PREFACE

These “*Stories From Heaven*” could not have been given to the world at a more appropriate time than now. The world is in a terrible state of corruption and confusion politically, religiously and socially. Honesty, modesty, genteelness and morality seem to have been eliminated from our way of life, at least in effect if not consciously. However, God has given the world a Miracle it needs.

On July 28, 1967, *The Miracle Of Saint Joseph* was formally announced to a True Mystic. God had chosen a woman to give us the sound direction, hope and example we need. It was not the first time God had chosen a woman to accomplish His Purpose, always for a specific task in a particular time. This True Mystic for our day is Frances Marie Klug. She resided in Southern California as a wife, a mother, and a grandmother until her death on November 15, 2009.

In This *Miracle Of Saint Joseph*, Many Saints have come forth to speak through Frances Klug. These “*Stories From Heaven*” are just a few of the thousands of Revelations received through her. Very often these

Revelations were preceded by extensive Teachings which time and space did not allow us to put in print. However, some of these Teachings will be found in several of the many Volumes of "*Stories From Heaven*".

In these Revelations The Saints refer to Frances as "the child", "the funnel", "the spoon", "the instrument" and "the little one". God made her our Spiritual Mother. For many years now, because of this fact, she has been called "Mother Frances", or simply "Mother". Heaven also refers to people of all ages as "children" and emphasizes time and again, This Miracle is for people of all races, all colors and all creeds.

For someone turning the pages of these "*Stories From Heaven*" for the first time, they will easily recognize the sound logic and sound direction the Messages contain. Mother Frances heard the Words with the Ears of her Soul, and would repeat Them aloud when she was told to do so.

This Teaching Miracle is a direct parallel to the time Our Lord walked the earth. He did not loudly proclaim to everyone, "I am The Son of God." He taught in a quiet manner, simple, extensive, but always detailed

in repetitiveness, instilling in those listening what He wanted them to remember. He taught in parables, short, simple stories containing moral lessons. He knew men could more easily understand and remember the point He was trying to make this way. His “Teaching Stories” pertained to everyday living, practical matters, and how to become a Saint. He gave hope through these stories. He gave example.

Now in our time, God is once again giving us “Teaching Stories” through Saint Joseph and His instrument, Mother Frances. Through her, in a quiet, unassuming and genteel way which appears so “natural”, mankind is again being taught the Purpose of life, and what God expects man to be like in his daily living. People feel hope in these Teachings, Example always given.

Two major Revelations of significance have been given for us in our day. Our Heavenly Mother is Part of The Divine, and Saint Joseph is truly The Holy Ghost. These should not bring an immediate rejection, but should pique our curiosity and interest.

Our Faith in God is based upon many mysteries. Whether it be The Holy

Trinity, the Incarnation of God, or The Holy Eucharist, men strive to understand These, trying to grasp a small glimpse of the Beauty of the Truth They Are. These mysteries also pique our imagination and interest. However, even though we know God revealed these mysteries to mankind and we accept them in Faith, they still remain just that, mysteries.

One has only to look at these “*Stories From Heaven*” to see the value They are, and to feel the hope They instill. No man can logically deny purity of thought when it is so obvious. No man can deny purity in direction, when it is based on sound morals, sound values, sound standards. Do not be blind to truth. Skepticism is for people who are unable to see the truth of a matter or situation, and many times skepticism drowns out purity because it is full of ego and pride in one’s self. Skeptics find it an easy out to disclaim truth.

There is no doubt that it takes time for such Phenomena as This Miracle to penetrate even those minds who feel they are capable of discerning such Phenomena. We must not be governed by purely another man’s determination, but we must understand that logic, sound reasoning and purpose must be the criteria of our Faith in God.

PLEASE READ

In some early volumes of “Stories From Heaven”, many Revelations describe edifices to be built on Saint Joseph’s Hill Of Hope. As just one facet of The Miracle Of Saint Joseph, God invited men of all races, colors and creeds to participate in building a “City Of God”. Every building, chapel, bridge, shrine, garden, amphitheater, and even a hospital and a research center, to be included in this Magnificent Project, would be designed down to the most minute detail by Heaven.

This City Of God would be a place of great beauty for men throughout the world to visit, to gain true spiritual strength and to learn firsthand that which Heaven wants all men to know.

Much to the great loss of every man, woman and child in the world, this City has not been built. Innumerable obstacles were placed in the way of Its completion by those who would have benefited the most. Not enough men volunteered to return the gifts of their time and talents to God. Not enough people came forward with the money needed to participate in God’s Plan in a monetary way. Donations became less and less, because the men in the Church said, “Don’t give.” They discouraged people from participating.

For many years, Mother Frances and a handful of volunteers made every effort to overcome all opposition to men’s lack of wisdom, to build this City for God. However, we are not at a total loss. The Sound Teaching and Sound Direction given by Heaven in the many volumes of “Stories From Heaven” continued through the years, and will benefit people everywhere for many generations to come.

In the future, if the hearts and minds of men change, the world will one day see the Beautiful City Of God.

**All Revelations are delivered
spontaneously and continuously
as witnessed by all those present
at the time.**

“A SUCCESSFUL FUTURE”

“It is a natural instinct, thought, desire, hope, and many times a drive to accomplish success in different areas of life. To each individual, there is

Learning

Schooling

Working

Socially

Artistically

Physically

Financially

Emotionally

Monetarily

stronger drives, interests, ambitions, talents, hopes, dreams, and abilities to forge ahead.

This is important because it gives meaning to our lives.

Sometimes so much emphasis is put on these areas of striving for

expertise and/or success, that the real Goal of life is overlooked, or even forgotten, and that is to become ‘a Saint’.”

FEBRUARY 8, 1994 AT 3:00 A.M.

“Life is a privilege because it has such an extremely high and beautiful Goal, Sainthood.

It is sad when all that radiates from an individual is depression, arrogance, lack of enthusiasm, little motivation, sullenness, negativism, sarcasm, egotism, stubbornness and any other attitude that deprives the individual and anyone else close to them, little happiness, little incentive, and/or little inspiration.

What a waste of all the Gifts associated with healthy enthusiasm, plus chances to be happy and make others happy, also the pleasure it can be to radiate the privilege of being born and strive for the Goal available to every human being, Sainthood.

Ask yourself:

What category do I represent?”

FEBRUARY 13, 1994 AT 1:00 A.M.

“LOGIC DEPICTS SECURITY”

“Logic says there is a reason for all we are, all we know, all we feel, all we are interested in, and all we do. Also, logic tells us we exist for a Purpose, and this Purpose has an Ultimate Goal, Sainthood.

It is innate in the human way of life to want to be successful, many times knowing that we will never reach it in a grand way, becoming known to millions of people, through reaching for a goal of achievement that is stimulating and fulfilling.

When we reach a sound Spiritual understanding based on sound logic, we will find peace, contentment, and much satisfaction, when we find ourselves in a union with God that supersedes extreme popularity with thousands, or even millions of people we will never know.

We should *thank God* when we find peace of mind in our union with Him, depending totally on this Relationship, because of the strength it gives, the happiness in the peace that is

reached with this unity, that gives our Soul not just happiness, but *assurance* that we have accomplished the path to the Ultimate Goal, Sainthood.”

**“THE PRECIOUS GIFT OF A MINUTE IS
SOMETHING TO THINK ABOUT”**

**“60 minutes in one hour
1,440 minutes in one day
525,600 minutes in one year
2,628,000 minutes in five years
5,256,000 minutes in ten years
7,884,000 minutes in 15 years
10,512,000 minutes in 20 years
13,140,000 minutes in 25 years**

**How do I, or how have I, used
these minutes in my life?**

**In a minute a life begins. Also,
we must remember, in a minute life can
end.**

**In between these two minutes,
much can happen, even to the point of
changing the course of the physical,
mental and moral lives of millions of
people.**

**Every moment of every day has a
reason for it, and will be accountable
to God, because of the Importance of
human life and the Soul He placed
within it.**

Sleep nourishes the body with mental, emotional and physical strength.

Food nourishes the body in the same manner.

School, work, activities that stimulate and/or use the mental acumen and physical abilities, have a responsibility that is not always recognized as just a physical and/or mental norm to be concerned about, or to use as the main purpose of life, because everything an individual does, is involved in, has a direct effect on the Soul.

Morality that is expressed as sound moral values, sound moral standards, is basically the foundation for the goal of human life, Sainthood.

In one minute a venial sin, or even a mortal sin can be committed.

In one minute the course of a life can change.

In one minute a violent storm, earthquake, fire, or some unseen disaster can change the course of many lives.

Don't Ever Underestimate This Precious Gift Of A Minute, Because Of The Importance And Power In One Minute."

FEBRUARY 13, 1994 AT 1:31 A.M.

“Survival to mankind is a constant thought in all areas of life.

Man says: ‘Water is important to me, it has a purpose. Food is important to me. I exist because of food and water. Rest is important to me, because through my rest my body gains strength. Exercise is important because it strengthens my body.’

How many daily say, ‘Every act I perform today will help my Soul please God, and give my Soul the means to become a Great Saint’?”

FEBRUARY 19, 1994 AT 2:00 A.M.

**“THE MAGNITUDE OF GOD
IS INCOMPREHENSIBLE”**

“Even the most brilliant human mind could not fully understand the Ultimacy of God.

Lately, the emphasis is on Jesus because it is more understandable to human thinking.

What has come through this *Miracle Of Saint Joseph* is understandable because of its range of logic in Direction, and that is why it is so important to be put before the people. It is sane thinking in a realm of human understanding.

Our love for someone else is in reality a small touch of what God feels for us. Real human love should be seen as the closest thing we can relate to regarding God’s Love for us.

His Love for us is a Love beyond our comprehension, and obviously has Great Purpose in It, because logic tells us we didn’t just happen, nor was man’s sensitivity man-made, so it’s time for all of mankind to realize there was a

purpose for human life to be created, and there had to be an Ultimate Love and Reasoning for it, and behind it.”

FEBRUARY 26, 1994 AT 2:25 P.M.

“IDOLATRY”

“It is many times referred to as it being some place else, regarding someone else, and is rarely seen as being a part of an individual’s own life, own manner of expression.

In this time, the word ‘idolatry’, the practice of it, can be associated with many, many things, and areas, of this time you live.

There are many instances wherein financial success, the accumulation of assets, that supersede human understanding, human identification, and/or love of another human, idolatry is not just of an image, but it forces an individual to use himself or herself as the image of great power, in different areas wherein others would fear to tread, because of the dangers that are obvious to the dignity, the reality, and the purpose of human life.

Idolatry is not to be passed off or set aside, because it can take something that is avoidable and cause an individual, or individuals, to hold this in such high esteem,

love, possession and desire, that it is offensive to all that is right, good, logical, and bears understanding, acceptance and caring.

Watch how you understand what you hold in such high esteem above God, and human love. There is a path to be a victim in and of, and that is idolatry, which does not show itself at a first glance, but it has a destructiveness in it that in many ways is totally diabolical.”

FEBRUARY 26, 1994 AT 9:10 P.M.

“HERESY”

“There has been rarely a time in History that mankind was not subjected to a form of heresy that was misleading to thousands of people because of the wrong that was so obviously directing mankind to believe, follow, or feel a sense of conditioning that drew them to follow or partake in the heresy because of the intrigue or interest aroused by what it contained.

Heresy is detrimental to logical sound truth, and it has a destructive force to the important sound issues that pertain to moral values and moral standards. Heresy is like a cancerous force that in its very existence, corrupts, destroys, and causes much Spiritual, moral, and even physical harm. So many times a heresy is hidden by the facade of good, by self-righteousness, dominance, and diabolical intervention.

I come to warn you to be cautious, to be alert, and to dissect what you are confronted with, where your Soul is in jeopardy. Evil is an ingredient of

heresy, because it is based on wrong, and it many times appears practical, ethical and logical.

I speak on this night, in this manner, hoping that you will be cautious and not accept without question, what you know in your heart is not based on a logical foundation.”

“HERESY IS DEVELOPED UNTRUTH”

MARCH 2, 1994

**“WE MUST REMEMBER
HOW MANY GRAY AREAS
WE USE EVERY DAY
IN OUR SPEECH, ACTIONS AND/OR
BELIEFS”**

BECAUSE

“It is difficult to speak, read and/or describe something in total exactness of truth, fact, because it depends on the individual’s ability to record in the mind, in the memory, all facets and correct details of what has occurred that is being spoken about.

It is also a result of an individual’s understanding, determination, ability, to fully describe an issue, situation and/or an incident, plus the individual’s personal ability to remember, or inability to remember, exact details.

Gray areas are in all areas of life.”

MARCH 14, 1994 AT 1:05 P.M.

**“A SALUTATION OF LOVE, RESPECT
AND COMMITMENT”**

**IN THE NAME OF THE FATHER
AND OF THE SON
AND OF THE HOLY SPIRIT. AMEN.**

“For several years it has become for open discussion, to reveal that one considers himself or herself a Christian. This word is spoken in a manner that avoids a definite area of Christianity, or avoids defining what the individual believes makes him or her a Christian.

