentalities, to more fully understand what a Precious Gift human life is to man. So much emphasis is placed on the accomplishments that mankind is capable of, and then there is great importance placed on the materialism that mankind is able to accumulate, and/or be the custodian of in daily life.

If every man, woman and child would learn to look indepthly into the practices of how they approach each day, and question: Does their approach radiate humanism, or do they innately feel that the day is important because of the Soul that is within them, that is a Portion of The Father? No other living thing has this Gift of Divine Love.

This *Miracle Of The Beloved Saint Joseph* is a Gift beyond what mankind understands a Great Gift to be. Mankind many times overlooks such Important Valuable Gifts, and

turns to what is more humanistically appealing, applicable, and useful materially only.

The world has been Blessed. Thousands, if not millions of Words, written and verbal, have been delivered. Mankind many times would rather read something lighter in content, not binding to a greater Gift of responsibility, but This Miracle is giving to all of mankind the Value of human life, the closeness it is to The Creator of All Things, and the importance of what each human being participates in morally, each day of every countable moment. So be it.”

OCTOBER 27, 1997 AT 2:00 P.M.

SAINT ANNE

“I am Saint Anne. As I speak today, I speak with a Mother’s Love for all of mankind. As I oftentimes listen to conversations in families, I do not always hear moral direction, moral love.

A long time ago, The Father said through This Gift of His Divine Love, ‘You live in a time worse than Sodom and Gomorrah.’ It was put in writing to firm up These Words for thousands, if not for millions of men, women and children to recognize, to realize the great degree of immorality that mankind was involved in, exposed to, penetrating every facet of human life, every age of human life.

We hear men, women and children say something is not fair, and they become distraught, angered, and feel sometimes abused over a decision that they cannot agree with, that they feel is against what they are all about, based on the intentions of someone, or several other people.

What about all the abuses that mankind in general practices each day against sound moral values, sound moral standards, pure thoughts, pure ideas, pure ideals? These things do not seem important, because mankind does not take the time to think things out as to the benefits they are morally, and what effect thoughts, actions, habits, have on that Important Part of life, the Soul.

We hear so much resistance against this Important Part of human life. We hear mankind say: 'I should be able to see It, I should be able to feel It. It could be just hearsay that It exists within me, and is Important.' My, mankind has so many excuses, because he or she does not want to see something valuable where his or her morality is engaged. Mankind wants freedom of thought, freedom of action. This is fine as long as it is pure in essence, and moral in what it stands for, moral in what results come from it.

People do not want to hear that they live in a time worse than Sodom and Gomorrah. To most it's a story of past History, but remember, History is known to repeat itself, and that is what

is happening throughout the world at this time, and has been for a very long time.

The Commandments of God were not just for a specific period of time. They were for all time. They are the Greatest Guidelines for human life that mankind could have, because The Commandments of God in Their fullest measure of meaning, of explanation, gives Light to man's thinking, gives hope, gives reason for justice, for kindness, for purity, for protection, and for a love that imitates The Father's Love.

So much has been delivered in so many ways, for all degrees of intellect to understand, plus a great number of different ideas on religious understandings. Mankind must understand that This Time through This *Miracle Of The Beloved Saint Joseph*, mankind has been given Divine Love through Personal Attention, Personal Awareness, Personal Guidance, Personal Love, from The Creator of All."

OCTOBER 27, 1997 AT 2:59 P.M.

THE SACRED HEART

“I am The Sacred Heart. When mankind looks at a photo of My Heart, open for each one to see that I, too, hold within Me an Open Sign of Love, as mankind relates a heart to be.

As each human being knows, the heart is a sign of life. The heart is known to beat, to give to each individual the means to act, to think, to speak. The heart is special in many ways, because the heart registers My Love for mankind.

When I hear an individual say to another one, ‘I love you with my whole heart,’ I smile at this, for in reality, these are words that are connected to Me, because the heart is the living sign of communication, of life, of love, of hope, of energy.

Today I say to the whole world, ‘This Miracle of constant Instruction to mankind comes from My Heart to the heart of all living human beings.’ So be it.”

OCTOBER 29, 1997 AT 1:22 P.M.

SAINT JOHN THE BAPTIST

“I am Saint John The Baptist.

Mankind discusses religion as though he or she were discussing a mathematical problem, situation, condition.

Spiritual understanding has within it a closeness beyond any other subject that mankind has available to learn. Spiritual understanding radiates from one’s Soul, and then the mind, and then the actions, because Spiritual understanding is believing in the sound concept that God is a Supreme Being and has Endless Power over all things.

We hear so many versions of what it means to believe in God. In many ways this is sad, because mankind logically sees every day the evidence of a Supreme Being, which means there is a Being beyond what mankind is capable of doing, experiencing, seeing, or understanding.

Children are not being instructed on the importance of sound moral

values and sound moral standards, nor are they being instructed on the full meaning of The Father's Commandments.

So many times We hear an individual say to another one, 'Now you know what you did was wrong.' Does the person approached by this statement really know what he or she did was wrong in the Eyes of God, or do they feel that the individual making the statement means it as a social or personal, or a human identifiable error, not acceptable? The Father's Commandments have in many ways been set aside, because mankind has become so humanistic in values, ideals, intentions, and in association.

It is sad for All of Us Here in the Heavens when We see or hear rejection of This Miracle of Divine Love, bearing the Name of The Beloved Saint Joseph. The Purity in which He lived was without a doubt identifiable in every area of life. Also, as The Protector of The Heavenly Queen and of The Son of The Father, it was obvious that This Threesome were not ordinary, and the people of that time knew it, but did not make issue of it, because in the Greatness of Their Relationship, and

how it appeared to those present, it was acceptable automatically as normal, and those who met with Them did not make issue of criticism, because they did not see the need for criticism, due to the Holiness that radiated from Their Beings.

We hear certain men and women express openly, when they meet an individual, that they felt only goodness radiate, and they enjoyed being with the individual. Logic would say that mankind, having felt this at different times about what would be termed the 'average circumstance', could understand that if the situation was as it was at the Time in which The Holy Family were present upon the earth, there could be no other response but to say that within, each human being who met Them knew instinctively that what they felt was not ordinary, but Extraordinary.

We hear doubts, rejections, criticisms, against This Miracle of Divine Love that has allowed mankind so much Information, helping mankind to fully understand what a privilege human life is, and that it has a Goal to it, for it, in it, for it to live on Forever

**in a Greater Place, in a Greater Way,
close to The Creator.**

**As I close My Statement here, I
have one thing to say: It is important
that mankind value All that has been
given through God's Love for mankind
in This Miracle that bears the Name of
The Holy Spirit of God, humanly called
'Joseph'. So be it."**

NOVEMBER 11, 1997 AT 1:20 P.M.

OUR HEAVENLY MOTHER

“I am your Heavenly Mother. I have many Titles. Each One says something Important, something Helpful for mankind to use for particular needs when calling My Attention to their requests.

A subject difficult for Me to talk about, to discuss, is the importance of mankind’s actions, morals, intentions, when I see these things becoming more and more offensive to The Father’s Will.

Mankind ignores the fact that so many times, through This Gift of The Father’s Love, mankind was told that these times are worse than Sodom and Gomorrah. Granted, all things were not written that occurred at Sodom and Gomorrah. Many vile actions were spoken of, but the full details were not elaborated upon because of the obscenities and the destructive forces that were so disabling to the innocent people present at that time.

You live in a time of confusion, moral, psychological, oftentimes

based on the authority that you are surrounded by or that you are a part of. Many times, when it was spoken that you live in a time worse than Sodom and Gomorrah, the full degree, intensity of ugliness, depravities to human flesh, to the minds, to ethics, were not seen in their fullest measure.

Today I say openly, 'What is occurring throughout the world is not just contained in The Commandments of God as man knows Them to be, but They go beyond what mankind thinks of morals and immorality to consist of.'

Children are rarely being corrected on acts that they are openly practicing that are vile to themselves physically, mentally, emotionally; also, affecting all of these things in individuals close to them, or that they are associated with in some form, some manner, some degree, for some reason.

A sad Statement for Me to make brings tears to My Eyes, but I must say it: Mankind has, in many ways, ignored morality and the reason for which The Father instilled into mankind

moral values, moral standards, moral reasoning. It is true that in many different segments of time, man's understanding of the Importance of human life, and that it has a Goal, were attacked by forces and sources of the enemy of God and man.

There is a 'great war' going on every day in the lives of human beings. Some are strong enough to ignore temptation of the flesh, of the mind; others are not. But the enemy of God and man works endlessly to weaken the areas that are weak, and to inject questions where an individual or individuals have moral strength. We hear the word 'temptations' and We hear many say, 'It is so tempting, and I see no wrong in my accepting it.'

The Father has given to the world a Miracle of His Divine Love, a Miracle of Instruction, of Teaching, of Direction, explaining so many things in great detail regarding the Soul, a Portion of Himself that He instilled into each human life. This Fact should never be ignored. This Fact is a Strength direct from The Creator of All Things. No greater strength can mankind have. I, your Heavenly Mother say, 'Stop using weaknesses

that only depletes you of morals, and slowly, in many ways cause your Soul disgrace.'

If you, as a human being, understand disgrace and see in it ugliness, weakness, then can you not understand that the Soul, as a Portion of The Father, is touched in a greater way through your actions that are a disgrace to what you represent as the ultimate living Creation above all other creations, a human being with intellect, personality, the ability to understand right from wrong, good from evil, and that human life has a Goal because of the Soul that human life is the bearer of, to return to God for All Eternity? So be it."

NOVEMBER 12, 1997 AT 3:14 P.M.

SAINT GERARD

“I am Saint Gerard. I have rarely announced My Name when I spoke through This Gift of The Father’s Love that, in so many ways, is more than directing mankind to see the privilege it is to be man. It is also giving many details on the advantages of human life over all other living matter.

Mankind enjoys to see things grow. There is an inward happiness in the sight of it, in the results of it. Also, when a plant blooms in a manner of color, giving beauty to a place, it also illuminates the spirit of many individuals who see it, in its manner of adding to the atmosphere a living thing, a living item.

Today as I speak, I speak with an intense Love for mankind, and a Sensitivity to all that every living human being encounters in many areas of daily living. The world has reached many degrees of progress, inventions, and of course, these are unlimited mechanically, usefully, and bring much advantage monetarily, or

helping individuals work in different areas of life, more advantageous, easier, and definitely more profitable.

You live in a time of progress, but you also live in a time that has many areas in which humanism is uppermost in the minds of all ages. Oh, We do hear some loud acclaims regarding man's understanding that God Exists, but many times, after great attention to This Point in life, individuals perform exactly opposite of what their so-called 'understanding in God' should automatically make them: purer in mind, in words, actions, activities, and moral values and standards.

The Father has given to the world *a voice*, and *this voice* is told What to speak, What to say. It is all done in a very quiet manner, and most times only a small group is gathered. The Words are written, and then They are passed on to hundreds, hopefully thousands, who were not able to be present. As These Words pass to a few individuals, They come through the Power of The Father's Love for mankind, His Will for mankind, instructing mankind to more fully understand that human life has a Purpose beyond any other living matter, because human life was gifted

with a Portion of The Father, called 'the Soul'.

We hear many say, 'What is a Soul?' This, of course, is a natural question, because It cannot be seen, but logic in the human mind should tell mankind that mankind has an innate knowledge of what is pure over what is impure, what is right over what is wrong, what is sound over what is not sound, or unsound, if you wish.

The Value of This *Miracle Of The Beloved Saint Joseph* is Limitless in Instruction and Power, and It must pass throughout the world so that no human being is cheated by not being able to read the Words, the Content, the Instruction, the Direction, the Hope, and the Goal for which human life was created.

A Blessing goes with Every Message The Father Decrees to be given, a Blessing for the benefit of the Soul, but also for the individual to more fully understand what a Treasured Gift human life is to man. So be it."

SAINT ALPHONSUS LIGUORI

“I am Saint Alphonsus Liguori.

Through This Gift of The Father’s Love that announces to mankind so many Facts that were given to strengthen the Faith in The Divine, to make mankind more aware that human life was designed and created for a Goal, a Future Greater than mankind can possibly conceive, because to live, through one’s Soul, with The Heavenly Father, Heavenly Mother, and All Other Saints, does not seem to register in the ears, minds, of what a Great Goal The Father created mankind to reach.