In many ways, when the statement is made, it immediately speaks of a commitment to believing in God, or sometimes in the manner it is spoken, it appears to say that the individual has joined in the belief of Jesus.

There are so many denominations of Christianity, and in these there are some that are based on an individual's interpretation on what Christianity means. Those who follow this type of Christianity could very easily be led into a false interpretation of what

sound, true Christianity is based on, and the responsibilities that are involved in it.

The Roman Catholic Church, as well as some other major Christian denominations, have a very Beautiful Sign, that when It is expressed respectfully and in dignity, is an expression of commitment, and that is *'The Sign of The Cross'*, openly made, properly performed in dignity and in exactness. It is sad to see so many who make this Sign in such a slovenly manner, obviously not really thinking of the Importance of what this *Sign of The Cross* means, depicts, says, and the real purpose behind It.

'I believe in God, I believe in The Son of God, and I believe in The Third Person of The Holy Trinity.' The words are simple, the belief ultimate. *'In the Name of The Father and of The Son and of The Holy Spirit'* is not just a statement, it is a belief, and with this comes a responsibility to more than the words, but there should be a conscious effort at all times to live up to this belief, and this is through obedience to God's Commandments in Their fullest measure, Their fullest

purpose, according to how He intended Them to be obeyed.

Being a Christian is sometimes a security blanket to appease others or to make one's self feel they are part of a big organization that has some kind of goal beyond what is ordinary.

Children should be taught what *'The Sign of The Cross'* means, and Its responsibilities beyond what the words say. Christianity is a way of life and bears in it the Goal of Sainthood. It is not being taught in the correct manner.

There are so many false prophets making a monetary living off of those who are deliberately searching for something, someone, to give them the strength to endure the disappointments, the trials, the pressures, the weaknesses of human life. It is important that the correct instruction be transmitted in understandable ways, so that Christianity is seen for What God Intended It To Be: a means, a manner, and a mode, a code for daily living. So be it."

MARCH 16, 1994

**“A PERSONAL REVIEW
OF HOW I SEE MYSELF”**

“Am I a *procrastinator*?

Do I constantly or oftentimes put off doing something that could affect my life or the lives of others?

Do I habitually postpone important appointments, important issues, important decisions?

Do I understand that to *procrastinate* can affect other people’s lives as well as my own, in ways, in manners, in areas, that could be detrimental to a happier life, a fuller life, or a successful life?

Do I *procrastinate* in my Spiritual way of doing things?

Do I put off saying prayers because I am not in the mood at that time?”

“Am I prone to personally *brainwash* myself, by making radical decisions that make me feel important in the eyes of others?

Do I constantly indoctrinate extensively and thoroughly, to affect a radical transformation of belief and mental attitude to support me when I want to get my way?”

“Do I *vacillate*, constantly wavering in my mind, on decisions that could give special credence to an important fact, for a particular important purpose, and/or for an issue that could make a great difference to the life or lives of other people?

Rarely, does anyone see himself or herself as one who constantly *vacillates* when a decision, minor or major, must be made. Few people associate the word *vacillate* with their own manner of accepting responsibility, and/or in decision making, that can affect their own life or the lives of others.”

“JEALOUSY”

“Am I *jealous* of others’ successes, others’ appearance of importance, others’ accomplishments, others’ abilities, others’ physical appearance?”

Do I understand how *jealousy* can affect my attitude, my personal behavior, my ability to respond to others favorably, properly, kindly, sincerely?

Do I see *jealousy* as a detriment to my own self-esteem, and to my understanding that *jealousy* has a destructiveness in it that is many times irreparable?”

“Am I prone to *lying*?”

Do I believe my own *lies*?

Do I recognize I am *lying*?

Has *lying* become a form of bragging because I am insincere?

Do I criticize others who *lie*, or I think they are *lying*, because *lying* has become such a part of my personal nature that I do not see this fault

within myself, but readily recognize it in others?"

“Am I a *complainer*? If so, what area do I use to *complain* about — others’ successes, others’ personalities, others’ way of life, others’ intentions, others’ manner of spending money, others’ mode of living?

When I look in the mirror, how do I see myself? How do I judge what I am all about, my intentions, the manner in which I treat others? Am I sincere, am I indifferent, am I understanding?

Do I sincerely care how others see me, or do I feel that ‘I don’t care’ because ‘I have practiced criticism and complaints’ so much that I instinctively reject what others think, inwardly supposing that they, like me, do not have good thoughts about others?”

“Am I addicted to *excuses*? Do I constantly make *excuses* when there is no *excuse* necessary, just an honest reply would be sufficient?

Do I understand that many times *excuses* are a demeaning reaction to another individual, because an *excuse* either causes confusion, or setting aside an issue, a situation, an appointment and/or a contact that leaves the door open to a later, more responsible reply or action?

***Excuses* are nothing but *excuses* in all areas of human life, many times used as a cover-up because an individual can't face the issue, doesn't want to face the issue, or is incapable of facing the issue for some reason or other.**

One of the most important areas for *excuses* is in Spiritual promises, when one promises to change their lackadaisical indifference to a more sincere response to formal practices, following God's Commandments, and recognizing a more Spiritual need in their lives."

MARCH 21, 1994

**“A BRILLIANT MIND IS NOT NECESSARY
TO UNDERSTAND THAT HUMAN LIFE IS A
GIFT OF DIVINE LOVE”**

“One of the first steps to Sainthood is improving our moral conduct in all areas of our attitude, our actions, our standards, our morals, and our goals, remembering we were made to the Image and Likeness of God, in that we have an intellect, a will and a Soul.

God is above any, and/or all understanding, but we must see Him as All Powerful, and The Creator of All Things. Thus, through our conscious and innate nature it tells us we have a Purpose for life, and must fulfill it according to His Will.”

MARCH 21, 1994

**“FACTS TO BE A
DAILY GUIDE OF LIFE”**

“All moral actions, thoughts, or involvements, that we act, think, or become a part of, originate in our sense of right over wrong, and are the result of our WILL to do, reject, and/or be a part of.

MORAL OBLIGATIONS

MORAL INTENTIONS

MORAL COMMITMENTS

MORAL DECISIONS

We must always remember, all we do must have GOD’S COMMANDMENTS as the object of our decisions.”

APRIL 18, 1994 AT 5:30 P.M.

“THINK ABOUT THIS”

“The brain is a totally comprehensive Gift of Divine Love. All thoughts, actions, physical abilities in human life are initiated in and through the brain.

Positive and negative thoughts, actions and decisions are coordinated and implemented through the function of brainpower.

Categorically they are unlimited in number, but so few times does anyone give credit to the Magnificent Gift of Divine Love that the brain of human beings is such a remarkable asset to life.

It is a catalyst of all the actions of life and is the method of helping all of the senses of mankind to be productive, plus fulfilling so many physical abilities that God so generously instilled in human life as a Gift beyond any other living thing.

We consider ourselves civilized, yet there is a continuous and ugly

show or human behavior of anything but civilized.

All ages are active in various areas of the following:

Senses

Hearing	Spirituality	Sensitivity	Enthusiasm
Speech	Intellect	Desire	Moods
Feel	Nature	Jealousy	Judgment
Smell	Personality	Envy	Interest
Taste	Morals	Hate	Mobility
	Memory	Preference	Character
	Decisions	Defeat	Ambition
	Knowledge	Sorrow	Sensuality
		Illness	Inspirations
		Success	Motives
		Hope	Ingenuity
		Initiative	Creativity
		Emotions	Dreams
		Learning	Intentions
			Viability

Loyalty	Selfish
Trustworthy	Careless
Ignorance	Fearful
Mannerly	Vulnerable
Indifferent	Athletic
Cautious	Musical
Callous	Consternation
Considerate	Bias
Lying	Capability
Interpretative	Sad
Volatile	Happy
Mischievous	Intimate
Polite	Trusting
Ignorant	Forgetful

Ask yourself, how many areas of human association and application would I add to the above list?

Am I aware of the importance of how I use this Precious Gift of Divine Love, my brain, for the benefit of my Soul and Its Goal — Sainthood?”

APRIL 27, 1994

**“NOT JUST SIMILARITY TO
GOD’S COMMANDMENTS
BUT A PATTERN TO AT LEAST THINK ABOUT
IN REFERENCE TO DAILY LIVING”**

- I “Ignoring sound authority**
- II Wrongful, distasteful name calling, blasphemy, cursing, undermining the dignity of someone else**
- III Purposely, and/or through sheer ignorance, forgetting Spiritual thoughts, prayer, and/or recognition of the importance of time to be spent for one’s Soul**
- IV Respect is the key word that registers one’s understanding to the necessity of dignity in response to authority, family, friendships, and people in general**
- V Killing — reputation(s), abilities, ambition(s), enthusiasm, abortion(s), euthanasia, murder, another’s will**

- VI Adultery — suggestive speech, immoral advances, immoral sexual acts, actions, homosexuality, lesbianism, rape, incest**
- VII Stealing — someone’s good name, reputation, dignity, possessions, opportunities, someone’s will**
- VIII Lying — false accusations, misinformation, destroying reputation(s), dignity, position, understanding, love, good thoughts**
- IX Obsession, possession, flattery, false compliments, indifference to dignity of the marriage state**
- X Possession, keeping under false pretenses, ignoring ownership”**

“The above follows a pattern of decisions, determinations, made through the personality, nature, practices, beliefs, and moral values and moral standards of an individual, that can be understood to emanate from the logic, and/or illogical understanding that is registered in the brain, because of the will, practicing values,

understanding, and/or immoral or moral values of an individual.”

MAY 1, 1994

**“DON’T IGNORE MORAL TRUTHS
AND IMMORAL FACTS”**

“The obvious diabolical intervention in moral families can be seen through parents and siblings *tolerating*, but not fully morally accepting, the boldness of a member or members of their family, who defies morality and boldly acts out against God’s Sixth Commandment, thus disobeying several other Commandments.

In many cases, the boldness, arrogance of the defector, is repulsive, abusive and totally destructive to the unity of a family, because it is a constant hurt, stigma, disappointment.

It is not a case of self-righteousness on the part of the family, but it is amazing to find how much hurt, concern, extra responsibility and even abuse occurs by the defector’s demands.

Physical problems would be attended to in a thorough way, but moral problems too often are allowed, so as to not cause the wrongdoer to

become irate, defensive, and leave the family.

What is the code of honor, of ethics, of logic that should be applied?"

MAY 1, 1994

**“LIFE HAS TWO DIMENSIONS
PRESENT — FUTURE”**

“The road to real success cannot be paved with indifference, a lackadaisical attitude or just wishful thinking, but with sincere application of intellect, talents, initiative, endeavoring to succeed for good reasons, sound goals and personal accomplishment.

What good is success in the eyes of one’s self and other people if the Soul of the individual is shaded, shattered, or headed to a low place in Purgatory, or a permanent place in Hell?

Always a sad remark to hear someone say is, ‘Live today for tomorrow you may die.’ This person or persons is ignorant of what life is all about.

Intelligent, logical determinations based on all the attributes that man has been endowed with, should automatically reason that mankind has an ultimate Purpose, and it is not all fulfilled in the physical life.

God's Commandments have and had the foundation of reason, that man is not a temporary creation, but has a permanent place in God's Plan."

MAY 1, 1994

**“LOGIC IS A LIFE SAVER”
“A LACK OF LOGIC CAN KILL”**

- 1. “Not knowing how to swim before you jump into a deep pool of water.**
- 2. Taking one step into quicksand by accident and/or just to test it.**
- 3. Standing in the wrong place during a serious earthquake.**
- 4. Turning your back on a wild animal.**
- 5. Playing with a rattlesnake.**
- 6. Ignoring the danger of a black widow spider.**
- 7. Try to fly an airplane with no knowledge in how to handle it.**
- 8. Playing with a rabid animal.**
- 9. Take foolish chances with high voltage electric wiring — cables.**
- 10. Standing in water (with bare feet) fixing an electrical outlet.**

11. **Taking dares with liquor, drugs, adultery.**
12. **Approaching a gang of hoodlums on a dare.**
13. **Practicing Russian Roulette.**
14. **Accepting immorality on dares, or just personal weaknesses.**
15. **Enjoy being called a daredevil.**
16. **Ignoring God's Commandments because of the inability to see the sound depth of logic in the full meaning of each one of Them, plus the importance They are to one's physical, mental and moral health."**

MAY 1, 1994

“FACT IS RESPONSIBILITY”

“Unhealthy food is easy to get used to.

Unhealthy morals are easier to accept each time they are acted out.

Unhealthy drugs can become a difficult, even impossible habit to break.

Unhealthy language can become an addiction.

Self-pity can become self-destruction.”

MAY 14, 1994 AT 2:00 A.M.

“The logical theory behind the reasoning for which Christianity was begun, was to instruct mankind regarding the soundness of human life and Purpose for which it was created.

Christianity also introduced the logic of morals and the wrong of immorality.”

MAY 21, 1994 AT 7:50 A.M.

**“DANGEROUS HABITS
CHARACTERISTIC
THAT ARE DESTRUCTIVE TO
ONE’S SELF AND TO OTHERS”**

- 1. “SELF-RIGHTEOUSNESS due to a need for attention and/or self-esteem.**
- 2. SCANDAL used to eliminate the opposition and/or someone, something, more favorable.**
- 3. INAPPROPRIATE false information to diminish or blacken the name of someone else.**
- 4. FALSE accusations to cast a shadow of doubt on another’s abilities.**
- 5. ENVY based on a lack of full knowledge to the subject, individual or organization, that is demeaning or even causes a wrong, harmful reputation.”**

MAY 22, 1994

“RIDICULE”

“Ask yourself, do I have the habit of ridiculing others?”

Many people, because of their own inadequacies, constantly ridicule others. What satisfaction that is received from such behavior is difficult to fully comprehend, because ridicule is such a negative, demeaning act, or word-of-mouth, a source of jealousy, inferior complex, and/or even a need for the ‘offender’ to feel a false importance, more knowledgeable, and superior to someone, or more people, or also, they are very insecure.

Is *ridicule* a sin?

Against which Commandment(s)?

Surely more than one.

Why is it a sin?

Because it casts a shadow of doubt on someone’s character, abilities, way of doing something, or casts a negative opinion on their character, personality, and/or self-esteem.”

JUNE 4, 1994

**“UNLESS
SOMETHING TO
BE REMEMBERED
WORD FOR WORD
IS PUT INTO THE
WRITTEN WORD,
IT CAN BE
MISQUOTED.”**

JUNE 11, 1994

“ALL MEN ARE CREATED EQUAL”

“Proof of this is in God’s Commandments. He did not say that some of The Commandments meant a certain race, or a certain mentality, or a certain monetary achievement. He meant all human life.

Everyone born is answerable to the same God. What a Generous God He is, by allowing people of all backgrounds, all colors, to have a Common Denominator of Rules, His Commandments.”

“STORIES FROM HEAVEN”

“STORIES FROM HEAVEN have to reach millions of people throughout the world, and it is our responsibility to see that it is done NOW.

The word ‘possible’ is oftentimes used as a cop-out based on the lame excuses inherent in human nature, but logic overrides the human excuses and says GOD MEANS NOW.

The great need for Truth to reach all races, all colors, all creeds throughout the world, is evidenced by the lack of sound moral standards and sound moral values in all corners of the world.

Praising God has become virtually a way of profiteering, based on the greed and lust for money, using evangelization, control methods, false miracles, dramatics, emotionalism, and even sometimes a clerical garb, to attract the millions of people who innately want to know more about God, and find out what He wants of them.

People are not receiving Truths, but are being pushed, shoved, and controlled by individuals who are using religion as a weapon instead of a love for God, a desire to do His Will, and there is a void of real direction to Him.

The *STORIES FROM HEAVEN* are a catalyst of what everyone needs in this time of so much demonic intervention.

Allow people to read for themselves, Truths, Logic, Sound Direction, so simply structured, that there is no need to have It explained by a highly educated theologian and/or archivist of religion.”

“WAR”

“The word ‘war’ is a frightening word of alarm, but in reality all wars are not announced even after they have begun. Some very deadly wars are introduced slowly, using a distraction that does not allow the victim(s) to realize the enemy is going to attack or has attacked.

When satan declares a war on Souls, he uses all degrees of human greed, immorality, weaknesses, egotism, self-righteousness, jealousy, and any other weakness of an individual that can be used to destroy the Soul. Satan does not care about the physical or mental prowess of a human being. All he wants to conquer is the loss of his or her Soul to God.

Daily prayers are important, because they keep our concentration, love and direction on communicating with God, thus not allowing our time, our thoughts, our actions, to become victims of the snares of the enemy.

There is a dangerous Spiritual War brewing throughout the world,

and we must not ignore all the signs that appear every day, in many ways.”

**“A MIRROR WILL NOT REVEAL
WHAT WE THINK,
OUR INNATE ABILITIES,
OUR MORAL VALUES, OR THE REALITY
OF OUR MENTAL CAPABILITIES”**

“We rarely understand nor do we categorize what our personality expresses to others, what our nature shows regarding our innate ideas, ideals, what our will truly excels in, and how deeply our self-esteem or how shallow our self-esteem really is.

Many times truth regarding one’s self is difficult, because of so many variables in how we handle what we are, and our open expression to others of how we see, feel, understand, comprehend, and act out in all areas of our behavior when we are confronted with simple issues, difficult issues, tricky issues and/or just daily issues that are normal to daily practices.

Many times we see the following responses or lack of responses in others, but at the same time, when we are guilty of them ourselves we ignore what the possible results of them

could be, such as ego, conceit, envy, arrogance, argumentative, vanity, superiority, insecurity, indifference to facts, truth; negativism, jealousy.

We also do not recognize the act of patronizing the others' opinions, demonstrating our personal insecurity.

Also, we do not recognize being brainwashed by those in charge or in authoritative positions, regarding our moral values, our Spiritual values, our monetary values.

Also, without question, we many times become involved in complicated theory on issues that sound important but are personally damaging to our Spiritual goals, our moral goals.

Granted, many times men, women and children forget that the bond between themselves and other people must be dealt with, first on their own identity that is based on the safety of their Soul, the protection of their Soul, and the Goal of their Soul.

Actually, the strength in this practice would give more personal satisfaction, and a tremendous amount

of strength and example that nothing else could give.

It is sad to say that this is not a common practice, because most times the effort to ‘get along’ comfortably with other people excludes God Being First And Foremost.”

“When something becomes decayed, it is either ugly, detrimental to one’s health, and/or harmful to one’s touch, smell and/or ingestion.

When morality shows signs of decay, it has an indefinable stench radiating from satan. This stench is not always considered to be in the sense of smell, but readily detectable in the personal lifestyle of an individual, or individuals involved in the degradation of moral values and moral standards that deprive the individual’s Soul of purity. It becomes obvious through an individual’s attitude, actions, appearance, speech, and personality, in moral acceptances of all that is impure and against God’s Commandments.”

**“INTELLECT — PHYSICAL
SPIRITUAL — WILL”**

“Unless a person has a specific learning problem, there is no excuse, except indifference, lack of motivation, lack of interest, that is the reason to not want to learn something new, something different, something that could make life more interesting, possibly more fulfilling.

A wasted intellect is a moral crime, a disaster, and ridiculous. The brain is a receiver and a deliverer of our reactions to our will. Our will is our ability to choose. It is a treasury of our Gift of Divine Love.

Our will in its prime purpose, gives us the strength to make decisions in our favor, mentally, physically and spiritually.

Our will grants us the opportunity to advance, for and in what is good for us, but also, as the main pulse of our decisions it can become stagnant when we choose to allow others' decisions to supersede what we know is best for us.

Our will is present, and is the communicator, the outward expression of our moral or immoral values and standards, our acceptance or our rejection of our Spiritual practices, and all our decisions of what we accept as right or as wrong.

Obstinacy in an individual's nature, personality and will, can register negativism. Negativism has a destructive force and it travels like lightning when it is released. It can be violent in its very existence. It is many times evidenced by jealousy, envy, hate, confusion and sheer obstinacy, and can close the door on all or much that is beneficial to the learning process, and/or the ability to be successful in many areas of life.

We never lose the ability to learn unless there occurs a physical, mental problem. The practice of learning at all ages is healthy, invigorating, and is like exercise of the physical; it strengthens the whole body, and makes every age a challenge and healthier.

There are so many different characteristics that abound in an individual's sense of humor. This also is a definite result of the will, because

it is a result of the individual's moral and/or immoral values, personality and practices.

For every thought, word, deed and/or action that man uses to participate in every area of daily living, the *Soul* is the recipient of the responsibility that the individual allows to occur."

**“TIME IS A GIFT OF DIVINE LOVE
WHY WASTE IT?”**

“What is one of the biggest tragedies that so many highly intelligent people succumb to, make a habit of, and many times become addicted to? It almost goes without saying, it has to be *wasting time*.

So often mentally alert individuals *waste* so much of their abilities, so many areas of their abilities, because they fall into the habit of *wasting time*. They become stagnant in their motivation, falling prey to friends, or a social life that is basically without any motivation.

Also, they choose subject matter that in its very essence is impractical, and is void of any growth that could make their lives emotionally, spiritually and physically successful.

This type of *waste* is total rejection of the Gift of one’s mind. This *waste* loses purpose to a successful sound goal, that in its very existence could make one’s life fully motivated in

results that would benefit themselves and many others.”

SEPTEMBER 21, 1994

“WE ARE SURROUNDED BY LOGIC”

“Imagine yourself in a big room and you are surrounded by ten thousand people. If everyone looked exactly alike, you would find it difficult to recognize those you have already met or know well.

There is a distinct purpose in God’s Design, creating different races of mankind. As we all are recognizable by our physical appearance, we are also recognizable by our actions, our expressions, our speech, our habits, our likes and dislikes, our morals or immorality, our religious beliefs, our intelligence in certain areas, our personalities, the way we dress, our physical appearance and expressions, our smile, our manner of expression, our personal abilities, and multiple other differences that each human being has that makes us individual.

We must remember this when we think about why God made us this way, and when we are Judged by Him at a given time, we will be Judged individually on all we were, all we

did, when we walked in the world with thousands of others that were created in the same manner we were.

There is no question that there is a God, so how can human beings not see the value of His Commandments that He designed for mankind to follow a behavioral pattern that was best for the next step, for His Decision on His Real Purpose for which He Created man?

Logic also says that human life has a Goal. It is not just like all other living matter or things. Logic also tells us that through time God has allowed advancements in man's abilities, thus giving mankind more chance, more privileges, to grow in areas that would be stimulating and encouraging to reach for higher goals. It is sad that some, or so many even, abuse these abilities and use them incorrectly.

Logic also says that there is an extreme importance on mankind's ability to choose morality over immorality.

Only a Loving God could be this Generous. Mankind was not designed as we would describe a clone to be. Only a Generous God gave mankind

so many options, so many avenues, to make life interesting, valuable, and successful.

Becoming ‘a Saint’ is the Goal of life. This is no secret. Only a fool would reject such a logical Gift of Divine Love.”

“Communication is the heartbeat of any family, business or organization.

A lack in it can cause confusion, misunderstanding, and even disaster.

SEPTEMBER 30, 1994

**“IGNORING THE REALITY OF TRUTH
ABOUT PEOPLE WE CARE ABOUT
DOES NOT CORRECT THEIR WEAKNESSES,
BUT MANY TIMES ONLY ENCOURAGES
THEM TO DEVELOP THEM”**

“How many individuals reading the following, can truly say that they are fully aware of their realistic association with people in their family, or people they consider as friends?

We should ask ourselves:

How many times have I ‘backed’ or ‘supported’ the weaknesses of someone else? Did I do it out of protection for their obvious insecurity or weakness in their personality that made them show a lack of self-esteem, expressed through an outburst of ego, moral misconduct, ridiculous judgments, egotistical opinions, involvement in actions and intentions expressing only personal self-love, basically due to a lack of self-esteem?

Many times a family member or a friend, in protection of another individual, ‘covers verbally’ the individual’s lack of integrity in their

mental and Spiritual morals, ego, selfishness, immaturity, jealousies, overbearing personality, vanity, competitiveness beyond normal limits.

Overprotectiveness can diminish and/or destroy an individual from growing strong in behavioral practices and/or self-control.

Are you or have you been a weakening factor by deliberately ignoring their faults to a point where you become the major victim of their inadequacies, and/or their rage impulses, and/or their insecurity in their relationship with others? Are you really a 'strength' or do you cater to their inability to understand when they are wrong?

Are you the 'sounding board' that gives to others their immature speech or actions, acceptance, and puts the responsibility of their inadequacies and/or outbursts of emotions on your innate reaction to cover up for them?

Are you the real victim?

Granted, all these descriptions can be devastating, but what is the solution that will benefit all parties

concerned? First, shouldn't tolerance have its limitations, and shouldn't one take a justifiable stand, thus giving a positive strength to all concerned?

Do not forget, you will NOT be standing with them at their time of Judgment."

“SODOM AND GOMORRAH”

“These words immediately alert those who see them or hear them, of one of the ugliest diabolical, demonic times in the History of mankind.

In the last twenty-five years, human obscenities, indecencies against every moral concept of mankind, are and have been practiced, reaching a degree where God can no longer tolerate such madness in human behavior, causing the destruction of the Precious Gift of Divine Love, Souls.

Knowing how God showed His Hand at this time, what makes mankind even think that He will not act now against all the vile sins based on immoral values and immoral standards for so long?

The despicable ugliness in the sins and evil practices that many people are involved with and in would be wrong to put in a descriptive understandable manner to be read, because many times the mere power of suggestion can entice, encourage,

or even dare some people to try it, to experience it, no matter how foul it is.”