There is so very little instruction on the importance of sound moral values, sound moral standards, obedience to The Commandments of God, and the Reason for which these things have been brought to the attention of mankind. If The Father, in His Love for this Creation of His, did not inform human life of the Importance of it, the Reason for it, and the Goal for which He created it, Divine

Love has a Particular Manner, Way, Reason, Purpose, Design, in explaining important issues, Facts to mankind, so that individuals can reason for themselves the Greatness for which they were born, and the importance of every act, every thought, every deed, every motion, every intention.

The world is saturated with hypocrisies, and sad to say, many of these are perpetuated by so-called ‘intelligent’ human beings. When an individual thinks of intelligence, they do not always apply the necessity to this Gift, of moral soundness, moral need, moral reasoning, moral values. There have been many times in the History of mankind that humanism became the rule for life: please the flesh, please the mind, please the physical needs; it is not necessary to value the intention for human life, because you cannot see it, you cannot feel it. Nevertheless, innately mankind thinks, without saying, that: ‘There must be more to human life than what I am experiencing, practicing,’ because human life has an intellect, a will that nothing else has.

Sometimes when an individual is present, watching another individual

perform in foul, ugly, vile, physical ways, it is difficult to see a human being act greater than an animal would act in obscenities.

The Father designed mankind for a Greater Goal. During human life mankind reaches for goals. Mankind is sensitive to the need for progress, sensitive to falling short of what he or she sees others able to do, able to have, able to practice.

For many years now, The Father has allowed much Instruction, sometimes in a story-like way, giving to mankind of all ages, all cultures, all creeds, all denominations, the Importance for which He created this Special living form that bears the senses of touch, smell, sound, sight, intellect.

The world has been Blessed and given logical Instruction. Granted, everyone will not read All the Words, but these times in which The Father allows Someone to speak and It to be written, should never be held back, placed in a closet. They are to be presented to the whole world of mankind in a physical form, so no one will be cheated, left out, ignored,

from the Information, the Direction, the Love of The Divine that has been delivered so precisely, so concisely, so deliberately, because of the Soul that every living human being is the custodian of at the moment of conception. So be it.”

SAINT THOMAS AQUINAS

“I am Saint Thomas Aquinas.

There are so many subjects of importance written by those who had extensive understanding, highly alert to subject matter, that at this time in your time, mankind should know more about. We hear mankind say: ‘We have libraries loaded with information, technical, on many subjects. We also have books of entertainment on all types of subjects.’

Today I have come to speak regarding a new set of Books, not in the libraries. These Books are based on Sound Direction, Sound Values, Sound Truths. The Authors of These Books are Many, and the Authors of These Books are not just learned in Their knowledge. What They teach, What They speak about, is always beyond human subject matter, stories that mankind dreams up to intrigue others, encouraging others to buy the books for entertainment. For some time, The Father has directed much to be delivered in a form of writing, easy

for mankind to understand, and yet the subject matter has an importance in it that mankind does not always see the Greatness in which so much is described, so much is instructed.

We hear denial of This Great Gift of The Father's Love. Some of it is based on jealousy, some is based on ignorance, some is based on egotism. Mankind is born with a personality, a nature, an intellect, a sense of justice, a sense of injustice, a sense of purity of mind, body, and a Portion that cannot be felt or seen but is present, called 'the Soul'.

There are so many men and women instructing on what they feel is an honest description of the Word of God. Needless to say, there are many interpretations, not all correct in content, in reason, because mankind can only determine the meaning of a subject matter that he or she is knowledgeable in, or spiritually alert to its definition. We see so many individuals innately feel that they have a deep sense of spirituality and judgment in this spirituality, but in essence, it is very humanistic.

The Father has given to the world a Precious Gift of Divine Love through what mankind can associate with a human Individual, called 'Joseph', but in reality, This Individual logically is Much More, Much Greater than a human source, force, but for It, for Him to be identifiable to other human beings, the human element was expressed so that mankind of all ages could relate to the human expression, position, and existence.

Much Love has passed through This Miracle to mankind, an extensive degree of Information, logical, giving soundness to the Importance for which human life was created, and that human life has a Goal.

Mankind, in the knowledge, in the sensitivity to knowing what is pure, what is impure, what is just, what is unjust, what is natural, what is abnormal, subnormal, should greet This Miracle of Divine Love with more than just a fleeting interest, but to treasure the indepthness in All the Revelations, and never forget that a Gift of This Dimension, This Personal Communication, could only be based on a Love beyond human nature.

Each time One of Us speaks, those present are Blessed in many ways, because they are to carry on, they are to perpetuate in every way possible, All that is delivered. I bless those who have the Faith to work in such a manner, for such a Great Cause. So be it.”

SAINT MICHAEL, THE ARCHANGEL

“I am Saint Michael; My Title, ‘Archangel’.

It is important that children fully understand the Existence of God, and the necessity for them to know, to obey His Commandments. Throughout the world, the elderly omit this instruction, and also omit being example of The Important Rules.

Mankind must remember, imitation of what others do has an effect many times on the Soul of everyone concerned, involved, participating in conversation, in ideas, in goals. Mankind oftentimes sees only the moment and what is occurring. Rarely does an individual rationalize the purity or impurity, the justice or injustice, of what is occurring.

The enemy of God and man uses many traps, or as some would say, ‘entrapments’, making situations look inviting, and yet these invitations affect the purity of one or more Souls.

Mankind has become arrogant; also, has little concern for his or her temperaments, actions, conversations, totally ignoring the content, and basing what they are saying, or doing, or showing, on strictly their own emotions, their own need for attention.

The Father has given to the world so much Direction in simple terms. There can be no excuses from any race, color, creed, or degrees of intelligence, regarding the Importance of human life because of the Soul that is a Portion of The Creator in every human life born, no matter what part of the world, no matter what the background, no matter what the conditions, no matter what the degrees of intellect that are involved.

Too few men, women and children automatically, during the day, think of Who Created them, and the responsibilities they have as a human being.

This Miracle The Father has given, has in so many ways, allowed so Many from Heaven to not just discuss the Importance of human life, but to instruct on the Importance of it,

because human life is the only living matter that has a Portion within it at the moment of conception, that gives human life a closeness to The Creator immediately, and this closeness remains throughout the life of the individual, no matter what race, what color, what creed the individual is. So be it.”

SAINT CATHERINE OF SIENA

“I am Saint Catherine of Siena.

Mankind knows so much about the planets, but mankind does not realize that this knowledge is many times based on theory. When an individual becomes so involved in learning more about the atmosphere and about all the things that encircle the earth, they oftentimes ignore what is occurring in their own life.

Today as I speak, I do not speak in a scientific manner, for My Words are realistic in Their Content, Direction, Meaning and Reasoning.

As mankind studies many facets of scientific knowledge, these individuals oftentimes ignore, omit, reject, or totally leave out What created all these things, and the real benefits of all things that are created.

Let us take, for instance, the air that man breathes. It is necessary to human life. Now let us look at daylight and see what effect this has

on the mental, the physical, even the Spiritual of everyday living.

The next subject should be how an individual uses daily life to support one's self or a family. It should be honest, it should be moral, it should be caring, and it should be practiced in a manner pleasing to God.

I ask you a question: If all of mankind is born from the same means, source, manner of the birth of human life, and each human being is obviously designed in the same manner, with the same faculties to use what they are, what they have, to conduct their life in what is termed 'normal', isn't it important for mankind to see the reality that there is a Higher Entity of Greatness that is The Controller of all that has been created?

Man says, 'I love the sun,' but no man could live on the sun. Man says, 'I love the ocean,' but logically, no man could live in the ocean without some sort of help from some invention, but this, too, would not be complete in its manner, because mankind must be able to have the availability of many things to exist in a proper manner.

Scientific knowledge is a great privilege to mankind, but this, too, has its limitations regarding many areas of human life. Everything is not adaptable for the safety of human life. Only God is The Creator of human life and only God is The Controller of everything that surrounds mankind.

The world has in many ways ignored This Gift of Divine Love that bears The Name of The Beloved Saint Joseph. The Father has Blessed the world with This Miracle, enlightening mankind in so many ways on the Importance of human life, its Goal.

We hear so many speak against This Miracle of Divine Love, some so irrational in content, in meaning, that it saddens The Father to hear it, because He has given to the world a Miracle of His Divine Love, allowing mankind Communication that is instructing mankind, encouraging mankind to see a Light of Hope, to better understand what a great privilege human life is because of its Goal.

It is sad when We hear sadness that should not be. It is sad when We hear that mankind is struck down by

others who are ignoring what harm they are doing to other human beings.

Today as I speak, I speak with a deep Love, a deep Understanding of all that mankind endures as man, but My Message today is to openly say, 'Human life is a Gift of Divine Love, and in it there is an intellect, there is a sensitivity to right and wrong, and there is a Goal for human life because of the Soul that every human being has at the moment of conception.'

Mankind must understand that this unseen Gift of Divine Love is a Close Connection to The Creator of All Things. It's called 'the Soul'. It is in constant communication with The Creator and It is in constant Companionship with the one in whom It is placed at the moment of conception. You are never alone, because every moment of every day your Soul is within you and is in communication to The Creator of All Things. That is why it is so important that mankind of all ages learn to speak openly on all subjects to their Soul, because this Soul is the Communicator to God Almighty.

I could speak hours on this subject. I beseech all who will read These Words to never forget that no matter what occurs in life that has a negative or unhappy effect on one's mental, moral or physical being, remember: the Soul is your Companion in all things, and through your Soul you communicate with The Creator of All Things. So be it."

MOSES

“I am Moses. When The Father delivered The Commandments to be abided by in Their full meaning, He gave them to me, through me, within me, in full detail. He also alerted me to the fact that some would find only a portion of each Commandment applicable to their way of life.

The Commandments were not given in such a concise manner, format, degree. Each Commandment was deliberately elaborated upon, leaving no space, question, to Its full Concept and Meaning, plus Its Purpose.

Today, as We hear mankind of all races, all colors, all creeds, read The Commandments as they see Them now, They are not complete. Much is missing in concept, in content, in purpose, in reality, because human beings, through their intellect, temperaments, practical knowledge, and understanding of what is right, what is wrong, what is useful, what is abuseful, does not always look at every angle before they act, before

they interpret a suggestion, a motion, a cause, a relationship with someone else, or how they themselves respect the Laws of God first, and above all things.

We hear abusive language. We hear many act unjustly in many areas of human life, justifying all their opinions, their determinations on the full meaning of The Commandments The Father gave for the benefit of the Souls of every living human being to ever be born in the physical life. Granted, as These Great Directives were spoken, those listening did not put Them in script, but even if they had, the script would have been determined by the language they spoke at that time. Not all were knowledgeable, but instinctively mankind knew then, as mankind knows now, what is morally right, and what is immoral.

Children are not being instructed on The Commandments. They are being instructed on the personal opinions of those who are in charge of them, or with others of all ages, because imitation is natural to human life; thus, there are so many sins practiced because individuals cannot always see the value of purity over impurity,

justice over injustice, truth over untruths, morality over immorality.

The Father has given to the world a Gift of His Divine Love, allowing mankind to openly hear What We speak, and then directing It to be written, Word for Word, so that others may learn that He has come to the world at This Time, as He did in the Time of Moses, addressing the Importance of What He has placed within every human life, a Portion of Himself, called 'a Soul'.

So many times We ask The Father, 'Can We not allow all of mankind to hear Us shout the Importance of human life, for they do not read the Words and apply Them to themselves?' He says: 'I do not want to have to do this Your way, for millions could not handle openly the Power of My Way; the physical is not strong enough. That is why I am giving It to them through so Many Here with Me, that I hope My Love penetrates Every Word so that All will be seen, accepted, followed, according to My Will, because of That Portion of Me that is within each human being.'

Mankind tells another one, ‘I love you.’ These are important words to say and to hear. The Father, through This Great Miracle of His Divine Love, says to mankind of all ages, all manner of living, all degrees of intelligence, ‘I love you as I speak through Many Saints, because as I do It this way, I, in My Love, desire you to follow, perhaps a Particular Saint that you feel close to, that you feel a particular love for.’ Millions of Words could be written at this moment, but mankind could not read Them All.

A Blessing passes through Me from The Father to you, and each time Another Saint speaks with a Message from Here, it is an Act of Divine Love, helping you to more fully understand that within you, you have a Gift of Divine Love, a Portion of The Father with a simple Name, not difficult to speak, called ‘the Soul’.”

OUR HEAVENLY MOTHER

“I am your Heavenly Mother.

This Gift of The Divine Love that The Father has given to mankind at ‘this time’ has a Special Purpose in It, for It, to It. Without This Miracle, mankind would not be instructed on the Importance of the Closeness man has to God, a Connecting Link of Power, of Love, called ‘the Soul’.

We hear much rejection of This Gift of Divine Love. We hear misinterpretation, much jealousy, much aggravation, much desire to ignore It completely, because many individuals feel that the world has changed, progress is important, and sad to say, they do not connect God with progress, nor do they connect The Creator of All Things with Truth, with Direction, with Personal Care, Understanding, Love.

Every human being should look in a mirror, and in the mirror see the Purpose for this design created by The Father, giving mankind the ability to do so many things, to read with the

eyes, to use the hands for productive works, also for the necessities that so many things need the hands for.

Every part of human life, every inch of the body has a purpose, Divinely Created. The heart beats. It is an important beat. The mentality of human life is not just a means of knowing a few things, but the mind gives to every individual the conscious understanding of what is right, what is wrong, what is truth, what is untruth, what is important, what is not important. The mind has a close connection to understanding the Greatness of The Divine, the importance of individual decisions over what is right, rejecting what is wrong.

We hear so many read What We have spoken, and they do not see the Magnitude of What was written for them to read, to absorb, to follow, and to value as Sound Direction for everyday life. Sometimes the very same individuals who ignore These Great Messages of Divine Love fall into many categories of self-abuse, and denial of everything that is pure in its logic.

Children are not being instructed on the Importance of human life, and the Importance of understanding that all things come from The Creator, and that life has a Goal to one day return to The Creator, returning the Soul from Where It came.

You live in a time of great rejection based on humanism, rejection of what is morally sound, morally right; also, a time when the enemy of God and man revels in delight in all that is done opposing all that is right, rejecting all that is good.

This Gift of Divine Love, bearing the Name of The Beloved Saint Joseph, is a Gift beyond what mankind truly sees in Its fullest degree. We hear so many ridiculous perceptions, conceptions, totally ignoring what a Blessing This Gift is, and that the Love behind It is obviously from The Divine.

You do live in a time much, much, much, much worse than Sodom and Gomorrah, but mankind refuses to accept This Statement, because to mankind Sodom and Gomorrah is a story of a long time ago. It is easier to ignore Truth when one is so involved in

self-love, self-reasoning, and inwardly feeling that The Commandments of God are for the past, because mankind at that time needed Them. Mankind, through time, cut The Commandments down to an easily memorized version. Needless to say, there were many reasons for this, but man's reasoning is not always right.

I beseech all who will read These Words to look at The Commandments in a fuller degree than They are displayed, and be sure that you do not concentrate on the numerals attached to each one, but the full meaning of each Commandment in its full concept, because as each moment of each day passes, every individual is responsible for what they do, what they say, how they affect other lives; and also, mankind must understand that as they are aware of daily responsibilities in many areas, their first responsibility is to The Father, for the Soul that is within them, that is a Portion of Him. So be it.”

NOVEMBER 25, 1997 AT 2:00 P.M.

SAINT CATHERINE OF SIENA

“I am Saint Catherine of Siena.

The world has been Blessed. The Father Decreed it to be, through a Gift of His Divine Love bearing the Name of what man knows to be a Saint, but Who, in reality, is The Holy Spirit of The Father.

Many will disagree with This Statement, only because they do not have the insight or the Spiritual understanding that a Statement of This Magnitude gives such a Tremendous Degree of Truth, helping mankind to understand more fully, more readily that God, in His Love for mankind, waited until ‘this time’ to express so plainly, so clearly, so much Information to give mankind strength, knowledge, understanding, for mankind to more fully understand what a Treasured Gift human life is, because of its manner of design, its intellect, and its Goal. No other living thing has the Goal that human life has.

We hear so many learned men and women use theory to rationalize what

they themselves discern about how all things were created, the purpose for everything created, and of course, all the Reasons for which mankind was created, and is available to mankind when life as man knows life to be, is no more.

Children should be instructed on the importance of everything they say, they do, they learn, they follow, they contribute to their lives and to the lives of everyone else. We hear so much discussion amongst different men, women, and even children, saying that someone has been Blessed with certain Gifts, others Blessed with Gifts of intelligence on subjects that have great meaning to the subject, great help to mankind's physical, emotional life. Then there are those who feel they have the answer to the morality, values, standards, reasons.

Today as I speak, it is important that All that has been delivered thus far through This Gift of The Father's Love, must never be stopped, never be cast aside, because time will always need All that has been spoken. All those to follow will need This Information, This Foundation that This Gift of Divine Love has so

deliberately, explicitly defined for the benefit of human minds, human beings' daily life.

Obedience to The Father's Commandments must be expressed openly, indepthly, not so concisely, because when something is concise there is much left for opinions to be wrong, or misjudgments to be accepted. That is why This Miracle has dictated so much in so many ways, from so Many Here in the Heavens.

When mankind receives a valuable gift, he or she enjoys the value of the gift even when the gift is not usable at that time. The Father gives Gifts continuously, and This Gift of The Divine Love, through *The Miracle Of Saint Joseph*, is a Gift every human being should have access to in their own language if necessary, because every human being must learn, must realize, that they are the custodians of a Portion of God that no other living matter or thing has the responsibility of, or the privilege of having.

Also, mankind must understand that as The Commandments are more in-depth in Meaning than They are written, mankind is the custodian

of life that it, too, has an in-depth Meaning beyond what mankind sees it for.

We see individuals read These Words and Many that have already been delivered. It is difficult for many to associate themselves to having within them a Portion of The Father, because mankind does not humanly understand that all creation has a Supreme Being as The Creator, and all creation must be seen for the Greatness it is, and that it has a purpose, not understandable by the human minds of human life, but each step man takes in learning more through This Gift of The Father's Love at 'this time', will give those who come later, a sounder realization of the Importance of human life, and that human life is an Extension of The Creator of All Things. So be it."

NOVEMBER 28, 1997 AT 12:24 P.M.

SAINT FRANCIS OF ASSISI

“I am Saint Francis of Assisi. I rarely speak through *this instrument* of The Father’s, because there are so Many Saints Here in the Heavens Who constantly, consistently, are directed to deliver in simple Words, Great Reasonings, Great Directions, for all of mankind.

We hear learned men and women speak openly against All that We deliver, because they do not have the Faith to understand how much The Father loves man. We oftentimes see mankind feel lonely, desolate, and yet they are never alone, because within them they have a Portion of The Father constantly.

The world is in chaos, only because mankind refuses to believe what a privilege human life is, and the Purpose for which The Father created it. Children are not being instructed properly on the importance of their actions, their obedience to God’s Commands, because there is so little emphasis on moral values,

moral standards, and there is so little evidence at this time that mankind will value All that has come from Heaven through This Miracle, bearing the Name of The Beloved Saint Joseph.

Logic is evident that though He bears the Name 'Saint', His Status is Far Greater than the meaning of the Title 'Saint'. It has been Revealed through This Gift of Instruction that He is, in Essence, The Holy Spirit of The Father. These Words place Him in a Category, a Position of Greatness, because it makes Him a Portion of The Father that is Beyond what all things are.

The world has been Blessed, and it is sad to see so few believe in This Blessing. Mankind has a way of ignoring and/or rejecting responsibilities that give to mankind the need, the necessity of valuing Something that is Greater than the normal evidence of value.

Human life bears a Gift that nothing else has, and It is to be treasured in many ways, first by obedience to God's Commandments in Their fullest degree, basing all things on moral structure, possessiveness,

activities, thoughts. Mankind must see This Miracle of The Father's Love for mankind as the Greatest Gift that mankind could ever receive. One of the greatest things in this Gift is that mankind receives It at the moment of conception. The Father lets no time lapse between the conception of a human life and His Connection to it.

The Love that is expressed through This Miracle that bears the Name of The Holy Spirit of The Creator of All Things, is a Love that mankind must realize is a Love that mankind should seek to obey in Its full measure, by obedience to purity in all aspects of human life.

I could speak hours on this subject, days, weeks, months, but I know that mankind can handle only a degree of the Power in which We deliver so much Direction, so much Love at 'this time' to mankind of all races, all degrees of intelligence, all manner of life. So be it."

DECEMBER 1, 1997 AT 1:47 P.M.

SAINT FRANCES CABRINI

“I am Saint Frances Cabrini. It is truly a privilege for The Father to allow Me to speak through This Gift of His Divine Love, directed to mankind for the benefit of their Souls.

Many times when We hear men, women and children think about Spiritual aspects of life, they do not always understand that these are important subjects for their whole being: their mental, their moral, and their physical.

Prayer to some is a fleeting moment without too much understanding of the privilege it is, the importance it is to their whole being. We hear so many say prayers that they have learned, without any thought of what they are saying. They are saying the prayer, using it as a means of something they memorize, not truly seeing the importance of it, or the real meaning that this prayer is a communication between themselves and the One to Whom they are praying.

It is sad when We listen to individuals speak on their thoughts of to what degree they believe human life was created for; also, when they speak, We see a true absence of how they do not fully understand that they, as an individual, have a Connecting Link, invisible, but this Link through their Soul is a Link to The Creator of All Things.

There are so many throughout the world who feel qualified to speak for God, in His Name, declaring that what they are saying He is passing through them direct to those close, those at hand, those who will read the words, to understand that they are a channel of communication for Him.

The world is in so many ways misunderstanding so much about spirituality, Spiritual progress, Spiritual association, because there is so much humanism, declaring that they have the power to heal, to instruct, thus automatically eliminating The Creator, giving themselves credit on all they imagine they have the power to do themselves.

Let us go back to the Time of Moses. He was a teacher, he was ‘an

instrument' of The Father's. He was chosen to deliver to the whole world for all time, The Rules that mankind of all races, all colors, all creeds, were to use to follow, and never abandon, because They were the Stable Foundation for men of all races, all colors, all creeds, to use, basing all things on moral values, moral standards, and to be upheld because of the purity that was needed for the Soul.

When God created mankind, He instilled in each conception a Portion of Himself, so that mankind could never be separated from Him, and that this Gift of His Divine Love would innately instill moral values, moral standards, alerting mankind that as He gave a free will, He also backed this free will with His Divine Love, because there was an enemy that would, in many ways, tempt individuals of all races, all colors, all creeds, to ignore the Importance of the Soul, and submit to what was diabolical, what was impure.

The Father's Love for mankind has given to the world a Miracle of Ultimate Purpose, Design, Goal, and This Gift of His Divine Love bears the Name of His Holy Spirit, using a

human source, a human identification, for mankind to be able to associate with, feel comfortable with, and yet know that the Purity of this Individual Closeness to The Divine, was to give mankind a feeling of comfort in being able to speak to something, *someone* that they could relate to, and not just search for a figment of their imagination that they had no connection to.

Think about this: When a human being speaks and they are alone, there is a sadness to this, because there is no one listening, no communication. That is why it is so important that This Miracle that you now have in the world, is instructing mankind of the closeness man has to God, and can relate to the Importance of The Holy Family, because you still have This Family to communicate with, and know that what you feel, what you think, what you fear, you are heard, and you can receive Help immediately, because your Soul is the Connecting Link that never leaves you. It is given to you at the moment of conception until the time comes for It to return to from Where It came, representing you by name. So be it.”

DECEMBER 3, 1997 AT 1:33 P.M.

SAINT JOAN OF ARC

“I am Saint Joan of Arc. Many times Several of Us gather, not always to speak, but to hear, to observe, to instill, because Our Very Presence gives strength where it is needed.

It is sad when mankind refuses to understand such a Statement. Human life is a Gift of Divine Love, because The Father Decreed this Creation of His to be the bearer of a Portion of Him, called ‘a Soul’. This Connecting Link, this Closeness is beyond human understanding, but nevertheless, It is Fact, giving to human life a Closeness, an Association, a Bond that no other living thing has.

When We hear individuals say, ‘I was thinking of you today,’ We smile at this, because We would like it to be known that Our Presence is constant, and it is a security in many ways, for many reasons, due to the Soul that is within human life, never leaving the one in whom It is placed at the moment of conception.

The Father has given to the world through *one voice*, at 'this time', so much Information, Consolation, Hope, and Divine Love, allowing All of Us Here with Him to participate in instructing mankind, encouraging mankind about the Importance of human life, What it contains, and the Goal for which it was created.