**“WHATEVER HAPPENED
TO THE MORAL CONCEPT OF
THE PURPOSE FOR HUMAN DIGNITY IN
THE COMMITMENT OF MARRIAGE?”**

“Marriage is a natural, logical *moral* vocation of life, a commitment that does not just justify an intimate relationship, but is the basic foundation of legally, morally accepting responsibilities that automatically result from the basic reason of a man and woman being the foundation of family life, the two *responsible people* for the care, direction and example to children, and contribute to fundamental social morals of society as a whole.

People of all ages who choose to practice the illegal, immoral aspect of accepting and practicing all the privileges of this union designed by God, should not be allowed to think that they are totally acceptable and right in their behavior, that in its very practice is against the sound morals so clearly covered by The Ten Commandments.

So much emphasis is being put on mundane issues, thus ignoring the important issues that should be dealt with where the Soul of each human being is being bounced back and forth, ignoring the Importance of Its Existence and Its Goal.

Living together in a physically immorally involved relationship cannot be justified if the two parties are not married to each other. The sometimes hidden excuse is one or both are leaving the door open in case someone else comes along.

Marriage is a commitment of purpose. Immorality is void of any commitment.”

OCTOBER 29, 1994 AT 11:10 A.M.

**“GOD’S COMMANDMENTS
ARE THE LOGICAL, SOUND
FOUNDATION FOR MORALITY”**

“These Commandments of God, even though They are in a very abbreviated form, accentuate important facts; also, in Their conciseness, leave no options to Their full meaning. There is so much false justification of sins against so many of God’s Commandments.

The Sixth Commandment is one of the most sinned against, and many times wrongly accepted as a normal act of calling it ‘the oldest profession in the world’. This liberal justification for abuse to this Commandment does not fully define the enormously underrated immoral degradation to human life; plus, its various manners of its practice in all cultures, all creeds of human life, are totally remiss of the sound reason and purpose of this act.

The absence of concentrations on God’s Commandments, permits and perpetuates the diabolical practice of immorality, using impurity — killing —

adultery — coveting — and many other facets of human degradation, ignoring the True Presence of a Soul and/or Souls, thus justifying all humanistic weaknesses as not just tolerable, but practical and acceptable.”

NOVEMBER, 1994

“STANDARD OF LIVING”

“The full meaning of this much used statement refers to many facets of daily life, certainly not just the financial status that is so often referred to in describing the living conditions of some people.

This statement should be looked at more in depth regarding the moral values and moral standards, plus the right or wrong in social values and practices.

There is much emphasis on making it financially, but also there is much acceptance of loose conduct in the practice of adultery, promiscuity, pornography and prostitution.

In the drive for formal academic education, the so-called need to live in a coeducational atmosphere has been overworked and overlooked as a possible means for permissiveness and adultery.

Excuses come in many disguises, and this need to have a roommate to accomplish educational goals

is nothing but a facade to commit adultery. Surely everyone involved in this vile immorality can see the diabolical offenses against God's Commandments. If they act as though it should be accepted, it should be rejected by those who see the wrong in it.

Whatever happened to a *Code of Ethics*, a *Code of Honor*, a *Code of Morality*?

There are so many monumental deplorable excuses to disregard sound moral values and standards, because there are so few in the clergy that dare to stand up and be counted through their deliberate stands and talks against all that is morbidly destroying the Greatness of God's Commandments."

BUT in reality, this type of obsession with religion lacks the solemnity, dignity and inner strength and understanding, because religion is a personal union of love with God, and any emotionalism is tiring and distracting, thus eliminating the focal point of the purpose of this time, because the Soul is then secondary to the physical distraction of the so-called preacher.”

**“CRITICISM CAN BE A
MULTIFACETED WORD”**

“We should be careful how we describe people, because in describing some people, we may only see the one characteristic that our word for expressing their nature, attitude, personality, can only be described as *critical*.

When someone is prone to be critical about so many things, and/or in so many areas, that working, living or dealing with the individual is exhausting, debilitating and irritating, it is obvious that the individual’s nature, personality, and/or immaturity is destructive to relationships and any logical conclusions.

REMEMBER

Criticism has its logic, but it also has destructiveness when it is used in a category of jealousy, egoism, and/or a cover-up for one’s own inability to discern the correct objectivity of the situation.”

NOVEMBER 21, 1994

“HYPOCRISY”

“When you hear hypocrisy, do you recognize it as hypocrisy? When you see a hypocrite, do you immediately recognize the individual or individuals as being hypocritical?”

So much jealousy, envy, hate, is expressed through the very common means of hypocrisy. Many times a hypocrite is so convincing, so staunch, so emphatic, basically fully believing what they are saying, that even in the strength of their voice, they convince themselves and others to believe the hypocrisy they are spouting out, many times not realizing themselves that what they are saying are downright lies, imagination, fantasy, identifying with self-importance, exceptional understanding of facts on a given subject.

Many times hypocrites are pawns of others who feed the *ego* of the hypocrites, using him or her to an advantage for some *purpose* or *reason* that they themselves cannot accept,

because in its truth, makes them, too, feel violated against.

A hypocrite is usually a self-centered, morally weak human being. The word ‘morally’ here is usually meant as inferior to others, and this inferiority encourages them to be noticed; consequently, it is eventually a form of self-destruction socially, mentally, physically, and they find themselves cast aside, unacceptable, incompetent, irrational, and weak in stability.”

**“JUSTICE IS FAIRNESS, DECENCY,
AND RATIONAL JUDGMENT”**

“In justice there is no place or reason for pettiness and/or personal outrage based on unsound, unreasonable criticism.

Many times criticism is flagrantly used against *The Miracle Of Saint Joseph*, by people who have no concept, or little concept, of how God many times in History has used an individual to teach, and/or instruct others to be aware of the Soul.

Anger, jealousy, misunderstanding, and/or even diabolical intervention is the basis for the accusations or jealousy that is at the root of the wrongdoer. It is sad, because it interferes to a small extent with the need of the people to leadership, or to even capture the strength they need to be motivated to love God more, and understand more the Beauty of their Soul, the Purpose of It, and the way to be happier and more in control of their lives.

Jealousy is oftentimes the basis for criticism. The enemy of God and man is jealous of all that is good. It is sad when mankind allows satan to interfere with his or her ability to grow more in understanding of the Purpose of life, and the Goal God intended for it.

Jealousy is diluted with egoism and with envy, but is oftentimes based on delusion of equality, and/or superiority. These are dangerous characteristics and sometimes are inclined to produce egomaniacal tendencies.”

DECEMBER 1, 1994 AT 4:45 P.M.

**“GOD’S COMMANDMENTS
ARE ETERNAL”**

“All the *far out* interpretations of moral judgments, commitments, responsibilities, are in many ways eliminating the reality and Importance of God’s Commandments.

Why are These Important Rules of life being ignored, even eliminated, when it is obvious that without These Commandments as Guidelines for daily life, logic says that immorality, irrational uncontrolled behavior would be dangerous physically, mentally, morally and spiritually, plus detrimental to every facet of physical and moral safety.

When God’s Commandments are ignored and/or eliminated from daily living, there is obviously a *lack* of self-discipline, and sound emotional commitment to responsibilities in families, friendships, work areas, and/or sound moral judgments in daily practices.

Without any consideration for the basic Guidelines, God’s

Commandments, that are necessary for balance in all facets of daily living, there are only biased injustices, confusion, disorder, upheaval and bullish determinations that totally ignore a sound moral code of living.”

Criticism can be false witness.

Criticism can be the result of envy.

Criticism does not mean that the subject, object, or matter of criticism is positively untruth.

Some people are critical of everything, and are basically ignorant to values and obvious truths that are worthwhile.

Criticism is most times merely opinion, and/or one’s own insecurity.

Criticism when it is ‘constructive’ and done with ‘no’ malice, anger or self-love, can be an act of sincerity, concern, and welcomed.

**“TOO MANY PEOPLE ACCEPT
A DOUBLE STANDARD
FOR THEIR MORAL BEHAVIOR”**

“Logic says that human authority is not always pure in intent, content, and/or based on purity of mind, body, for one’s Soul.

Authority that is designated by ‘titles’ is not always pure in its value. Many times the title supersedes the importance of the subject, because of man’s subjection to authority.

A ‘title’ is many times misleading, because the one bearing the ‘title’ is not always with a full degree of commitment to what the ‘title’ encompasses, and the ‘holder of the title’ acting on his or her own initiative, can initiate a topic, subject, and/or ruling, that is totally humanistic, sometimes even to the point of sadistic and/or satanic involvement.

There can be many illogical ramifications to accepting half of what’s morally sound, versus the ‘open end’ of what would constitute something being morally at risk. Many

times acceptance ‘precludes any sound consideration’, that an open opinion on a subject, without full clarification to its full reality, could, and many times would permit full acceptance of its presence.

Satan many times uses a soft understanding approach to a double-edged sword of humanism, thus leaving a door open to choice rather than to sound conviction.

Human love is sometimes based on accepting:

- | | | |
|---------------------------------|--------------|----------|
| a. Immorality in
some people | g. Liars | m. _____ |
| b. Placaters | h. Con men | n. _____ |

- 4. honor**
- 5. kill**
- 6. adultery**
- 7. steal**
- 8. false witness**
- 9. covet**
- 10. covet**

Because of the deliberate updated conciseness in God’s Commandments, much, most of the full meaning of each one has been eliminated, and this in ‘many ways’ has been, and still is, a great injustice to the people who were born after the time that the totalness of meaning was confined to one or two words that were to cover a much

greater definition than possible for these few words to cover.

Logic says that clarity, full definition and examples on important subjects, commands, automatically gain full attention, and are definitely more compelling to obey, follow, and be aware of Their importance.

In allowing God's Commandments to be minimized to a narrow margin of definition, meaningfulness, and thus eliminating the full concept in detail intended by God to fully cover His Reason, Purpose and Goal for each Commandment, automatically diminished Their magnitude, purpose and importance.

Logic says it is time for mankind to see the importance of more attention to be taught, read about, and seen, regarding God's Commandments, and stop thinking of Them as past History. They will never be out of the moral standards and values of mankind's life. They are the basic values and standards for all races, all colors, all creeds, and all ages."

“HISTORY REPEATS ITSELF”

“Sodom and Gomorrah was infiltrated and saturated with immorality beyond what simple words can define. Today there are many parallels to Sodom and Gomorrah. Immorality is prevalent amongst all races, all colors, all creeds.

In defining the degradation that immorality is to the mind, the body, and the Soul of an individual, covers in great lengths, in great degrees, offenses against God and His Commandments.

Immorality has many definitions, all of which define serious offenses and sins, emanating through an individual’s mental, physical and/or Spiritual thoughts, words, actions, participation, and vulnerability.

Immorality is a moral calamity because it destroys everyone it touches, everything it touches, and all moral obligations of anyone involved in the participation of it.

So many times people of all ages forget or reject the logic connected to the result of their actions, their participation, and/or the results of these, totally ignoring the moral obligation that they will be accountable for, because of the moral standards and values set down by God's Commandments.

How would you grade yourself on your sensitivity to your own moral actions, intentions, habits, in all the areas of daily living that you are accountable to and for the benefit of, for your own Soul and the Soul of others that are affected by you and your moral ethics?

What makes an individual choose wrong over right, when right is so logical? It must be a moral, physical or mental weakness."

“THE ABSOLUTE FACTOR”

“Man has been gifted with intellect, pride, abilities, Faith, personality, nature, mentality, the ability to make decisions — right or wrong — see value and know the difference.

Man is the keeper and protector of his or her mental, physical, moral acceptances or denials.

Man is thought to be and considered to be the ultimate living creation of God. If so, then *‘the Soul has to be the absolute factor’* that makes this feasible because of the devious actions and unstable characteristics that are many times evidenced by man’s behavior.

Formal ceremony gives more credence to a commitment that is binding.

For instance: The Sacraments — Vows

Signed witnessed formal documents defining the subject as holding — binding.”

“REMEMBER KEEP HOLY THE SABBATH”

“Does this mean only to attend a form of religious service that was designed by a formal religious organization or does it mean to use this one day special in many ways?”

How many people go to Mass or some other denominational church, and then as far as they’re concerned the obligation is over? Doesn’t the obligation have a purpose beyond the short period of time that attending a formal service means and/or suffices as Spiritual commitment?”

**“REASONABLE — LOGICAL
MORALLY SOUND”**

“Questions that do not need great intellectual minds to answer.

- 1. What should religion be all about?**
- 2. What is its reason and purpose?**
- 3. What constitutes a sound logical foundation of and for religious beliefs?**

4. **What makes religion so important in our daily life and in our association with other people?**
5. **What makes religion difficult for some to see the intrinsic value it has in our life?**
6. **What is the unseen factor that promotes ugly, illogical, emotional foundation in some people?**

Belief in God is first based on our innate feeling, common sense, human nature, intelligence, that no man is all things, nor can he or she do all things, so belief in God is logical, and in its very essence establishes security in ourselves and others.