The Soul is a Living Matter of Divine Love. The Soul is realistic in many ways, because the Soul, in Its closeness to the individual, oftentimes reminds the individual of the importance of things, and also, the dignity in which human life must respond to people, places, things, ideas, and many other Gifts in which human life has been endowed.

This Gift of Divine Love, This Miracle of so much Instruction, so much Attention, so much Divine Love, should not just encourage mankind to more fully understand what a Great Gift human life is, but that it has a Goal.

Think about this: Many times in one's life, they seek to reach, to attain goals that are satisfying, that give them pleasure, that give them

distinction. Oftentimes they struggle hard to reach the goals, and use every ounce of energy, strength, hope, and practice in whatever it takes to reach the goal.

Today as I speak through a voice such as mankind knows a voice to be, It is a Gift beyond what mankind can fully realize, because a Gift of This Close Association, of Conversation, of Instruction, of Direction, of Concern, should not be cast aside by anyone. It should be accepted for the Greatness It is, because What is being spoken is for the benefit of the individual, and the Soul of the individual that listens or reads What has been delivered.

When The Father commanded a man a long time ago to listen to Him Personally, regarding The Rules that He desired mankind to follow for all time to come, He instructed These Rules in a lengthy manner, leaving nothing out that would not describe His Commands for the Souls to be saved, but time and mankind's deliberateness in cutting all things short, for memory they say, but We Here say, 'They should be learned in the indepthness of Their full meaning, because of the importance of Them for all manner of

intelligence that different individuals are capable of using, practicing.'

Children should be taught The Father's Rules, not just in a few words, but in an indepthness that covers every facet of their life, their thoughts, their actions, their attitudes, their Gifts of talents, their emotions, their sensitivities, and their knowledge of what is right, what is wrong.

The world has been Blessed with This Miracle, and We hear so much jealousy, anger, regarding the validity of It, the purpose of It. The sadness is indescribable, because mankind says, 'We live in a time of modernization.' There is nothing in The Commandments of The Father that is ever outdated. They were given for all times, for all human beings. There is nothing in God's Commandments that does, do say, that They were given only for that period of time.

You live in a time of humanism, but also a time wherein mankind feels that he or she has the right to supersede with their own intentions, thinking, and also, their own interpretations, All that the past so generously gave.

I say to you now: ‘All that The Father has given is for every period of human life, every date that mankind sees on a calendar, and for every human being, irregardless of what religion he or she may feel is theirs to follow. There is no religion that should not be based on The Commandments in Their fullest measure, that were delivered to be obeyed by all races, all colors, all creeds.’

I could speak hours on this subject, but mankind can handle only a certain degree of rhetoric describing such important Facts as These. So be it.”

SAINT ATHANASIUS

“I am Saint Athanasius.

The Father has given to the world of mankind a Gift Greater than man can visualize a gift to be, because This Gift instructs and develops into the mentality, the Importance of human life, the Reason for which it was created, and the Goal that awaits the Soul of every living human creation.

We hear mankind talk hours on the importance of talents, and how interested they are in so many things, such as animals, countries, cultures of others who live on the face of the earth. We also hear and see thousands of human beings looking into the historical events that preceded this time, thus calculating physically, mentally, emotionally, figuratively, how mankind existed, and of course, the progress mentally that mankind is capable of doing that those in the past could not accomplish.

I want you now to compare This Great Gift of The Father’s Love with All the Instructions that have been

dictated, transcribed, regarding the necessity for sound moral values, sound moral standards practiced by all human beings, no matter what culture they were created in, from, by. The Father has given to mankind updated Knowledge through This Miracle of Instruction for several years now, and yet We hear some defiance, rejection, even ugly renunciation of This Gift of Divine Love.

Today as I speak, I speak in a manner mankind will understand. I speak through a language prevalent throughout the world, so there will be little excuse for What is spoken, is written, to not be understood. A Supreme Being created all things, and needless to say, the human mind is incapable of understanding such an Entity of Power, of Knowledge, but the simple knowledge of human life, the experiences of human life should automatically help mankind to understand that a Supreme Power Existed and Exists, and is The Ultimate Controller of all that exists; plus, logic must also be included in this, saying that there was Purpose, Reason, and an Ultimate Love for human life, because human life is distinct from all other living things.

It is time that mankind stop rejecting This Miracle of Instruction, of Divine Intention, helping the human mind to more fully understand the Value, the Purpose for mankind of all races, all colors, all creeds, to automatically believe that a Higher Being has to Exist, does Exist, and there is a Greater Purpose for human life to reach for, and that, of course, is to return to The Creator in a Manner, a Degree, a Form.

This Statement is important, as All of Them are, but human life has been given more than any other living thing created, and that is a Soul, not understandable to human minds, but logic in essence, because mankind innately wants progress, wants solution, wants peace, and strives for goals.

This *Miracle Of The Beloved Saint Joseph*, Who in Essence, is The Holy Spirit of The Father, is giving to the world of mankind Information, Instruction, Understanding, that this Precious Gift of life is greater than man understands it to be, and that is why This Miracle of Divine Love has been given to the world, instructing mankind of all degrees of under-

standing that human life has a Soul that nothing else has, and the Soul is a Portion of The Creator that must be returned to Him for All Time.

Human life is a Gift, and is to be used for a Purpose. Just as in each day human beings are structured to accomplish and to do many things to give nourishment to the mind, the body, so it is that human life is meant to one day return the Soul that is the recipient of all an individual partakes in, accomplishes in the human life, to return to God, through their Soul, a Saint. So be it.”

SAINT ALPHONSUS LIGUORI

“I am Saint Alphonsus Liguori. Each day that We speak through This Gift of The Father’s Divine Love is a day for mankind to hold dear, and remember that the Words that come from Here are Words that must be seen, learned, followed, in the form, the manner, and for the reason They suggest, or They request.

There is no place throughout the whole world The Father is allowing so much Personal Communication, Direction, to be delivered in such a prompt, exacting, loving, understandable way. We see hundreds, even thousands of people of all ages looking into the subject matter of books, or just pieces of paper, trying to understand in a deeper method, form, facts that will be beneficial to their physical, their mental, their moral understanding of phases of life, directions of life, and what others like themselves are professing to know a lot about.

Let us take a medical term. Ask yourself as you read each subject in it: Do you sincerely feel that you could call yourself an expert on the subject, and perhaps be involved with other so-called 'knowledgeable' people on the subject matter?

Spirituality in its simplest form is unique, because it is based on the logic of a Supreme Being, and everything that one learns about this close Association an individual has with The Creator, one automatically feels an in-depth security, not having to worry about learning in-depth knowledge on a subject that they know they are incapable of maintaining its full measure.

Today as I speak, I speak with a sincere Love for what mankind is faced with daily, because there are so many distractions in human life, so many opinions, so many decisions that mankind must in some way, some form, some manner, feel that they are automatically associated with the subject matter.

In the Creation of mankind, The Father gave to mankind eyes to see with, a mouth to speak, ears to hear,

and that great Gift of the mentality to be able to think, to learn, and to make decisions that would automatically be beneficial, ward off danger, and see the value of not just the human factors, but that a Higher Being was The Creator of all that was available for an individual to be, to have, to use.

Many of Us Saints speak through This Gift of The Father's Love. Sometimes the Conversation is so simply put that all mentalities are able, are capable of understanding the closeness man has to The Divine. This logic should tell mankind that this close Association is beyond all human knowledge, because this closeness comes from a Higher Source of Creativity, a Higher Source that has the ability to instill knowledge, sensitivity, love, hope, strength, morally, psychologically.

This Gift of The Father's Love is for millions to read What has been written by the faithful, who have written the Words so deliberately delivered for all time to come, not just for the present. Each time One of Us speaks and asks the Words to be written, it is an important request,

because if the Words were not written, mankind of the highest intellect would not, could not, remember the subject matter in its detail, in its fullest measure, to be passed down to millions who will follow.

This Time, the time in which you live, This Gift of The Father's is a Gift Far Greater than any human being can perceive, conceive, because you are the instruments that will leave for the future What This Gift of Divine Love is: the Instructions for mankind to see, to understand, to believe, to follow, due to the fact that mankind will need to read, to understand that at 'a given time', The Father gave to the world of mankind Personal Love, through His Own Words, and through Many Saints Who at one time walked the earth in the human form.

Needless to say, All that has been thus far delivered is a Gift beyond what any human being could instruct mankind in, on, with, for. So be it."

OUR HEAVENLY MOTHER

“I am your Heavenly Mother. I oftentimes speak without announcing Who I am, because as I do this, this way there is no distraction, because if I mention My Name it becomes a Point of Attraction, and many times supersedes the Directions, the Instructions, the Love, the Intentions, of What I want to be written to be read by millions of people.

When We speak through This Gift of The Father’s Love, it is for all of mankind. That is why We request Our Words be written, because it would be difficult to remember Word by Word, Meaning by Meaning, the Content of what is Important being spoken for men, women and children of all ages to see the subject as Important, and coming from an Important Place at the request of The Creator of All Mankind.

The Father created human life for a Great Purpose. It has been discussed in a light way over the years, but never in the in-depth way that is

and has been given through This Gift of Divine Love that so generously instructs all ages, all of mankind, on the Importance of human life, because of the Soul that is the custodian, the recipient, and a Portion of The Creator of All Things. There is no place in the world that such a Gift of Divine Love is being so generously elaborated upon in a manner and a way understandable to the mentality of human life.

So many times We see men, women and children with great interest in what they call 'unknown facts', usually on something physical, but The Father, in His Love for mankind, is and has been instructing for a long period of time through This Gift of The Divine, on the Importance of human life, and the importance of the mentality that is special, is different, than any other living thing.

Granted, over the years mankind has succeeded in greater aspects of inventions, but they have not reached the point yet of the ultimate goal that they desire. Only The Father has the Power of the ultimate goal, and only The Father has the Power to release such knowledge as He deems it the time to be. There is much confusion

at this time on Spiritual matters, due to the fact that there has been and is much weakness in understanding the importance, the values, and the purpose for spirituality being such an important part of human life.

We hear individuals brag about their Spiritual experiences, but I guarantee you many are false, because the imagination of human life many times exaggerates facts, ideas, desires, truths, values. When We speak of individuals having personalities, intellects, talents, and Spiritual favors, We speak in a general form, because it is sad when We see pride in any of these areas destroy the good that can be achieved. Pride has a tremendous effect that can be devastating morally, mentally, physically, spiritually, because such pride very often is based on one's title, and so-called 'being in charge of the lives of others'.

The world has been in chaos a long time, because there are so many egomaniacal individuals who, in their very presence destroy, rather than give hope, rather than give constructive influence, based on sound moral values and sound moral standards.

Today as I speak, I speak with a Love beyond what mankind knows love to be, because mankind's idea, conception of love, is in many ways a love that an individual understands only to a degree that he or she is capable of, or in a manner that he or she feels the emotion of.

Today as I speak, I speak with Divine Love, because Divine Love is a Love beyond what mankind is capable of. It is Divine Love that allows All that is spoken through This Miracle to be written so that mankind of all ages, all degrees of mentality, can easily understand, and can recognize as a way of love, a way of life, that is pleasing to The Father.

So many pray, but never really listen to what they say. They rapidly say words, ignoring the meaning. The next time you pray, even if it is a prayer of your own thinking, think about what you are saying, and remember Who you are talking to, for I assure you Many are listening, even if They are not the One addressed by you. So be it."

SAINT JOHN OF THE CROSS

“I am Saint John of The Cross.

As This Gift of Divine Love was announced publicly, alerting mankind of all ages, all types, all degrees of Spiritual understanding, to be alert, to be conscious of the Importance of human life, and that in each conception of human life a Gift of Divine Love was instilled, because mankind is different than all other creations. The Soul is That Portion that makes individuals have the ability to recognize, to understand, and to believe that human life has a closeness to The Creator that nothing else has.

It is innate in an individual to feel, to understand, and to recognize that human life has an advantage due to its mentality, its knowledge of right over wrong, good over evil, sensitivity over insensitivity. Even at a very, very young age a child has fear, has a sense of belonging, has a sense of acknowledging what is spoken to them, and also has the ability to respond

mentally, physically, emotionally, consciously.

Many times We speak and do not announce Our Names, because at given times it is easier for those listening, to communicate, to understand what they feel is human in communication, in balance, in what is occurring. There have been thousands of Revelations passed through This Miracle that the One speaking announces His or Her Name, so those who will be reading the Words will be able to associate in a personal way to the Communication, to the subject matter.

The Father has given This Miracle of Divine Love at a time when It is needed for all races, all degrees of intellect, all temperaments of men, women and children throughout the world. We watch, We listen to different individuals choosing a vocation. They do not always recognize the full degree of the vocation until they learn more on what it is all about, and of course, as their interest develops.

The Father has given to mankind a Great Lesson through This Gift of His Divine Love, because in It so many things are considered, giving

individuals of all temperaments, all different degrees of intellect, a chance to develop the understanding that nothing else could teach them, and that is, that human life is different than any other living matter or thing.

There are many things that go through a stage of living: animals, also trees, flowers, just to name a few; but none of these things have what human life has, because human life was designed with a mentality, with a sensitivity, with understanding, along with the ability to learn, to rationalize, and to instinctively feel that human life has a Goal to achieve, that though the life that is obvious will one day end for practical reasons, there is Another Life that awaits the Soul of every living human being.

We hear some say, 'What is a Soul?' Logic should tell mankind that the Soul is a Portion beyond human understanding, a Portion of life that can be connected to The Creator. This Soul also, when It is a Portion of human life, responds to morality, immorality, and in many ways is ever alert of the condition of the moral ethics that It is exposed to.

When We hear an individual say they are sorry for something they have done, it is most times to another individual, because of the sensitivity that one human being can relate to another, but when something is impure and definitely registers that it is a vile act against what is morally sound, the individual instinctively knows that this wrong, this impurity has an effect on some Portion within the human being that is not always understandable.

Mankind must learn that as human life is gifted with a mentality of justice, knowing that injustice is wrong, then surely this automatically should say that things should be morally pure, and not immorally impure.

There have been times in the past that when We have spoken through This Gift of The Father's Love, We have watched, listened, and even followed individuals to where they were going, hoping that after they heard One of Us Here speak, that they would become more conscious that in themselves they had an innate understanding that Something within them was touched

by What they had just experienced, or learned, or heard.

Every human being accepts knowledge to the degree that they are able to handle mentally, morally, physically, spiritually. All of these characteristics are daily recipients of every move, every mood, every association, every comment, every action, every communication that an individual incurs.

Today as I speak, it is with a Love beyond what mankind understands love to be, because as I speak, I speak to the Soul, for the Soul, because the Soul is That Portion of The Creator that can be ‘the victim’ of everything that an individual does, or It can be ‘the victor’ of all good acts, all pure acts, all love for God that an individual practices at any given time.

The world has been Blessed, and it is sad to say all who hear of This Gift at ‘a special time’, in ‘a special place’, in ‘a special way’, do not see It for the Magnitude It is, but All Saints Here try to encourage mankind of all races, all colors, all creeds, to read What has been given, and to value the Instructions because of the Soul that

they bear, because It is a Portion of God, Who will be returned at a given time, and will be Judged through the actions of the one in whom It was placed at the moment of conception.

Mankind says, ‘I do not like to be abused; it is devastating.’ Mankind must always be aware that the Soul that you have within you is the victim, the recipient, or the victor of all you practice, say, and do. So be it.”

SAINT TERESA OF AVILA

“I am Saint Teresa of Avila. As I speak through this *little one*, I speak in a manner understandable. It would be ridiculous to speak in a form or manner that lacked humility, concern, honesty, and sincere love for The Divine.

Mankind throughout the world is wasting much important time by denying All that We are saying through This Gift of The Father’s Divine Love. There is no place in the world delivering so much Instruction for the benefit of the Souls of millions of human beings at ‘this time’ in your time, and for many, many, many, many years of time yet to come.

There was much Purpose for so much to be written that We speak of, because the human mind would not have been capable of remembering All the Truths, and All the Beautiful Descriptions concerning What mankind has to look forward to, and that is, to return the Soul to from Where It came.

We hear mankind say that it is difficult to believe any Stories about Souls, because they cannot see Them, they cannot touch Them in any way. This statement, of course, has an arrogance to it, and also a deliberate rejection of the logic that is obvious in human life having such a Special Entity of Divine Love from the moment of conception.

What mankind does not understand or desire to understand, is that the Soul is more than a Spirit. It is a Channel to The Creator of All Things, which, in Its full Essence, gives to human life abilities that no other living matter, thing has: the ability to make decisions, right over wrong; the ability to understand that logic says there has to be a Divine Creator for all things to be the way they are. The whole universe has to be governed by a Divine Controller.

You live in a time of much bigotry, and difficult for Me to say, is: 'You live in a time where the enemy of God and man is evident throughout the world, because mankind is allowing it, not suppressing it or ignoring it or casting it aside, and seeing the reality

of the dangers it is, in so many ways to human life.'

The world has been Blessed, and it is time that the world of mankind understand that without This Miracle of Divine Love instructing so deliberately, so concisely, so fully, so extensively on the Importance of the Soul that each human being is the custodian of, and that each human being is responsible for returning this Soul to God at a given time, in a Pure State of Being.

When We hear some admonishments regarding This Miracle, it is a sadness to Us, because you see, so many are envious and feel that such a Gift of Divine Love is more likely to come through someone, or some place that they feel more comfortable about.

I take you back hundreds of years when The Son was born for a Specific Reason. The world did not applaud Him, because the world did not know what a Great Occurrence happened. It was not until a later time that mankind recognized that they had in their midst Someone entirely different than they would expect to see, to understand, and to have a feeling about that was

different than any other human they knew or met.

This Gift The Father has given to the world is a Gift to instruct mankind, to enlighten mankind, to ensure mankind, to assure mankind, that human life is in many ways a Precious Gift of Divine Love, because of That Portion in human life that is a Portion of The Creator, and It must be returned to Him in a Pure State of Light. So be it.”

SAINT ALPHONSUS LIGUORI

“I am Saint Alphonsus Liguori.

It does not take a great theologian, a great legal mind to understand the Importance that human life is to man. In so many ways human life is taken for granted, not seen as the only Creation of The Father’s that is Special and has a Goal for its time that it exists as human, with human habits, ideas, ideals, intellect, sensitivities, and many other human attributes.

Many times when We speak through this *little one* We use to reach mankind in a Personal Way, Personal Degree, Our Names are not mentioned, because it is easier for the listener to understand the Wisdom, the Logic, the Usefulness of What is being spoken, What is being delivered as ‘normal conversation’.

We see millions of men, women and children throughout the world who, in hearing about This Gift of The Father’s Love, would be thankful, and desire to know as much as they could, to learn as much as they could, but most

of them do not speak the language in which This Miracle is being delivered.

It is important that All Revelations be translated into languages that others are capable of understanding. It is sad for Us to see that so many are being neglected because of the language barrier. As I speak today, it is a request to those who are close to This Miracle of Divine Love, This Gift of Instruction that touches every fiber of the human mind on the Importance of human life, and the Goal for which it was created.

We see many doubters who read the Words, but We also see many who want to more fully understand more about This Great Gift that is obviously not of human mentality, but Divine Reality.

Children must be instructed on the importance of the different traits they have that are important in everything they do every day of their life, because to be a human being has special qualities, and a Specific, Special Goal for which it was created.

All ages are many times instructed to memorize a subject, and they practice intensely on the words

so they will not forget the subject matter. That is why The Father has instructed so much to be written for all ages, because to read something many times leaves an indelible mark on the memory, and at given times can be thought about, because it registers into the mentality, associated to subject matter or even personal opinions, actions, ideas, ideals, hopes, endeavors.

The Father extends to all mankind a Gift of Learning, a Gift of Personal Instruction, using Many of Us Saints often, to help mankind see the Value of human life, the Reason for which it was created, the Goal that awaits it. All that We speak is Instruction, and there is no novel written as complete as This Miracle has given on the Importance of human life, and the Goal that human life was created for.

We see men, women and children of all ages reading books on health, science, and many other subjects that they become intrigued by and find themselves dwelling on researching these things. It is more important for mankind to read All that has passed through This Gift of The Father's

Love, value Its Directions, follow What It instructs as important for the mind, the body, the Soul, and to concentrate on a Goal Higher than any goal that man can reach in the human way. There is a Goal for human life, and that Goal is Greater than any human factor that mankind clings to, or declares as scientific, and pleasing to one's nature, mentality.

Today as I speak, if you heard My voice you would find it shouting, because of the Divine Love that has allowed This to be for the safety of every Soul of every human being ever created.

We see mankind bless himself, herself. The Blessing is complete, but many times there is no thought of the meaning, because the Blessing becomes a habit taken for granted, and yet logic should tell an individual that he or she is calling upon The Holy Trinity to be present to listen, and to be a Part of the next moment or moments. *'The Sign of The Cross'* is an Act of Divine Faith, Divine Love, and it says: *'I am asking You to listen to me. I want to say something that I want You to hear. I draw attention to*

You in the way I feel You will respond to.'

Another facet of life is when an individual feels the necessity to tell another, 'I'm sorry.' The one hearing it instinctively hopes that the statement has meaning to it, because of perhaps some offense that occurred to one personally, or to a material item. Politeness is important, and it is one of the most important communications an individual can give to another individual. It is termed 'an act of respect'.

It is the same when an individual makes '*The Sign of The Cross*' or says a prayer in communication with The Father, The Heavenly Mother, or a Saint. The communication is heard and it is appreciated, because the Soul, as the recipient, is also the Communicator.

My Words to you today are given with Sincerity, and with a Love based on the importance of mankind understanding there is a constant, consistent closeness of every human being to The Creator of All Things, and that is through the Soul that responds

to every act, move, thought, word, deed.

Each time One of Us speaks, there is a Blessing beyond what mankind can understand a Blessing to be, because there is no place in the world that such Personal Communication is so consistently, constantly being delivered as there is through This Miracle that bears the Name of One Who man considers of human origin, but in reality is The Holy Spirit of God. So be it.”

DECEMBER 16, 1997 AT 12:57 P.M.

SAINT ATHANASIUS

“I am Saint Athanasius. We know it is difficult for mankind to understand a Blessing of This Degree, This Value, This Importance, at this time.

It is important for mankind to understand the Greatness of This Miracle of Divine Love that The Father has handed to mankind so clearly, openly, stating the Importance of human life, the Reason for which He created it, and What each life contains, a Portion of Him, that nothing else created has the privilege of this Gift from the moment of conception until It is returned to Him.

We speak through *a small voice* but *an obedient voice*. There is much jealousy that surrounds All that is spoken through *this voice*. Mankind oftentimes has a tendency to overlook the In-depth Love The Father has for human life, and why, in certain ways His Generosity abounds, giving Strength morally, psychologically, spiritually, mentally.

There are so many enemies jealous of This Gift. If they truly felt a love for The Divine, they would not contradict in any way What We say, or would they deny that The Father has designed This Gift of Communication that is beyond any other time in the History of mankind, except for the Time The Son of God walked the earth. As The Son instructed those around Him and the crowds that gathered to hear Him, it is again in the world, only in a different form. This time All Things are written Word for Word so the Content can be remembered, and the Instructions in the Content can be followed, because of What is instilled at the moment of every conception, a Portion of The Creator, namely 'a Soul'.

Mankind says, 'This is difficult for me to believe,' and yet these very same doubters believe fallacies of all degrees, types, kinds. The Father passes to mankind Instructions based on Divine Love, for mankind of all degrees of backgrounds, all manner of intelligence, to listen openly and feel that What is spoken is Direction beyond what human knowledge can penetrate the human mind with. It is

a great sadness when We hear denial, rejection, jealousy or wrong intentions toward This Gift of Divine Love.

Mankind asks for Blessings, for help, for security, for strength, for hope. The Father is giving it to mankind Himself, and through Many Saints. This should be what mankind should follow as a format for understanding what a Treasured Gift human life is, and that mankind should recognize the importance of what it means to practice sound morality in all areas of life, and not just ignore immorality, but when exposed to it, stand against it openly.

The world was in great need of This Gift, and even though We see denial of It, the written Words should never be allowed to disappear, and They should be translated into all languages so no place on earth will not have access to This Great Miracle of Divine Love that can be compared to the Time The Son of God walked the earth. So be it.”

DECEMBER 18, 1997 AT 1:38 P.M.

SAINT MARGARET MARY ALACOQUE

“I am Saint Margaret Mary Alacoque. When We hear men, women, and even children neglect the importance of recognizing their Association each day with The Creator, it is a sadness beyond what mankind knows sadness to be.