BUT

We also instinctively know that the human actions of right and wrong, good and evil, must have Divine Rules that go beyond our intellect and/or our understanding, so the Sound Reasonable Commandments passed down through time are automatically fully understandable as coming from God Himself, because of each Commandment's deliberate attention

to human needs, feelings, actions and will.

Thus, then it was necessary to form a formal commitment of practice to use as a basic foundation for an orderly, continuous method of observing rules, participation in action, prayer and obligation to formally practice particular services honoring God and keeping Holy the Sabbath Day, thus using His Third Commandment in a specific form of obligation, in union with others of the same belief.”

Before Christianity, God sent The Commandments as the Foundation for Christianity.

Are not The Commandments of God the Basic Rules for Sainthood?

The simplicity in the conciseness of God's Commandments, still, 'even though They have been watered down to a few words, define The Rules of life to be followed.'

Remember, Keep Holy The Sabbath Day — **There are many ways to do this. 'Organized religion when it is right.'**

Living each day conscious of a moral attitude, example, and

remembering God in our thoughts, actions, and a sincere thanksgiving.

We have a mind to think with, to make decisions, to have preferences of ideals, ideas and goals.

We have an innate sense of right and wrong.

We have the ability to choose.

We have understanding.

We have degrees of logic that we should never allow to be jeopardized by others' opinions, and/or need for control.

Isn't confusion, which is caused by the 'enemy of God and man', his way of drawing people away from obedience to God's Commandments?

Are all people who choose religious vocations fully qualified to support and lead other people to become Saints? DEFINITELY NOT. Or, do some become confused as to the strictness and responsibility, and use this vocation for the wrong reasons? First, the people financially support them, and they are looked up to and find their control over others makes them important. But, what about their

Soul and the Souls of others? Most times this becomes a forgotten issue, or never was an issue.

If we are conscious of our own sense of justice and our ability to innately feel what is right and what is wrong, then we should not compromise our judgment, but practice what we innately feel is morally and spiritually correct for our Soul.

Logic says we have Something in our being that is not seen, but that we are aware of Its Presence because of our strength in judgment, knowledge, and what we automatically know is right.”

- 3. Are all people who choose a religious vocation capable of and completely interested in the Souls of all people they come in contact with? Or, is the choice of religion mainly a way of life, guaranteeing financial security, and/or being involved with people that give them a feeling of importance?**

- 4. What constitutes a sound religious instructor, confidant, and exemplary example of all that is pleasing to God?**
- 5. How many people use Religion as a money maker, and ignore the full responsibility it is?**

“RUSSIAN ROULETTE”

“Gonorrhea — Syphilis — Herpes — AIDS”

“Contagious diseases, sometimes, many times critically dangerous.

Also

Most times contacted through sins against God’s Sixth Commandment, and can also be associated with and against other Commandments.

Many TV talk shows are brazen in their subject matter, and the concern is that there could be teenagers, smaller children, and some adults who could be naive, or some who even though hearing all the disgusting facts, results, and danger, would not realize they are being warned to not be permissive, promiscuous, and/or lax in their moral values and standards.

If Sodom and Gomorrah weren’t so important, alerting mankind to the ‘horror of sin’ through the abuse of their minds, bodies, moral values and standards, its History would not be so repetitively spoken about down

through time. Its outrageous History of immorality can most certainly be compared to NOW.

There are many variations of this death defying act, whether it is done as a threat, a joke, an immoral act, a dare, and/or an act of meanness, promiscuity, or a vicious retaliation through a sick mind.

Russian Roulette can sometimes be termed 'sadistic, foolish, mean, insane'. Sad to say or even think, but many people play such daring acts, jeopardizing their Souls. Why? Because too little is taught about God's Divine Gift to all human beings.

Religion in many ways is a 'money maker' because people are willing to pay for Spiritual information, guidance, and sincerely feel they are learning more about Spiritual help that gives them peace of mind.

Many people turn to instructing boldly and loudly, their interpretation of the Bible and other texts, but many if not most times, develop a demonstrative or form of acting to emphasize their words, literally replacing sound facts with their interpretations, and sometimes

promises of their supreme power that they have been gifted with. They Are False. Yet, The Goal Of The Speaker Many, Many Times Encourages And/ Or Dramatizes The Fact That Tithing Or Financial Support Is Necessary To Keep The Ministry Going.

People play Russian Roulette every day, with their Souls as the possible, probable victim. They succumb to every temptation that is basically immoral. Every Commandment is broken every day by millions of people, all ages.

The word ‘religion’ automatically infers to most people as a religion or a form of Spiritual beliefs.

The list of denominations in religious beliefs includes some specific ones, such as Christian, Jewish, Moslems, Protestant, and others. There are many self-appointed ministries that thrive on shouting their opinions and interpretations of the Bible. Some of these people are sincere and mean well, but many, many, many are in it for the money.”

“TRUTH HAS LOGIC”

“If I believe totally in the theory of evolution, through the educated determinations of so-called scientists, ignoring The Supreme Power that had to be the Developer, Coordinator and Designer of all facets, factors, that organized the balance of the Universe and humanity, I am ignoring, eliminating the Source, the Force, the Ultimate Absolute Factor, that had to be The Creator, Designer and Controller of All Things — Living and Material.

There has never been, nor could there ever be a force or a source in human life that could ever describe or interpret the Full True Existence Of What God Is, Or How He Exists.

Important events in time, such as Moses and The Holy Family, gave a Light of and in Instruction that is to this day, important to mankind.

Before Moses, there were many decades of barbarism, and a lack of understanding the Importance of human life, violent actions against

human life, and vile behavior amongst all people.

This time NOW is in many ways worse than Sodom and Gomorrah, and must be seen for the degradation of human life, and the desecration of the Soul of every human being.

“Every day there is proof that we live in a time worse than Sodom and Gomorrah. The slightest awareness of the despicable actions of that historical time should be enough to try to change the direction of morality throughout the world. No country is not suffering in some way, because of the immorality in all ages of its people.

God’s Commandments are not a thing of the past, but until They are held up to Their Fullest Measure of Meaning, all ages will be practicing actions and thoughts that are worse than the worst garbage.

Filth such as this has an odor to it. The odor is of satanic presence, and difficult to discern its full measure of harm to every sense of human flesh. This odor penetrates, rather than stay on the outside where it hopefully will dissipate. Sin has a foulness to it, so imagine what effect it has on our Soul.

TV is in many ways encouraging people of all ages, even the little ones,

to accept life as they want to live it — ‘don’t worry about the consequences of immorality’. GOD HELP THE WORLD. The stench of evil will destroy it before any other disaster, volcanic eruptions, earthquakes, fire, bombs — atom, et cetera.

Ask yourself: Do I think purely? Do I act purely? Do I represent loving God, or do I represent my free will, cognizant of only my mood, my impure thoughts, words, and/or actions?

If God were standing here, could I honestly report to Him that I want only His Will to be done by me, and I am rejecting all indecent wrongs that could mar my Soul?

Ask yourself: When I pray, do I really know what I am doing, saying, thinking? Am I aware of Who I am talking to, calling upon, and that I am responsible for all I do, think, represent, and follow?”

**“DENIAL OF TRUTH COULD MEAN
CONDEMNATION”**

“*The Miracle Of Saint Joseph* has described in so much detail, the Importance of the Soul and Its Close Association with God.

It is rare that anyone examines their conscience, or motives for doing things the way they do them. Logic says, such an inner examination of personal beliefs, habits, would benefit one’s own Soul, as well as the Souls of those an individual associates with every day, or frequently. Caution could be the Salvation of one’s own Soul and/or many others’ Souls.

Just because the clergy of one’s particular Faith in God does not describe the importance of self-examination regarding one’s effect on others, does not mean it isn’t necessary or shouldn’t be done. Logic says, OBEY GOD’S COMMANDMENTS, and the best way is to recognize that each living individual is responsible to God for the Soul HE gave him or her at the moment of conception.

Denial of this Statement does not make it untrue, but it does say denial of wrong does please the enemy of God and man.”

**“THERE IS NO HIGHER LEARNING THAN
GOD’S COMMANDMENTS”**

“If there was a ‘full true’ accounting throughout the world regarding the ‘Paganism’ that is being practiced, people of all cultures would be shocked.

So much emphasis is and has been encouraged and accepted on ‘Humanism’, disregarding the Important Factor in each human life, ‘the Soul’.

So much emphasis is placed on working for ‘Degrees’ of education that spell ‘excellent deportment’ in the world of formal education.

Yes, this is a definite move to improvement academically, but many times, in many areas, the social aspect is a disgrace to the moral values of many.

Degeneracy is often thought to be associated mostly with uneducated people, but this is only a misconception based on man’s theory of higher formal

educational virtues versus a lesser degree of formal education.

Humanism when it is paganistic, based on vile immoral values and immoral standards, automatically falls into the category of degeneracy.

WHAT GOOD ARE HIGH DEGREES OF LEARNING WHEN THE SOUL IS LOST?"

“NEGATIVISM”

“How many people thrive on negativism, thus destroying a beautiful relationship with other people, or an individual person they are close to?”

THIS IS NOT GOD’S WAY

In God’s Commandments there is all Positive Direction. In the knowing we have a Soul, it is a Positive Closeness, Oneness with God. It has strength in It both morally and physically.

Negativism is destructive in so many areas of life. Many people who have been gifted with talents that would be beneficial in many areas of their life and the lives of others, literally destroy this Gift by sheer negativism.

Ask yourself, ‘Am I going to destroy my Soul because I do not see the Purpose for It, and the positive reasoning that God instilled in me through my Soul?’”

“Man is the Ultimate Creation of God, beyond the greatness of the universe. Why? Because man has a Goal, a Reason, a Purpose, and a Soul.

The sun doesn't have a Soul. The moon doesn't have a Soul. The earth doesn't have a Soul. The planets don't have a Soul. No other living thing has a Soul.

Through the intellect of man God permits challenges, creativity, that has purpose and reason, plus abilities that work hand in hand with God's Will.

Mankind has the ability, through God's Design of Creativity, to give birth to more human life, thus using human life as the means for more Souls to become a Part of God's Design.

God is Endless, Timeless, and no human being can, could, or ever will be capable of discerning the Full Concept of Who God Is, What God Is, and the Greatness of God. We must accept It because such Phenomena is not understandable to any human mind.”

AUGUST 27, 1995 AT 2:30 P.M.

“Why are not God’s Commandments more openly talked about and more openly recognized as the logical standards and values of daily living?”

Sound legal rules and laws automatically address the areas wherein The Rules of God are the basic foundation of judgment when there are legal interpretations to be judged on:

**Killing Adultery
Lying Stealing
Blasphemy Wrongful Possession**

God’s Commandments should be elaborated upon in writing in ‘all places’, so mankind cannot find weak excuses on ignoring Them or watering Them down.

Mankind many times brags about indifference to God’s Sixth Commandment, as though this Commandment was meant for another time and no longer is a grievous sin.

The Ninth Commandment is ignored because no one seems to feel it is a grievous sin when a man or woman ignores the full meaning of this Commandment.

Mankind justifies wrong, not because of not knowing it is wrong, but by ignoring the wrong in it, because of personal opinion, lust, and any other excuse that ignores the sound value of why it was delivered by God, and the rational reasoning behind it.

When truth is watered down, it dilutes its full meaning, and opens doors to many diabolic interventions, weaknesses, misinterpretations, thus allowing humanism to accept false interpretation, injustice, immorality, to all degrees of contamination to filter in, allowing justification of wrong being acceptable.”

“It is only logical to recognize that mankind has many responsibilities, due to the mind and will that is innate in man, but mankind has a privilege and responsibility, when he or she recognizes that there is a God, and He is The Ultimate One that mankind must recognize in all areas of daily living.

As The Creator and Judge of man’s judgment of human life, it is important that men, women and children learn to cherish their relationship with God, through their daily acts, actions, thoughts and communication and example to everyone they are associated with and all those they casually come in contact with.

Human life is a Precious Gift of Divine Love.

Sodom and Gomorrah is being repeated in every way; plus, there are many additional methods and means to expand the human degradation on and in the practices of that time.

Mankind seems bent on not just repeating that memorable period of degradation and desecration to the mind, body and Soul of mankind, but to exceed its ugliness in every area, and reduce mankind's practices of these immoralities beneath what any animal could possibly function in, in its own species."

SEPTEMBER 12, 1995

“Has TV improved morality, or has it lessened its importance in the lives of all ages?

Does hearing all and any opinions of so many bigoted and/or freethinking people, encourage all who hear them, to use their own values to accept or reject, to sift clearly and morally, the sound moral values and sound moral standards they feel are important to their Soul?

Do most people feel the Importance of their Soul? Or do they ever even think of Its True Presence, or is ‘It’ myth to most people, thus saying to all responsibilities on decisions that, ‘I hear there’s a Soul, but who has ever seen One?’

Has Faith in the Importance of human life broken down to the point that it’s easier, more acceptable to ‘live and let live’?