Children are not being instructed on the importance of daily life. Children are being allowed to practice only things that interest them, things that they feel give them pleasure. Rarely do We hear a child speak to The Father on a one-to-one basis, asking questions and/or telling Him how they feel, how they do not understand certain things, and hope that He will find some means, some way, to give them the strength or the information so they will more fully understand His Will in how they should handle what they are either confused about, or requesting knowledge on.

My Words to some may not sound like a Saint speaking, but I promise you, All Saints Who speak through

This Miracle of The Father's Love do it at His Command, at His Request, because mankind is a Specific, Special Creation of The Father's Will.

Mankind is given a Portion of The Father at the moment of conception, never seen by anyone, but That Portion is to be returned in a State of Purity when the physical of the individual no longer exists.

There are many men and women throughout the world using their imaginations for attention, in instructing others on what life is all about, many times putting more emphasis on humanism than on the Goal for which life has been created.

Human life has many important aspects to it: the ability to speak, the ability to think, the ability to see, the ability to make decisions, the ability to practice associations that give to them, as an individual, the closeness to other human beings that help them, or sometimes, it is sad to say hinder them because they do not see the impurities, and they forget to call on The Holy Trinity. Human life is different than all things because human life has a Goal Greater than all things.

So today as I speak, I ask you to remember: When in need, speak it in a manner you know you are heard by a Higher Degree. When you have fear of any degree, say the same words to a Heavenly Being. Because of the Soul that is in each life, there is a close communication immediately. Never forget this, because at many times, in many ways, it is a saving factor to the mind, the body, the will and the way. So be it.”

DECEMBER 19, 1997 AT 12:53 P.M.

SAINT ANDREW

“I am Saint Andrew.

Mankind treasures a gift when it is something he or she wants in a personal way. If the gift is for someone else, the individual does not always see the happiness that the other person feels.

The Father has given to mankind the Greatest Gift that mankind could receive, and that is to be able to read What All The Saints Here in the Heavens are told to instruct mankind on, that mankind in no other way could know about, hear about, and understand the Value, the Importance in which human life has been given what nothing else in the world has, and that is a Soul.

We hear so much controversy over what This Miracle is instructing mankind in, on. The jealousy that surrounds This Gift is beyond human comprehension.

Today as I speak, it is The Father’s Will that This be written. There are

many times We speak, and *the little one* chosen to accept Our Words is instructed on just speaking Them, just hearing Them, or requesting They be written.

The jealousy that surrounds This Miracle of Divine Love is a jealousy that mankind does not recognize as a weakness, but it is a weakness that exceeds all other human weaknesses, because jealousy, in its category of human identity, weakens so many areas of an individual's thinking, practices, abilities to understand so many areas of human life.

As I speak today, I am speaking slowly so that My Words will be heard; first, by those who are with this *little one*, and then written for others to read. The Father has Blessed mankind with so many Gifts, and the Main Gift is that every human being see the Beauty in being the custodian of a Portion of The Creator, called 'a Soul'. Rarely, if ever, is the Soul spoken about in Its rightful way, the Importance of It, and Who It is a Portion of. No Greater Gift could The Father give than to place within each human life a Connection that, though unseen, is felt in many ways.

There are many words to describe how mankind knows instinctively that human life is different than all other living things, but rarely, if ever, does an individual connect himself or herself with The Creator of All Things. It is sad when We see men, women and children never really hear what a closeness they have to God.

The word 'God' to many is Something, Someone that they have read about, they have heard about, but never do they connect themselves to This Supreme Being. They see only the humanism in life based on characters of themselves and other individuals, the responses regarding the intellect of themselves and others' codes of living that they associate to themselves and others, but it is more rare than mankind fully understands, for an individual to feel that they are a Creation of The Creator of All Things.

There is not enough instruction on what a Precious Gift human life is, because mankind is so oriented to the human practices, understanding, in areas that are not always pure mentally, physically, spiritually.

It is sad when We hear rejection of This Gift of The Father's Love. It is in some ways only pleasing to the enemy of God and man. As mankind knows, there is a right and a wrong to daily decisions, some important, some not so important, but it is necessary that This Miracle of Divine Love, present at 'this time', reach every area throughout the world, in spite of all who are trying to stop It, who are jealously rejecting It, and are instructing what they believe in, ignoring What The Father has so generously given through *a small voice*, for mankind to be able to read, not just hear stories. So be it."

DECEMBER 19, 1997 AT 1:56 P.M.

SAINT IGNATIUS LOYOLA

“I am Saint Ignatius Loyola. It is sad to see so many misconceptions, misunderstandings, misinterpretations of Our Words through This Miracle of Divine Love. Behind doors We hear much criticism based on what individuals feel they are experts on, determining what Many of Us were all about when We lived upon the earth as man.

Many of the interpretations are based on their own theories, identifiable by how they interpret a Miracle of This Magnitude through which so very Many of Us speak openly, not threateningly, but giving Direction, instilling into those who will read, the Importance of human life because of the Soul that every human being is the custodian of.

We hear arguments on the authenticity, the validity of This Great Miracle, most of it because *the little one* through whom We speak is a woman in the world, not of the masculine gender.

The world has been given a Great Gift, instructing mankind on the Importance of The Beloved Saint Joseph, Who in reality, Who logically says to mankind, has to be The Holy Spirit of The Father, for Who else would be chosen to Father The Son of God and to be called ‘Spouse of The Beloved Heavenly Queen’?

Mankind has a way of rejecting sound values, sound truths, especially when they have been instructed by other men on certain issues that are only feasible for the human mind not able to see the Greatness in The Divine, and how The Father would present to the world Three closely associated to Him to be the Example for all of mankind, for all time.

We hear children asking adults very good, logical, sound questions, because sometimes a child’s mind sees reality and wants the answers that comply and apply to what is realistic.

Children must be instructed on the reality that The Heavenly Queen is not of human origin, but of Divine Origin, and that The Beloved Saint Joseph was given as The Protector of The Son of God, and to make it

reasonable to those around, were seen as a Family oriented, balanced by human participation, so that others could relate to Them in a normal way.

At the Crucifixion, many knew at that time that The One being crucified was not ordinary, because they had heard Him speak, instruct, and give them Hope as to a Greater Life awaiting them at a given time. No other human being taught like He taught, instructed so precisely on so many issues that were beyond what human beings would have the knowledge of, the ability to speak about, and the charisma of doing it above and beyond human nature.

The world has been Blessed through The Beloved Gift of the Wind of The Holy Spirit, by passing to mankind so much Information, so much reality, and allowing mankind to see that as The Holy Family walked the earth, They were not mere human beings, but for the sake of the people had to appear normal physically in every facet of life, because those who lived at that time could not have been able to withstand the Power or the Reasonability of what These Three were capable of. The Holy Family

came to the world as Example for all family life.

One of the Greatest Lessons given was for mankind to see the unification of how The Father wanted mankind to see, to be able to relate to how He created mankind: closely associated in dignity and purpose, how mankind was to accept human life in the family form. He gave the Example direct, through Portions of Himself that mankind could relate to.

This Story is endless because it is a Story of Greatness, a Story of Truth, expressing The Creator of All Things' Love for His Creation, mankind. So be it."

SAINT THERESE OF LISIEUX

“I am Saint Therese of Lisieux.

It is important for mankind of all degrees of Faith in God to understand that there is no time that what is spoken, what an individual does or what an individual thinks, is not heard or seen by The Father.

Mankind says, ‘I believe in God,’ but he or she does not always realize that the Ever Presence of The Creator of life is present through the Soul every moment of every day and night.

Throughout the world there is so much diabolical persuasions erasing what is just, pure, sincere, honest. Mankind ignores temptations that he or she is immediately aware of being sinful, wrongful, and diabolical in content, essence, and reality. As an individual must make decisions on many subjects in daily work, daily social areas, in learning new subjects, every human being, no matter what color, what background, what degree of knowledge one is capable of, there must be a conscience, a conscious

effort to see what is right, what is moral, what is wrong, what is immoral, regarding the practice of everything an individual is confronted with during the period of a day.

This is 'the only place' at this time throughout the world, that so much Instruction is being delivered in such a Personal Exacting Way. That is why it is important that All that passes through This Miracle of Divine Love gets translated into languages, so that mankind throughout the world will become aware of What is occurring through a Blessing of This Magnitude, and that This Blessing is to give to mankind a oneness in thought, in Direction, in understanding, in practice, and in Goal for human life.

We hear so many speak of what love is, in their opinion. Sometimes the word is translated wrong, because love was given to life to bring a closeness to human beings that depicted purity, honesty, hope, and an understanding of the Importance of human life, and that it has a Goal above and beyond all living matter or things.

So many times We hear individuals say that something they

heard, something they have, someone they know, or some good act that occurs in their life is a Blessing, because it gives an individual or individuals a Gift that nothing else could give, humanly speaking, that is.

The Father has Blessed the world, not just 'this place' where Our Words are written. The Blessing through These Words is for the whole world, and mankind must be the recipient of These Words, because mankind stands on the threshold that in many ways is dangerous to why life was created, and the Importance of the Soul that each human being has been given at the moment of human conception.

There are so many things that mankind desires to find out more detail about regarding how Things, through This Gift of Divine Love, are to be handled, to be accepted to the fullest degree. Children of all degrees of knowledge, all ages, all different degrees and types of education, must be given What This Miracle of The Father's Love has delivered.

This Time in your time is in many ways comparable to the Time when The Son of God walked the earth.

Much formal and informal Instruction was given, and those who listened felt the impact in the importance of every subject.

At This Time in your time, the Blessing of What is being delivered, in many ways is in a Greater Measure, because it has been requested to be written as It is spoken, and should not be delayed in passing throughout the world. Also, all translation should begin to be made available so no human being will be denied This Gift of Divine Love for the benefits that mankind needs to more fully learn the nature for which human life was created, the Goal for which human life was created, and of course, the Purpose for which human life was created. So be it.”

JANUARY 6, 1998 AT 1:00 P.M.

“Mankind must be fully aware that at the Time Christ walked the earth amongst men, women and children of all ages, all degrees of intelligence, Everything He spoke, Every Direction He gave was heard but never written Word by Word by those present. That is why The Father has given to mankind This Gift of His Divine Love, allowing mankind to write Word for Word All He desires mankind to learn about, to be aware of, and to recognize what a Precious Gift human life is, and that in its creation it has a Goal that no other living thing has.

At the Creation of mankind, The Father instilled special qualities of understanding, of knowledge, regarding the fact that mankind was Special in design, and had a Goal for his or her time in the way of human life. Without such a Goal, mankind would have nothing to look forward to, and nothing to gain.

It is an Important Time in the History of human life, that The Father

is allowing mankind to be instructed in so many areas of Importance, and then being allowed to have It recorded, so that at this time and time to come, all of mankind can look at the Records and see the closeness every human being has to The Creator of All Things. So be it.”

SAINT ANDREW

“I am Saint Andrew.

It is difficult for mankind to understand at this time there is such a Great Miracle of Instruction for the Souls of all living human beings, of all cultures, all natures, all backgrounds, all degrees of intelligence, all personalities.

The Father Decreed ‘the time’ to be when a Miracle of This Magnitude was to be given openly, spontaneously, clearly, in much detail, instructing mankind of all degrees of intelligence, all degrees of backgrounds, all ages, that the True Existence of One God must be understood as Truth, not fiction, and that This One God is indefinable because of the Greatness in the Power, the Justice that He possesses.

It is difficult to hear individuals misinterpret Who created all things, and why all things that are created are so obvious, and of such a great assistance to the lives of human life.

Children are not being instructed that respect for a Supreme Being should be a daily thought in their conscience, in their behavior, in their morals, or even in small conversations with this unseen Greatness that is The Controller of All of Creation. It is natural, it is normal for mankind to be interested in other planets and many portions of nature that are obvious, that are useful, and that give credence to the fact that there had to be a Creator of all these things, a Creator beyond human capabilities.

I would like to discuss one important issue that many times eludes man's thinking, and that is that mankind, in the Gift of speech, learns to communicate verbally, mentally, and in some ways physically with other human beings. Logic should tell every living human being that there has to be a Supreme Being for all this to be.

Children are not being instructed on the importance of prayer. It is being ignored in so many areas wherein so-called 'Christian Organizations' or other forms, sources of belief in a Higher Being, is being cast aside, and only communication with other human

beings is the focal point for daily communication.

The Value of This Miracle The Father has given to the world, bearing the Name of His Holy Spirit, because through The Spirit of Love, many things are given: Encouragement, Instruction, Help, and in many ways, Hope.

The world has been Blessed with the Name of a Particular One that mankind can relate to, because of the human side that they automatically can associate family life with, responsibilities with, but This Miracle of Divine Love that is now present throughout the world, through *The Miracle Of Saint Joseph*, was so named so mankind could feel a closeness, but in This Name mankind must understand that as they speak to Him, they speak to God Himself.

Just as mankind has a Soul, and the Soul is the recipient of all an individual does, partakes in, is responsible for, mankind was made to the Image and Likeness of God, for through His Spirit, He designed mankind to be designed in a format that mankind could relate to.

I could speak many hours on this subject, and more will be said at a later time. So be it.”

SAINT CATHERINE OF SIENA

“I am Saint Catherine of Siena.

It is sad when We hear negative remarks, decisions, against This Gift of The Father’s Love for the whole world of mankind. When We hear individuals feel that they have the power of discernment to be able to admit that This Gift of The Father’s Love is factual, not fiction, it brings joy to All of the Heavens.

Even though One of Us speaks at a given time, there are Numerous Saints standing by, using an indefinable Power surrounding This Miracle, so that What One of Us is speaking is carried through the Power of Divine Love, that so Many Here in the Heavens have as a Gift of being able to reach mankind in special ways, and also to hear the prayers that mankind uses to reach Them for reasons of communication that give the closeness that man has to All of Heaven.

These Words may be difficult for some to understand, but nonetheless, These Words clarify and demonstrate

what close communication man has with All of Heaven.

It is sad when We hear rejection of This Miracle of Divine Love, because This Gift was given to the world to give Strength morally, physically, psychologically, spiritually, because of the Soul that every individual is the custodian of. The Soul is the Link to God Who created All things that every human being possesses.

We hear different individuals reject or dismiss This Miracle of Divine Love, saying that they cannot fathom a Communication of such Dimension, so Personal with The Heavenly Father, and All Others Who have gone before this time.

As I speak, I speak with a clarity of understanding through this *little one*, because What I have spoken is to one day be passed on to millions of individuals, helping them to fully understand that human life was created for a Goal beyond what human life would have available in the human way.

So many times We hear individuals say prayers, choosing an Individual Here in the Heavens to hear what they

are saying, and to draw attention to an issue, a hurt, a request, a complaint. Mankind should automatically accept This Miracle as a Gift of Divine Love because of the logic that is so obvious, and the Personal Communication that has been reiterated on so much, regarding the fact that every living human being, through their Soul, has immediate communication with The Divine every moment of every day. It is also the Dispenser of the knowledge of what is right, what is wrong, what is pure, what is impure.

The Soul is the Connecting Link between God and man. No one can ever change this Link. No one should ever deny this Link, because without It mankind would be like an animal, like a tree, subject to human beings and the climate of where they lived, but mankind is in many ways extraordinary, because mankind has a Personal Link to The Creator, and anyone who doubts this, rejects this, stands in a lonely place, and it is a sadness to see.

All that has passed through This *Miracle Of The Beloved Saint Joseph* will go down in History as the Greatest Gift of Divine Love, instructing

mankind on how close each living human being is to The Creator of All Things. So be it.”

JANUARY 9, 1998 AT 1:26 P.M.

SAINT CALLISTUS

“I am Saint Callistus. I do not oftentimes announce My Name, but I do speak quite frequently through This Gift of The Father’s Special Love for mankind.

All of The Saints Here in the Heavens are ready to speak in a form, a manner, a way, understandable to human beings. Human life is a Special Creation of Divine Love because human life has a Portion of The Creator within it that cannot be seen.

Mankind’s pleasure over a gift is oftentimes openly expressed, but what mankind does not understand is that every human life has the Greatest Gift that any gift of great value could be compared to, and that is a Portion of The Father, not understandable in Its full Essence of Importance, but a Gift beyond what mankind realizes. Because of this Gift, the Soul, mankind is Blessed with Gifts of reasoning, Gifts of knowledge, Gifts of the abilities to understand right over wrong, good over evil, love over hate.

Children are not being instructed on this Gift they have within them. It is sad to say that this important Fact is neglected, because the knowledge of It, the Reason for It, the Beauty It is would, without a doubt, make every human being born alert to the importance of moral soundness and immoral degradation to the Soul.

There is only one creation that has been Blessed with this Gift, and it is sad to say that there are so few who can teach others regarding this Gift, the Importance of It, and of course, the Goal that The Father designed for It, and that Goal is: At the moment of the end of the human way, this Gift is returned to The Father, representing the individual in whom He gave It at the moment of his or her conception.

Mankind must understand this Gift and stop ignoring It, because this Gift tells an individual that he or she is not alone at any time, because this Gift is a constant Companion until the time that human life ends. Such a Blessing of this Magnitude should be recognized, respected, and there should be thanks for such a closeness to The Creator of All Things, because human life is not just a Special Design,

but has a Goal that nothing else created has, or ever had.

There are many Lessons passed through This Gift of The Father's Love, This Time in History that mankind must understand as similar to the Time The Son of God walked the earth, instructing all kinds of individuals, all degrees of intelligence, on the Importance of human life, and the Greatness for which it was created to one day be returned to God through the Soul He gave at the moment of conception. So be it."

JANUARY 12, 1998 AT 1:43 P.M.

SAINT ROBERT BELLARMINE

“I am Saint Robert Bellarmine. Many of Us ask The Father why there are not more attending the times that so much is spoken for the benefit of their Soul. Why do so many reject listening to the Beauty, the Magnitude of What The Father Wills mankind to learn, to understand, to practice, for the benefit of his or her Soul?

Why are not children being instructed in the Purpose for which human life was designed, created, and given an intellect to use for moral obligations, and remembering the Purpose for which human life was to obey the Soundness in The Commandments of God; also, to remember that each Commandment had an in-depth meaning applicable to every habit, every ability, every thought, every action, every degree of intellect, of all individuals born in the human way?

There are no secrets in Heaven. This Miracle of Divine Love is openly proving this point to all of mankind.

The Father is speaking and allowing so Many Here to speak, so that mankind is not without Direction regarding the Purpose for which human life was created.

In so many ways, in so many areas wherein human life exists, We see and hear individuals act impurely, undignified, regarding subjects that are important to the benefits of the Soul. We hear some individuals arrogantly refuse to believe that mankind is born with a Special Gift, because to not believe, it allows them the freedom to act impurely, unjustly, and use excuses for all the abominations that they cause to others.

We hear so much about higher education, and We see so much injustice, pride, egotism, ignoring the most important subject that mankind could use as a daily means of more happiness, more peace.

The world has many times reached a point of moral degradation. This Statement does not mean that everyone who exists at this time agrees with the foul thinking, actions, practices, but it does mean that the prevalence of it throughout the world

attacks the beauty of purity that the Soul deserves.

We hear men, women and children instinctively wanting to know more about This Gift The Father has given to the world that is so Instructive, so Personal, but We also see the enemy of God and man using every means available to restrict, to dismiss, to cast aside What This Gift of Divine Love has been given for, and that is, to give to mankind a Means, a Purpose, a Way, to see morality in the greatness It is, the strength that It gives to human life, and the Purpose for which It has been implanted at the moment of conception.

The name of It is easy to remember. The word 'Soul' says that the individual has an Important Part that is unseen and yet evident, because of the ability of mankind to know right from wrong, good from evil, and to understand that these things affect the Soul instantly. There are so many ways to describe what an Important Factor the Soul is to mankind, and also to encourage every living individual to see what a Great Gift of Divine Love human life is. It is the Greatest Gift mankind could receive, and that

is to be of human way, bearing the responsibility, the Love of a Soul, that nothing else in existence has.

We hear arguments over whether or not Saints really exist. I promise you Saints exist, and if you look at What We have spoken in a positive, loving way, you will say:

‘God, thank You for the Gift of the Soul, because through this Gift, I will be returned to You at a given time and a given day.’ So be it.”

JANUARY 13, 1998 AT 1:16 P.M.

**SAINT ALPHONSUS LIGUORI
SAINT DOMINIC
SAINT TERESA OF AVILA**

“There are Three of Us present. Our Names you are familiar with: Saint Alphonsus Liguori, Saint Dominic, and Saint Teresa of Avila. We are All known throughout the world, and Each of Us is known for a different way of life, and how We lived in Our lifetime at a given time.

We hear men, women and children discuss historical events, and thrive on the practices of these events. Some of them were dangerous because they involved struggles of wars. Others were dangerous because they permitted much immorality, impurities of the body, the mind; and then there were others that were historically known in the brilliance of how they explained things, how they were able to exercise their talents that covered many subjects, some historical, some Spiritual, and of course, this list is endless.

Today you live in a time wherein The Father has handed a Gift of Divine Grace, Divine Love, Divine Hope, Divine Description, Divine Instruction. It is Important, 'this time', because it is a time wherein mankind is being instructed in a Personal Format, Formula, on the Importance of human life, What it contains, what is expected of it, and the Supreme Goal for which all human life was created from the beginning of this Creation of life.

We see many books written on numerous subjects. The authors were able to depict their interpretation of subject matter, that in some ways was beneficial, some ways demonic. Mankind thrives on learning new things, thrives on new subjects, new adventures, and the idea of progress.

The Father has given to mankind a Miracle of Divine Love. Hundreds of Us Here in the Heavens have spoken openly, not always giving Our Name at a given time, but the subject matter was obvious to those listening, that it was not of human direction or human abilities.

Today as We gather Here with you, those who are writing What We say, We

are also handing you responsibilities that to many would be unnatural, but you must understand it is not a natural source of communication you are listening to. It is Supernatural. All that has been delivered thus far must travel throughout the world. We are ever aware of the rejections of What We have delivered through *a small voice*, but this cannot stop the spreading of All the Instructions that have been so deliberately dictated, because Everything hands to mankind the knowledge of the Importance of human life, and that human life is above all other created living matter.

So today, as We join Each Other in dictating What The Father wants mankind to know, We say in unison: 'Be strong, be firm, and never allow any threat or rejection deny you your right to see that All We have given is passed throughout the world in languages that others understand; and, if possible, if there are any pictures available to you of how We appeared in the human form, in many ways it will give certain individuals more ability to understand that though We are no longer living as man, We are present in Another Form, because of the Soul that We were given at the moment of Our conception, and

this Soul remains Forever, because It is a Portion of The Creator, and the Place in which It speaks to you from has a Name you know. It is called "Heaven".' So be it."

JANUARY 14, 1998 AT 12:50 P.M.

SAINT ALPHONSUS LIGUORI

“I am Saint Alphonsus Liguori. This *little one* through whom We All speak faces many charges that to Us are deplorable in their meaning, because the charges are based on an individual’s personal theory of what Love The Father has for mankind.

The world has been Blessed abundantly by This Miracle of Divine Love. Through It, mankind is learning more about the Importance of human life, the Dignity of human life, and that it is Greater in value than any other living matter or thing. Human life has been Blessed abundantly by the Gift of Divine Love that no human being is born without, and that is a Portion of Divine Love, called ‘the Soul’.

We hear individuals who are joined in human friendship, and they declare that they are bound by a gift called ‘soul mates’. This, of course, is the humanistic version of how human beings declare that they have another one who they are comfortable with, or

who is agreeable to so many practices, thoughts, ideas.

The world has been abundantly Blessed by This Gift of Divine Love that The Beloved Saint Joseph is not just present in, but is what one would call ‘The Constant Presence of Direct Communication with The Creator of All Things’. Mankind says, ‘He was human.’ The only way that mankind could have related to The Holy Family was to allow The Holy Spirit of The Father to walk a human role for a period of time, and then at a given time be taken away without those who surrounded Him knowing the Greatness of Who they associated with, in such an Important Position as ‘The Foster Father of The Son of God’.

It is sad when We hear so much human deliberation, denying the Greatness of What The Father is giving to the world, as a parallel to the Time The Holy Family walked the earth, and that is This Miracle that instructs in so many ways, such understandable Wording, the Importance of human life above all other things, and the Greatness of the Goal of the Soul that is in constant touch with The Divine,

through the human body of all living men, women and children.

When This Gift was first given to the world, Many of Us were present during the discussions that supposedly 'learned' men and women were making decisions on the Validity, the Importance, the Value, and of course, the Strength that This Gift was capable of.

Mankind must remember that a long time ago, a man who was close to The Son of God, had extreme jealousy, never really knowing what encouraged it, what justified it, and he was the one who sold The Son of God for a very small price.