It is rather uncanny that success in so many areas of human life is innate and important. Then why cannot

common sense tell mankind that God would have a Goal of Greatness for mankind to look forward to?”

It is important that ‘all of mankind’ start to see the sound values, and the logical importance, that all the so-called big revolution of ‘modernization in thinking and accepting’ all that is available, to bend one’s sound morals and sound moral values, *do not just belittle human life, but are demeaning practices and/or issues.* We must never forget our Close Association with God Himself, through our Soul that He gave to us at the moment of our conception.”

“God has Blessed mankind with the written Words, so Everything is clearly stated to be able to be understood, allowing no misinterpretations by individuals of any degree of intelligence.

Religion, and/or anything that is obviously Spiritual in nature and/or instruction can be a turnoff to some people. Also, the same words can be accepted in their full concept, because the listener or reader is tuned at that particular time to follow the full meaning, or at least a form of direction.

Repetitiveness is not just a means to remember something, but also can encourage practicing what the subject covers.

The mental moods, interests of an individual has the power to accept, reject, or confuse important statements, lessons, because whether it is reading, listening to someone talk, and/or attraction to an obvious or interesting situation, condition or

object, ‘the mind has the power to act positive or negative’.

The very subject of Spiritual facts or needs turn some people off, and ‘simplicity in Spiritual direction and content’ has more logic than any emotional frenzy that only stimulates imagination, eliminating the logic of the content or subject matter.

‘Confusion is a bombshell in all areas of human learning or behavior’, but sad to say, some people accept confusion because they feel the authority of a so-called Spiritual leader is to be followed.

Emotionalism has no place in sound religious facts, directions, and/or policy, because emotionalism blocks out the humility and/or respect that is due to prayer, and/or participation in honoring God.

Five hundred or one thousand or more people can hear the same words on any subject — religion is one of them — and it is amazing how each person will not retain the meaning, the direction, and/or the content.

Each mental, physical, moral thought, action, intention of everyone

present will retain what they were struck by at a given time, totally ignoring or slightly remembering small portions of a subject, practically losing many points of great importance, because every human being has an innate understanding that responds to their character, personal thoughts, personal habits, personal ideas, and when they rationalize to their ability, understanding, or perception of how they heard something, it is usually slightly different in concept.

The written word is a Godsend. That is why Heaven has said to write All that is told to be written. No human being could remember It All Word for Word.”

“MORAL — MENTAL — SPIRITUAL”

“Three very important features of human life.

Our ‘MORAL’ Code of Ethics is based on our understanding of right and wrong.

Our ‘MENTAL’ Code of Ethics is based on the use of our learning abilities, and on the subjects we train our abilities or expertise in and on. There are a multiple number of areas in which our mental capabilities can alter our whole life and lifestyle. The areas of mental abilities is practically unlimited in subject matter.

Our ‘SPIRITUAL’ Code of Ethics is based on our individual understanding of our Faith in God and His Commandments.

Thus these three important factors of human nature, conscience, practice and understanding of every individual human being are closely connected to, involved with, and are definitely closely associated with the ‘WILL’.

All the privileges of the human intellect, personality, conscience, freedom of the will, should tell every human being that these privileges are also responsibilities morally, physically and spiritually.

If there was no spirituality in human life, there would only be instinct, putting mankind into the same category of animal life.”

Ask Yourself —

- 1. What category of moral justice do I practice fairly?**
- 2. Do I cater to those who cater to my ideas, and ignore the important issues that obviously are more of what would please God?**
- 3. Do I truly understand I have a Soul to protect and to return It to God in a Pure State?**

4. **Do I allow other people to distract me from helping morally, physically and financially, what will productively be beneficial to my Soul and the Souls of others?**
5. **Do I tolerate humanism that is covered by a ‘facade’ of Spiritual need and generosity?**
6. **Am I ‘always’ conscious of my moral obligations? If not — why not?”**

**“TIME TO HUMAN LIFE IS A
PRECIOUS COMMODITY”**

- 1. “From the moment of conception, it takes time to develop the body.**
- 2. In this process of development, the body is formed and the gender is decided by God.**
- 3. The brain, plus all the necessary internal organs and extremities of this creation of human life are decided by God. Any possible abnormalities occur because of some human reasoning, possibly the lack of some necessary condition of the sperm and/or heritage factor. This is rare considering the number of people born that are totally normal.**
- 4. The human structure plus all of the capabilities that are innate in this human being have been designed by God, with every part of this individual having a distinct purpose.**

5. **Because human life has a conscience, abilities to learn extensively on many subjects, some beyond what others are capable of, automatically puts a human life in a category of distinctness.**
6. **Morality is evident because even a small child is aware of right and wrong.**
7. **Learning is a major factor of every individual because it is innate in the individual to question and to want to develop their understanding on subjects in many areas of their development.**
8. **Personality
Character
Initiative
Sensitivity
Self-protection
Self-esteem**

All begin at a very early age, plus other human traits.
9. **At different stages of mental and physical growth, each individual bonds himself**

or herself to specific goals, interests, character favorites in all areas of human life. Some of these become so innate that the individual carries them throughout their life.

10. Talents vary in all people and when there are several who have the same talent, there is always a difference in how each one applies it to their life or develops it in a different way, different degree, and/or makes this talent advantageous. Some people are gifted but never inwardly have the interest to develop it.
11. *Sainthood*—Everyone can become a Saint, a '*Big Saint*', but this, too, is often limited to the individual's personal character, characteristics, motivation and/or human practices, plus understanding that human life is a Gift of Divine Love and has a Goal that no other creation has."

**“THE MIRACLE OF SAINT JOSEPH
HAS NEVER BEEN FOR ROMAN
CATHOLICS ONLY”**

JUST AS

**“GOD’S COMMANDMENTS ARE
FOR ALL PEOPLE, ALL AGES, ALL
RACES, ALL CREEDS.**

Naturally, because I was and still am Roman Catholic, it was logical that everyone coming to *The Miracle Of Saint Joseph* placed The Miracle in the religion they felt it was totally focused on, but human beings many times forget that all people have Souls, and the real foundation for being Christian, Jewish or following sound beliefs in God, are governed in many ways by obedience to God’s Commandments.

God, as The Creator of All Things, is The Core and Center of all of creation, so let us look at the logic of being human beings and the importance of believing in God, and that some Souls showing exemplary manifestations because of God’s Love

for mankind, allow many Souls to be called ‘Saints’ so mankind would and could more fully and more readily see the Goal that God has allowed for others to see the importance of leading good lives based on sound moral values and sound moral standards.”

**“PRAYER IS ALWAYS RESPONDED TO
BY GOD”**

“We must pray for the Souls in Purgatory because the Soul is the victim of the personality, actions, decisions and character of every individual human being.

These things do not always show, or register in the eyes, ears and mind of another human being. There are many disguises that cover evil, because satan is the master of disguise.

Prayer for the Souls in Purgatory is of the utmost importance, because our prayers will generate more hope to Them, and through God’s Love will benefit Their ‘Hope, Desire and Strength’ to look to God for the help They need.

Satan is a vulturous enemy and ‘can be beaten’ through prayer and sacrifices that are offered for the Souls in Purgatory.

***Only God Knows True Justice.* Man bases justice on personal interpretation of right and wrong,**

but only God knows what each human being truly is conscious of, capable of, and/or is controlled by a real evil presence.”

“SOMETHING TO THINK ABOUT”

“Have you ever thought about the length of a day?

The symmetry of what occurs? The planets, the atmosphere, the temperature, the day to night that is automatically a part of daily life?

The weight of water against the weight of dirt?

The climates in different states, countries?

How can people not believe in God? I don't know of any human being that has or could have the power to keep all things as they are.

Now let's take a look at human life, its physical abilities, mental abilities, plus its distinctness in appearance.

Also, how different human beings have different sensitivities, degrees of interests, talents, incentive to do things that others never even think about.

What about human conscience? Sometimes based on an individual's innate feeling of justice and/or weakness of injustice?

The differences in morals.

The innate conscience that each person reacts different in certain areas, certain degrees, according to the individual's basic understanding of morals, upbringing, experiences, tolerances, desires, goals, intentions, anger, lust, possessiveness, jealousies, permissiveness, fears, doubts, egos, tempers, indifference, aggressiveness, timidity, are just some of the traits that men, women and children are practicing in their dealings with other people."

JULY 29, 1996

“TRUTH JUSTIFIES ALL MEANS”

“Logic tells us man did not create the world, nor did man create human life. There has to be A Supreme Being, Power, Entity, indefinable to the human mind. This Power of Greatness is God, because only God could create the universe, human life, and all other things that support, encircle, and give to human life needs that not only help human life exist, but gives to human life the resources to exist.

God has also always given to mankind an indefinable unseen closeness to God that eventually became known as ‘a Soul’. This Soul, along with the ‘free will’ of life is the closest connection anything else created has to God.

Men, women and even children, feel an Importance to human life, irregardless of their nationality, temperaments, personalities, personal likes and dislikes, their heritage backgrounds, their values and understanding.

Human life many times finds itself in fear, depression, and automatically says, *'God, help me.'* Logic should tell mankind that that statement comes from the inward knowledge that there is a Higher Being.

Even though mankind is capable of selfishness, jealousies, indifference, stealing, belligerence, negativism, obstinacy, brutality, weaknesses, morally and physically, mankind in some way, through some means, has an innate understanding that there is a God and there is a possibility to be heard, because the communication is taken for granted without the individual fully understanding that they are depending upon an UNSEEN PORTION OF GOD, called 'the Soul', that is their constant Communication with Him since the moment of conception.

Mankind instinctively knows that God, in giving mankind a free will, is a Generous God, but mankind must remember that in God's Divine Love for mankind, He gave mankind His Rules, His Commandments, to not just guide mankind, but to enlighten mankind on what He expected mankind to follow, protecting the Soul

that He instilled at the moment of conception, His Personal Link of Union to mankind's conscience, abilities and communication."

"Logic tells mankind that man did not create the world nor did man create human life, and human life did not just happen. So as logic openly says there is A Supreme Being, Power, Entity, indefinable to the human mind, yet all through time God has given to mankind a free will to accept, reject, use talents, learn many things, make decisions. But with all this freedom, when He gave His Rules, His Commandments to follow, man must understand God had reason above and beyond what mankind was able to see and/or understand, and this reason was because of the Soul He instilled at the moment of conception, that was a Portion of God Himself, that must be protected because of the Importance of the Soul and the human life in which It was instilled.

Logic, sound reasoning tells every living human being that this Soul, as the Connecting Link, has Purpose to It, and this Purpose is so

that every individual will never be separated from God.

In God's Divine Love for His human creation, He endowed human life with so many assets, abilities such as choice, opinions, certain degrees of discernment, the ability to rationalize situations logically, to see what would be unjust and what would be just.

There are so many facets to mankind's personalities, abilities, opinions, and yet sometimes mankind, through some defiance that is detrimental to the Soul, mankind is capable of selfishness, jealousies, stealing, belligerence, hate, obstinacy, brutality, weaknesses, immorality, and many other things that cater only to humanism, ignoring that Divine Gift of Divine Love that was given at the moment of conception, the Soul.

Mankind ignores the possibility of the sensitivity in the Purity of the Soul, and denies the Soul that Pure State of Union with God in which the Soul was instilled, thus causing the Soul to be cast into what is called 'the dark night of the Soul'.

The 'dark night of the Soul' is an extreme sadness to God, because Its

Closeness to God causes the Soul to automatically be confronted with an extreme sensitivity of disappointing God, and causes the Soul an in-depth loneliness that nothing else can compare to.”

“The ‘dark night of the Soul’ automatically disconnects the insensitivity of human behavior to the sensitivity of the Soul. Imagination cannot or does not enter into this in-depth loneliness or feeling of displacement.

The ‘dark night of the Soul’ is greater than human sadness or human loneliness, because the Soul is an indescribable Light of Love, Encouragement. This state of darkness is unlike human despair, because the loneliness is the void of Spiritual Direction that the Soul is so much a Part of.

That is why it is so important that mankind throughout the world understand the Importance of This Miracle of Divine Love. Many Souls are being put in jeopardy because humanism, materialism is uppermost in all decisions that should be

moral decisions based on God's Commandments, and God's Love for human life and the Soul that must be returned to Him for All Eternity."

**“I AM GOD THE FATHER
I SEE AND UNDERSTAND
MAN’S EVALUATION OF HUMAN LIFE”**

“Our human intellect, our ability to think, learn, speak, feel through our senses, tells us we are also limited in our power to do many things.

Logic plays an important part in our limitations, so logic also tells us that somewhere, somehow, we must understand that there is Someone, Something that is Ultimate in Power, Reason and Control that designed us and is aware of our individual existence.

Everything in the world had to be Designed and Controlled by a Supreme Power. Who is This Power we call ‘God’?

Also, the very fact that we logically know right from wrong, good from evil, pain, fear, and have senses that are very much a part of our life, tells us we are in many ways subject to a Higher Being.