Today you have many who are acting in a similar manner, because of their lack of understanding what an Important Miracle of Divine Love is at their beck and call, is at their touch of a piece of paper explaining many important issues that would give them a strength to conquer their weaknesses, and to help them use their choice of life, their vocation, to help millions of men, women and children throughout the world.

The little one through whom We speak, walks in obedience and trust only to Us, for many times she is warned: 'Beware, because of not just the lack of Faith of others in a Magnificent Happening, Occurrence as This is, but their jealousy that can be momentarily dangerous.' That is what happened to Judas in a moment of weakness because of his extreme jealousy; he stripped the world of The Greatest Gift The Father had given the world. It is important that when The Saints deliver Messages through This Great Miracle, it is always to enlighten individuals of all degrees of intelligence to the awareness of their possessing a Special Gift of Divine Love, called 'the Soul'.

The Father, in His Design and Creation of human life, instilled in it so many valuable assets: the ability to learn, to project, to reproduce, and to understand so many things that no other living thing has the ability to do.

It is sad when We see This Miracle of Divine Love cast aside, abused, insulted, lied about, because This Gift is for the benefit of all races, all colors, all creeds, and It is to be remembered

as a Teaching Miracle of Hope, so that mankind does not forget, or ignore, that within each life there is a Soul, and that Soul will one day return to from Where It came, representing the individual in whom It was placed at the moment of conception. A Gift of Divine Love never ending, a Gift of Divine Love proving that The Creator is Beyond what human life is, and has Powers Unlimited, and as He once gave life, He created it for it to return to Him, That Portion that is a Part of Him. So be it.”

JANUARY 16, 1998 AT 1:31 P.M.

SAINT JOSEPH, THE HOLY SPIRIT

“I am Saint Joseph. This Great Gift to mankind is a Blessing of Divine Love, because mankind is a Special Creation of Divine Love. All that has been instructed through This Gift is to enlighten men, women and children of all backgrounds on the Importance of human life.

As The Heavenly Queen and I traveled at a given time, waiting for The Birth to occur, We met men, women and children of all degrees of intelligence, all degrees of happiness, and all degrees of Spiritual yearning to know more about what was termed at that time, ‘The Messiah of All Things.’ We hear men and women of all denominations of life argue points, discuss points, regarding Our Time We spent upon the earth in the human life.

The Father, in His Great Love for this Creation of His, decided at ‘this time’ to explain to the world of mankind the Importance of human life, and the Goal for which He created

it. All the Messages that have been delivered openly, and put into script for individuals of all ages to be able to read firsthand Our Words, must be passed throughout the world, and not held in one place.

Children are not being instructed on the Importance for which human life was created, and that within each human being there are the senses of protection, and then there are the senses of enlightenment, instructing mankind on the Importance of the Soul that is given at the moment of conception.

The Soul is an Important Part of daily living, because the Soul, in many ways, is the constant Reminder for an individual to be able to make decisions that are based on purity of the mind, the body, and the Soul. The Soul cannot be seen, but It is evident in the distinct knowledge that mankind knows right from wrong, good from evil, purity from impurity. Today as We look at how individuals ignore the importance of purity, it is a sadness beyond what a human mind can feel, can see, can understand.

The Father has given to mankind a Gift of Instruction, making It available for all of mankind to more fully understand what a Treasured Gift of Divine Love human life is to man.

When an individual fears losing the life of himself or herself, or a friend, this says more openly than an individual understands, because the loss of the human life immediately says, 'What comes next?'

As I close in a Divine Love with you today, I have come to remind you that All that is spoken is to give to the whole world of mankind the Knowledge, the Love that human life is born with, and that is the Gift of the Soul that is within each life that will remain, representing that individual Forever. So be it."

JANUARY 22, 1998 AT 1:03 P.M.

THE IMMACULATE CONCEPTION

“I Am ‘*The Immaculate Conception*’.

Historically, mankind has argued against sound Truths because mankind tends to lean on humanism, what is understandable to him or her regarding human life. There is so much more involved in human life than mankind can speak about logically, specifically, idealistically, spiritually, because human life automatically tends to think according to a system of understanding.

Oftentimes this type, this degree, this manner of understanding, limits human beings in regard to the True Existence of a Creator Who has created All Things, and The One Whom every individual human being will one day face in a Form, Manner, differently than what a human being can conceive, because at this meeting of an individual to The Creator, it will be through a Portion of human life that mankind has never seen, because the Portion is the Soul that is given at the moment of conception, to every

individual born to live a life as man or woman.

There are so many men, women throughout the world who diligently try to feel and elaborate on their interpretation of what the Connection is between The Divine and human life. They oftentimes resist the fact that there is a Connecting Link, invisible to the eyes of mankind, but logical, because human life was designed and is created to the Image and Likeness of God. In other words, human life has many abilities, and is able to communicate verbally, mentally, emotionally, physically; also, that human life instinctively knows that human life is Greater than all other living things, and logically has a Goal for it, that death does not close the book on what life was created for.

In some ways death is a Blessing. Because of it, the Soul of the individual has the distinction over all other living things, of being able to communicate in a different form, manner, degree, way, to The Creator Who is beyond all degrees of human mentality.

Human life has been given so many senses to depend upon. The

sense of touch, sight, are important. The human mind has a special Gift of Divine Love within it, because in the human mind it gives an individual knowledge: practical, physical, moral, and Spiritual. Granted, individuals tend to favor one portion of these Gifts, and they become dauntless in how they feel, how they interpret, how they use a particular portion of the senses, of the abilities that are God-given. That is why sometimes the human mind of one individual cannot cope with the intentions, the practices, the ideals, the knowledge of another's human mind.

This Gift The Father has given to the world, called *'The Miracle Of Saint Joseph'*, has in so many ways enlightened a few on the Importance of human life, a handful of human beings, and has handed to them the Words that describe so much regarding The Father's Will, Love, Desire, for each individual to walk in a state of purity, because of the Soul that every individual is the custodian of.

Today as I speak, I know that all who will read These Words will use their own degree of Faith in The Divine, and use their mode of

life, their moral values, their moral standards, their habits, human habits; also, their degree of understanding that there is a God Who Exists, and Who is The Creator of All Things, and that This God is also The Judge of all individuals of all races, all colors, all creeds, all degrees of intelligence, of moral values.

What I have just spoken is logically factual, but when We hear some read It, We will hear them disagree with Portions of It, or All of It. At no time in the History of human life has so much been delivered in such a Personal Way as 'this time' in which you live, and are requested to put It in print so that millions will be able to read It and hopefully follow It, because of the Soul they are the custodian of, because this Soul, as a Portion of The Creator, will return to Him at a given time, and it is important that this Soul be in what is called 'a State of Pure Grace'. So be it."

JANUARY 23, 1998 AT 1:09 P.M.

SAINT JUDE THADDEUS

“I am Saint Jude Thaddeus.

Mankind enjoys receiving a gift, especially when the gift is given with a degree of love or concern. The gift, no matter what it is, gives to the receiver an act of concern, hope, happiness, or just attention.

The Father daily hands to mankind many Gifts: the Gift of the opening of a day to act in many ways, first for caring for oneself, caring for others in necessary ways; and then the day, as it proceeds, is many times full of responsibilities, tasks, appointments, and of course, other things. Mankind greets each day in what man calls ‘a mood’, or a form of looking forward to what is to occur to occupy the day with promise, with hope, with activity, and of course, moments of happiness in some form, some way.

All of The Saints walked each day, looking at it in many ways that mankind in this day does; also, there were many responsibilities according to the place in which they lived, or

how they lived, or with whom they lived; so times, in many ways, have not changed. But down through time, as the years counted in a higher way, a larger number, mankind's way of life progressed educationally, and of course, according to the time, the year, individuals adapted their way of life to the particular time in which they lived.

Today as I speak, mankind has been given for some time now, much Encouragement, much Instruction on the Importance of human life, and in this Updating, mankind is now cognizant of the importance of what each day means to the body, the mind and the Soul, that in past times the word 'Soul' was not frequently spoken about or instructed on, because mankind was preoccupied with the way things in other times used their energies; also, there was not as much spoken about that other facet of human life, regarding the Soul that every living human being was presented at the moment of conception.

Children today, at this time, are not being instructed on That Portion of each of them that is a Portion of The Creator, that they are responsible

to and for, because human life has What no other living thing or matter has, and that is a Soul. Though it is difficult for so many to comprehend having a Portion of The Creator within them, it is a Fact that mankind must realize as Important, and also, a Gift of Divine Love that is above and beyond all other Gifts that human life has been endowed with.

As I speak through *a small voice*, it is important for mankind to know that The Father has Decreed This Time to be, using *a voice* understandable to all human beings, as the means, the media to instruct verbally, giving all of mankind the Value of being able to hear and to read the Importance of human life, the Reason for which it was created, and the Gifts of understanding all that it is endowed with.

Many Saints have been requested by The Father to speak openly, and allow Their Words, Directions, Messages, to be put in script so that What they would deliver would not be lost in the memories of those who heard the Words, but that These Words would be put in script for millions of other men, women and children to

be able to read firsthand What The Father desired mankind to know, to understand, to realize the Importance of human life as being Special, and that it has a Goal that nothing else living has, and that is to return to Him because He created it to be this way. So be it.”

OUR HEAVENLY MOTHER

“I am your Heavenly Mother. I speak often in a conversational manner, way, to those present where this *little one* is. The reason I speak so Personally, so clearly, is for you to understand in a logical degree, the Importance of human life, and why it was created in the manner it was created to be.

Each day of human life mankind has the ability to think, to act, to project what he or she feels, knows, understands, or wants to communicate about. Granted, there are some who have disabilities, but most individuals practice daily the Gift of communication from themselves to others, and to understand from others to themselves, subject matter.

Children are being instructed on many subjects, on how to take care of themselves, how to write, how to read, and of course, use the faculties they have to be able to learn more about many areas that they might be involved with at a given time, at a

given age, making full use of human mentalities, human abilities, human understandings.

When This Gift through which I speak was first handed to the world, men, women, and even children heard Many Saints talk openly about the Importance of human life, and that every human life possessed a Gift of Divine Love at the moment of conception, called 'a Soul'.

Many times when We saw individuals leave the presence of this *little one* through whom We speak, We heard them say they could not remember Everything that was spoken, so in desperation to relate What they heard, many would go to a man of the clerics and try to verify the subject matter. Needless to say, the subject matter was cast aside, diminished, and/or totally rejected.

Today as I speak, I speak with a Great Love for all human life, a Divine Love, because human life was created for a Special Reason, a Special Goal, because of the Soul that human life is the custodian of at the moment of conception. Rarely do We hear an individual wonder about the Soul,

because all that is natural to human life supersedes any concentration on that God-given Gift that is unseen, but that gives to human life the sensitivities to know what is right, what is wrong, what is sin, what is not sin.

It is not always the mentality of a human being to rationalize different occurrences in life, so through the Soul of an individual, it is the Soul, as a Portion of The Creator, that awakens the intellect, the caution, the justice, the knowledge of what is pure, what is impure, in thoughts, deeds, words, or actions.

It is sad when We hear rejection of This Beautiful Gift The Father has so generously given to mankind, a Gift of Instruction, a Gift that has a Personal Love in It through What It instructs individuals to understand regarding the Importance of human life, and its closeness to The Father, because of the Soul that He places within each conception.

An animal does not believe in God. A tree does not believe in God. The food that man consumes to give physical strength to oneself does not have the intellect to believe in God.

Only human life is given this Gift, and mankind many times ignores what he or she calls 'the conscience'. The conscience is oftentimes an immediate reflection to alert an individual to think before acting, before looking, before speaking, before following.

So much Logic has been delivered to mankind because of the need mankind has for It. The enemy of God and man is evident throughout the world, and I assure you there is great jealousy where This Gift of Divine Love, through The Beloved Holy Spirit of God, is evident in many ways, many degrees.

I could speak endlessly on this subject. I speak today because All the Gifts of Divine Love that mankind is the possessor of, are being cast aside by immoralities and rejections of purity over impurities, and right over wrongs.

Each time One of Us speaks it is a Blessing, not to just those who write What We speak, but to all who will read What We have spoken and apply It to their individual way of life, using their conscience, their will, based on their personal belief that only God

could have created all things, and that God is The Recipient of all that every individual acts in, on, for, and with. So be it.”