Also, logic tells us that purity of our mind, actions, has a strength that innately gives us a sense of well-being, plus many other abilities to live our lives with hope, not despair.

Human life is in many ways a victim of environment, but inwardly we want to change our environment to a more beneficial, productive way of living. For some it is more difficult because of circumstances they are subjected to, but we all know we have a free will to use when and if possible to act in a manner of protecting ourselves.

We innately fear illness, failures, accidents that are harmful to us physically, mentally, even morally, but sometimes, many times we forget that we have the personal ability to make decisions that help us conquer these things.

Intellect, all degrees, in all areas, can be beneficial to our whole life when it is directed to what is based on God's Commandments. But how many people today even consider The Commandments as Rules to follow in everyday life?

Also, do people really know the full meaning of each Commandment? No, because They have been watered down to such a conciseness that They bear little meaning.

It's time all men, women and children learn the Full Measure, Concept and Words of All of God's Commandments, and follow Them to the letter, and stop ignoring the reason for Them, and the fact that They give strength to many moral decisions that arise each day.

These Commandments were not just over when that era of time in which They were delivered entered a more modern time, due to the updating of physical inventions.

The conciseness in the modernized version of God's Commandments need to be seen as a major problem to the Full Meaning Of What God Delivered Originally, because of how it diminishes the full meaning and automatically decreases and/or eliminates His Full Reasoning and Meaning for mankind to practice, because of the reflection in the individual's Soul that is a recipient

of all the individual practices, speaks, and is example of.

Without direct laws to guide our lives, what would life be like?

Wouldn't humanism eliminate the Goal for Sanctity?

Wouldn't humanism cater to mortal determinations, eliminating the Goal of Sainthood?

What makes mankind feel that God's Commandments to Moses are not for our time?

Why is immorality such an automatic drawing to so many people to hear about, read about, and watch in movies? In reality, isn't human garbage based on all that is against several of God's Commandments?"

There are innate responsibilities to human life and these are based

on the Divine Gift at the moment of conception called *'the Soul'*.

The Soul has a Purpose beyond all other things, and that is to return to God as 'a Saint' representing the individual in whom It was placed at the moment of conception.

“Every day of our lives, no matter what our age is, how we live, or what degree of formal education we have, we deal with all kinds of personal decisions, acceptances, and input in all we say.

We many times affect the lives of other people through our actions, what subjects we talk about, and even our appearance. We, as human beings, have responsibilities that no other living thing has.

Even our attitudes, sense of humor, our silence, our clothes, our manners, our facial expressions, our initiative, our indifference, our moral impressions that reflect in all we are and do, can affect people, situations and example.

We are not like a piece of furniture that sits where it is put, but we are mobile and affect, encourage, discourage, or elevate others in their time with us, or even how they see us at a distance.

Human life is an extension of God's Love for this creation of His that is Action, Responsibility, Hope, or Encouragement.

We must always remember, we have the innate sensitivity to know right from wrong, good from evil."

- 1. Change what’s wrong.**
- 2. Make resolutions to reach success in areas of physical, moral and monetary gains.**

All the emphasis is usually on physical, mental and monetary means.

With so much moral degrading, degenerating abuses that TV and other areas are enforcing, thus encouraging, mankind should see with their intellect, moral values and standards, that they are becoming victimized by the openness of vile satanic determination to use immoral confusion of drawing the liberalism of rights mankind so weakly succumbs to, in spite of what he or she automatically knows is impure in its very core of logic.

Innately mankind automatically has the sense, the ability, the right, the choice to choose what is right over what is wrong, what is truth over what is untruth, what is pure over what is

impure, what is obedience to God's Commandments over what is pleasing to the enemy of God and man.

WHAT MAKES ANY MAN, WOMAN, OR EVEN A CHILD CHOOSE weakness, evil and/or impurities over what is logically pleasing to God?"

JANUARY 5, 1997

“Immorality in all degrees is not of the past, but is evident throughout the world today.

People of all cultures, all ages, associate human faults, sinfulness and corruption with past times. This, of course, is ridiculous. We live in a time of acceptable moral corruption that is obviously pleasure to the ‘enemy of God and of all mankind’.

What happened to God’s Commandments?

What happened to sound moral standards?

Throughout the world today, and for some time, immorality is prevalent.

Why?

Mainly, because humanism has eliminated the sound logic, reality, that God has become divided into so many degrees, due to the lack of sound practice of life being based on God’s

Commandments, and that without this foundation for all religions to practice, the enemy of God and man uses moral weaknesses, neglects and practices, to ignore, reject and disobey all that God's Commandments mean to cause all human beings to think, act and follow, because of that Precious Gift of Divine Love that is in every human being since conception, called 'the Soul'.

This Portion of God makes mankind Special in Design, Reason and Purpose, thus logically giving to mankind an Important Reason and Goal above all other living things.

Man's mentality is superior, above all other living things. Man's reasoning is superior. Man's concept of using the brain, the diversified Gifts in man's brain, intellect, allows man to accomplish what is impossible to all other created things. This should be the obvious key to the closeness man has to God."

Logic tells us that to ‘CORRECT’ something takes much more sincerity, understanding its importance, than to just ‘confess’ it, because it is easier to confess a wrong than to ‘RIGHT IT’ by ‘CORRECTING IT’.

Confessing one's mistakes, faults, wrongdoing to someone else, can become a habit, an excuse, and does not emphasize that there will be a 'CORRECTION' of the wrong.

'CORRECTING' one's own sins, offenses, takes strength, and puts the obligation back where it belongs or on whom the responsibility belongs to.

We must always remember our Soul is in constant contact with God, and it is He Who we must always be conscious of.

“Mankind must understand the reality of the Importance of human life.

A free will is a Gift of Divine Love and through the will mankind makes decisions of acceptance and/or rejection, of caring or not caring, of obedience or disobedience.

The free will of man is a Gift of Divine Love that entitles mankind to choose purity over impurity, right over wrong, discipline over rejection of conforming to what is good, sound, and beneficial to the Soul of the individual, or also to those present, if there is one or more.

Mankind belittles purity only when he or she finds impurity tempting, and they lack the discipline of making a decision that chooses what is pleasing to God over what they feel pleases their own senses. There will be more on this subject.”

“THE CREATION OF MANKIND FROM THE BEGINNING WAS SPECIAL AND WAS DESTINED FOR A SUPERIOR GOAL, BECAUSE WITHIN IT GOD PLACED A PORTION OF HIMSELF, CALLED ‘A SOUL’”

“The mind of mankind is a special Gift of Divine Love, because the mind tells an individual what is right, what is wrong, what is to be accomplished by one’s own act and/or lack of action. The mind is always prepared to make decisions that are important for the welfare, and/or conditions of many life-threatening situations.

The mind also tells people that the True Existence of a Higher Being is evidenced by the whole universe, and by the balance of nature, plus the Gifts of the mind are in so many areas of practical and superior abilities.

The mind must never be taken for granted, because through the mind an individual has the ability to learn so much and in so many areas; plus, the mind alerts individuals to danger to their physicals, plus to many other areas of life.

It is sad to see so many people of all races, cultures and mentalities, ignore the greatness of what their mind is capable of, and that their mind can be the means of their becoming 'Great Saints'.

What is a Saint? Logic through the mind says no human being could have created the universe, and no human being has the capacity to solve all problems that different generations have encountered, and fell prey to enemies of the moral, physical and Spiritual breakdowns, in so many languages, nationalities and periods of historical times, in which man became evident to the ones who followed.

The mind is taken for granted and this in itself is not just a foolish act on man's part, but in many ways detrimental to all the good an individual is capable of doing.

God's Patience with man is Superior in so many ways and His Love for man is because He gave to man a Portion of Himself to help mankind understand that no human being is alone or without a closeness to a Superior Being that is All Powerful,

All Just, and bears a Love beyond what man is capable of.

Prayer to God never goes unanswered and man should never take prayer for granted, because it is greater than the closeness man has with any other living human being. Prayer for any reason is direct communication to The Creator of All Things.”

**“WHAT HAPPENED TO THE
‘SPECIAL GIFT’ THAT
‘GOD INSTILLED IN HUMAN BEINGS’,
HELPING THEM IN ‘MANY, IF NOT ALL
AREAS’ OF DAILY LIFE, NAMELY
‘ONE’S CONSCIENCE’?”**

“CONSCIENCE”

- “1. moral sense**
- 2. a knowledge or sense of right or wrong, with a compulsion to do right**
- 3. moral judgment that opposes the violation of a previously recognized ethical principle and that lends to feelings of guilt if one violates such a principle**
- 4. inner thoughts or feelings**
- 5. in fairness on any reasonable ground on one’s conscience, causing one to feel guilty.**

CONSCIENCE CLAUSE, a clause in a law exempting those whose religious or moral principles forbid compliance.

What personal weaknesses, opinions and/or selfishness supersedes conscience in many individuals now and in the past?

Unjust dominance	Envy
Personal insecurities	Jealousies
Violent tempers	Immaturity
Superiority	Resistance to authority
Bullish personalities	Stubbornness
Hate	Invalid decisions based on self-love, self-importance

CONSCIENCE MONEY, money one pays to relieve one's conscience, as in compensation for some former dishonesty.

CONSCIENCE-STRICKEN, feeling guilty or remorseful, because of having done some wrong.

What supersedes one's 'conscience' when a moral decision is to be acted out or accepted?

'THE INDIVIDUAL'S WILL'

But no one should ever diminish, delete, or ignore the basic Rule of God, and that is to obey His Commandments under all circumstances and in all decision making.

The Rules of and for mankind are basically sound, reasonable, important, and should be learned to Their fullest measure of meaning, because They are the ‘Foundation of Sainthood’ for the Souls of all of mankind.”

MAY, 1997

“Has anyone ever seen God?

NO

Moses heard Him indepthly speak about the need for mankind to know of Him, and to understand that mankind should always be conscious of a Greater Force, Source, that was beyond human intelligence, abilities, and would Judge human life at a special time.

**WAKE UP MANKIND
ALL RACES, COLORS, CREEDS**

Human life is a Blessing of Divine Will, and must be protected against all impurities of the mind, flesh and activities.

The picture of Moses holding a tablet listing ten as a number feasible to fit on something he could carry, and in many ways was and is misleading to all people basing The Commandments of God as Ten. This is not fact or truth.

The Commandments were delivered to Moses in lengthy details, thus instilling in Him the Importance and Greatness of what He was to teach, uphold, and leave for millions of people that were yet to come.

Time, and mankind's innate desire to compile information, sometimes based on not just to clarify the in-depth meaning, but to shorten the information so others would not be bogged down by so much detail.

Logic says Moses was instilled in great length on and in the importance of each Commandment, thus learning from God Himself how to help mankind avoid catering, complying, and/or subjecting their will to satan's pranks, jealousies and/or downright deceptions, so Souls would become victims of man's lack of knowledge, lack of understanding, and not fear the penalties that the Soul would be subjected to as restitution for what was offensive to God's Will for mankind's Soul, that Portion of God in the conception of life."

MAY, 1997

**“GOD’S COMMANDMENTS
MUST BE LEARNED
IN THEIR FULL MEANING”**

“It is time for all of mankind to learn more about the Greatest Gift of Love God gave to mankind when He delivered to Moses His Commandments in Their fullest meaning, reason and concept, so that mankind would be fully aware of the importance of the moral responsibilities that mankind was created to follow and use as the criteria of choosing what was pleasing to God, and an important defense against the enemy of God and man, because of the Soul that is a Living Gift of Divine Love to every human being, above all other creations. Remember, It is called ‘the Soul’.

Another Gift of Divine Love is mankind’s ‘free will’. It is sad when this Gift of Divine Love is usurped by evil through others who disregard and/or are used by the enemy of God and man — the devil — who constantly uses every source of false interpretation and/or a simpler interpretation, thus using human weaknesses against the

Soul of an individual, or even more than one Soul, to be tarnished and/or become victimized, weakened, and/or even totally lost to what is morally sound, just, pure, and able to fight the enemy of God and man, to return to God his or her Soul.

God's Commandments must be learned in Their fullest measure of meaning because all of God's Commandments were not delivered to Moses in the concise manner that has been spoken, taught, written, and made to look like each Commandment is limited in its full meaning.

Translation many times cuts short the meaning of a subject because of the fact that certain languages do not have a word to use exactly like another language — sins based on bigotry, sins based on indifference, sins based on retaliation, sins based on gluttony, sins based on gossip, sins based on lies, sins based on promiscuity, sins based on jealousy, sins based on hate, sins based on emotions, sins based on a lack of integrity, sins based on selfishness, sins based on lying, sins of the senses, sins of the mind, sins of the actions, sins of the intentions, sins of the imagination, sins of the flesh.

Honor Thy Father And Thy Mother. This means Heavenly Parents first, all based on purity of mind, body and Soul. This Commandment is automatically accepted as meaning birth parents.

Logic should tell us to look beyond the conciseness, because God talked in parables, thus covering a ‘multiple of meanings to everything He delivered to Moses’. Mankind cuts all things short, brief, and eliminates a lot of the important meanings with just answering to please, or too lazy, or not knowledgeable on the subject, instead of looking into the real intent, reasoning, purpose, sound value, and whether or not the subject is not just beneficial or logically acceptable, but is it based on morality, that if God were openly present He would be pleased.”

MAY, 1997

“Saying there are just Ten Commandments is in reality an insult to God. Logic says that the conciseness in how mankind has accepted such an Important Directive from God is in many ways belittling to The Creator of All Things.

It is time that the whole world of mankind begin to learn and practice All The Commandments contain, which will automatically cause all cultures, creeds, intellects and ages to value the Love God has for mankind by His In-depth Knowledge and Understanding of what mankind needs to do to gain Sainthood.

It is innate in human beings to shorten facts or practices, using the excuses that it saves time, plus it accomplishes more faster.

BUT, logic says that short cuts do not always cover all the important facts, figures, angles, and/or purpose of and for such an Important, Forever Existence, that without it the Soul is neglected, even ignored and forgotten;

thus, what It was created for will be delayed or even lesser in magnitude.”

MAY, 1997

“God’s Commandments point out all the reasons human life is special, but one must remember The Commandments are not limited to the ten short sentences, but in reality, each one of Them is lengthy in Their full meaning and concept.

Also, there are more than ten. Mankind has a human habit of shortening all things to make them more acceptable, but this should be clarified in regard to The Commandments of God.”

COMMANDMENT IS SO
EXTENSIVE, REACHING INTO
EVERY FIBER OF HUMAN LIFE.
EVERY INNATE SENSE OF BEING

RESPONSIBILITY OF THE
COMMANDMENTS. ALSO, THERE
WERE NOT JUST TEN.”**

MAY 8, 1997

“God’s Commandments, as They have been passed down through time, have eliminated many, many areas of meanings that basically were of great importance to mankind’s understanding of Their full magnitude in conjunction with all the natures, temperaments, intellects, and moral values and moral standards, covering all ages of human life, and all backgrounds, mental moods, ideals, moral weaknesses and/or integrity; plus, backgrounds, character, habits, degrees of understanding, fairness, moral values, moral standards, ambitions, moral code of ethics, degrees of integrity.”

MAY 9, 1997 AT 10:00 A.M.

“LOGIC SUPERSEDES THEORY”

“It is being encouraged and quietly being introduced, but logically, no way could there ever be a ‘one world government’ or a ‘one world church’.

God’s Commandments were given for all of mankind and These are in no way followed by all of mankind, even when they have been trained to follow Them.

Different mentalities, conscience, upbringing, causes differences in what individuals feel they are responsible for.

Immorality is many times a major factor in individuals who ignore the importance and responsibilities of sound moral values and sound moral standards. The difference in background would also be a major factor.

Egos, temperaments, logic, personalities, upbringing, nationalities, financial status, are many times major factors in the behavior and/

or temperaments of thousands or millions of people.

It is obvious, the trend for a ‘one world church’ and a ‘one world government’ are inching their intentions for this to be, but sound logic says it would be disaster to all areas of mentalities, backgrounds, and the innate human mental capabilities.

THERE IS ONLY ONE SUPREME BEING, AND ALL HUMAN LIFE IS RESPONSIBLE TO IT.”

MAY 15, 1997 AT 8:00 A.M.

“Once again God is personally instructing, encouraging and reminding all of mankind of the Importance of human life and the Purpose for which He Created it.

Ignoring and/or openly rejecting such a Personal Love for mankind at a time when men, women and children of all beliefs, degrees of intelligence, are learning what a Precious Gift human life is, because it has a Goal beyond any other creation and that is to return to God that Portion of life, unseen by mankind but evidenced by the logic that mankind is different than all other creations.

The intellect, human knowledge of morality, and the innate understanding that human beings instinctively know human life is a higher degree of existence, because of its sensitivities to moral values, moral standards, and a free will to do what is right over what is wrong in all phases, talents, interests, practices and human behavior.

Wake up to the responsibilities of such a favored Gift of life that instinctively knows it is Special and Important.”

MAY 25, 1997 AT 7:00 P.M.

“Why have millions of people for ‘many’ years accepted the ‘extreme concise’ wording defining The Commandments of God?

First of all, it is illogical to believe that God was not clearly explicit in the full meaning of His Commandments because of the importance of each of Them, based on the very fact that any impurity of the mind and/or body functions automatically affected the purity of an individual’s Soul.

This Soul, of course, as a Portion of God, must never be the victim of any impure act, thought or intention, because the Soul is the receiver of all an individual does, thinks, practices, and/or ignores the importance of.

Human logic cannot ignore that human life with all its senses, sensitivities, emotions, intellect, abilities, moral senses, is special in design, and must have a Goal for being a human being.

It is innate in the human senses that there is a desire to want to be successful and/or reach goals that are beneficial mentally, physically, emotionally, and are enriched with creditability, when sound orderly circumstances and practices are present.”

MAY 31, 1997

“WHAT IS A CONSCIENCE?”

“Do animals have a conscience?

Do plants have a conscience?

‘No’

A conscience is an innate important part of human life.

The conscience is the recorder of one’s moral and immoral practices, but when the conscience is ignored, the enemy of God and man can easily take over.

The faculty of recognizing the distinction between right and wrong in regard to one’s own conduct is a Gift of Divine Love because of one’s Soul.”

MAY 31, 1997

“WISDOM HAS LOGIC”

Immorality has a depressing, negative weakness, no matter what the subject is or what the act, action or involvement is.”

“FANATICISM”

“Many times is based on one’s self-righteousness and/or lack of understanding the values and/or truths that are based on what is morally sound and/or morally favorable to what God’s Commandments mean.”

“HUMANISM”

JUNE, 1997

“SIXTH COMMANDMENT”

“THOU SHALT NOT COMMIT ADULTERY”

“The conciseness in these words automatically eliminates ‘numerous sins of the flesh’, because of the conciseness in its content just naming ‘adultery’.

There are many sins of the flesh that are covered by this Commandment.

Many people of all ages, all nationalities, all degrees of intellect, sin in several ways, based on the sins of immoral physical preoccupation, associated with different methods of how sins of this nature are so numerous in practice, personally, and/or with someone else.

Many individuals are obsessed by participating in this form of personal attention, and in the participation with others, thus using the physical abusively and/or totally indecent, immoral, impure.

Sins of the flesh are more serious than thought to be. Sins of adultery are serious, because they defame purity of moral values and standards. Adultery is many times common practice, but nothing justifies it, because it uses individuals to perform intimacy without the legal rights morally or ethically.

“SECOND COMMANDMENT”

**“THOU SHALT NOT TAKE THE NAME OF
THE LORD THY GOD IN VAIN”**

“To belittle or diminish the Importance, Dignity, Respect and/or Greatness of The Creator of All there is, is punishable by God’s Laws. This is evidenced by His Words of Command saying, ‘*Thou Shalt Not.*’

This should be looked at and understood as a Direct Command and never abused, ignored or tested in any form by human beings.

The Commandments must never be broken, because God’s Justice is to be obeyed and respected.

It is an Important Command given to mankind, reminding mankind of the Greatness from which mankind originated, The Creator of All Things — God.”

JUNE, 1997

“THIRD COMMANDMENT”

**“REMEMBER, KEEP HOLY
THE SABBATH DAY”**

“This Commandment is logical in its very wording, and has a command in its words that tells mankind that a day of recollection, prayer, and remembering God in a formal atmosphere of prayer and service is important, because as God is Real, and is The Creator of man, man is obligated to spend time in remembering that human life was created for a Purpose and has a constant communication with The Creator at all times. Thus, participating in a formal ceremony honoring Him is logical and necessary for the individual, and it keeps the Soul of the individual in constant closeness in Whom It is a Portion of — God.”

JUNE, 1997

“FIFTH COMMANDMENT”

“THOU SHALT NOT KILL”

“This Commandment covers several areas of human life, because there are many ways to kill.

First — Morally

Second — Spiritually

Third — Psychologically

Fourth — Physically

To kill means many things, because there are many ways to destroy another’s life personally, many times one’s direction, one’s actions when in charge of people, some very young and even some older.

Authority, when it is evil and/or physically, mentally evil, develops in others hate and/or self-protection, eliminating moral ethics, conditions and/or mental and/or physical defense.”

JUNE 18, 1997

“FOURTH COMMANDMENT”

**“HONOR THY FATHER
AND THY MOTHER”**

“This definitely means Heavenly Father and Heavenly Mother ‘first and above all things’.

This Commandment was given for mankind to automatically associate and recognize The Divine first, and then relate to the human heritage of parenthood, because of the Importance of the Connecting Link mankind has to The Supreme Being through the Soul.

Honoring God and Our Heavenly Mother has a definition obvious in its very meaning. No human being is ever without the Presence of God The Father and Our Heavenly Mother, because through the Soul there is always a Connecting Link that is obvious, because mankind of all ages knows right from wrong, good from evil, purity from impurity.

There is an innate sensitivity that is instilled in mankind, called ‘a conscience’. The conscience is the

sensitivity to right over wrong, good over evil, and when an individual ignores the right choice, it is never 'not' registered in the mind or conscience regarding the decision."

JUNE 18, 1997

“FIRST COMMANDMENT”

**“I AM THE LORD THY GOD;
THOU SHALT NOT HAVE
strange gods BEFORE ME”**

“False images that basically are either humanistic in origin or used as an idol that has no power of Divine Origin, or based on humanistic values, monetary, and/or false in virtues and of demonic origin.

Many who place more importance on materialism and/or wanting to be idolized by men, women and even children, thus ‘feeling the need to have others see them as above all others, indestructible and heroic, superior in specific ways, also above reproach’.

This Commandment warns mankind that God Alone is The Creator, and Judge, and ‘Above all things’, and that mankind is subject to ‘His Will’ in and on all things moral and immoral.

False idols, humanism, must never be placed or established above What God Is or Stands For, because

NO ONE OR NOTHING IS SUPERIOR IN ANY FACET OF KNOWLEDGE, AND/OR POWER OF THE CREATOR — GOD.”

JUNE 18, 1997

“EIGHTH COMMANDMENT”

**“THOU SHALT NOT BEAR FALSE WITNESS
AGAINST THY NEIGHBOR”**

“A concise version of a meaning most times eliminates the full meaning and purpose.

Every living human being is your neighbor because human life is made to the Image and Likeness of God, thus instilling in all human beings a Soul, and the Soul is the recipient of all the nature, personality, human talents, moral behavior, intelligence, physical aspects, and choices in decisions that are based on the moral judgments and personal ‘free will’ of an individual. They do not have to live next door to you.

What is the free will?

It is such a natural aspect and privilege of human beings that it is taken for granted, and when it is abused through impurities of one’s mind, intentions, actions, practices, it is a victim in ways that human beings find difficult to understand.

Nevertheless, the Gift of the ‘free will’ has boundless responsibilities and must be recognized as a Gift of Divine Love and treated with concern for its well-being, just as mankind understands are necessary for the physical protection.

It is sad to see so much neglect, disregard, and even ignorance to the logic that God created human life to His Image and Likeness, thus putting it above all other creations. But also, He lovingly, intentionally encircled mankind with all the necessities to sustain human life, thus giving mankind intellect above and beyond all other living things, plus the ability to use the intellect extensively in moral judgments, mental growth, to reach out for more information medically, scientifically, physically, and even in ways to instruct, encourage and instill in mankind that GOD DOES EXIST AND MUST MEAN MORE TO HUMAN LIFE THAN JUST THE KNOWLEDGE OF HIS EXISTENCE.

Lies, intimidating information, causing others to identify injustice and/or a lack of sound truths regarding the moral code of ethics of another one or more than one other person, many

times based on a lack of moral respect, or sometimes a weak form of envy, jealousy, hate and/or an innate moral weakness in one's own perception of the value of another's abilities, personality, talents, disposition and/or integrity.

Logic says human life exists above and beyond all other living matter and must have a Greater Purpose for this. Impurities of any kind, degree, or intention, cannot be justified, because of the Soul that each human being has in union with The Father.”

THE IMPORTANCE OF HUMAN LIFE?”**

“It is obvious it was designed for a purpose because of its innate ‘intellect’ in so many areas of understanding, so many areas of life that no other living things have.

Also, the innate sensitivity instilled at conception, plus the capabilities of learning, participating, and becoming personally involved in mental, moral, physical, psychological, Spiritual in-depth ideas, practices, participation, and a constant urge to seek progress beyond what is already available.

Every human being has the ability to do so many things that no other living thing has the ability to do.

Also, the Gift of knowing right from wrong instills a strength of moral justice that in so many ways gives values, hope, direction, and security in judgment mentally and physically.”

Everything God created has a reason, a purpose, and should be seen by human beings to have a relationship to advantage, and if it shows disadvantage, then it could have been created to alert mankind that fear is important, because without fear we would not be able to judge good from evil.

God’s Supreme Power and Logic covers all things, and must always be seen for Its Divine Generosity and Divine Love, by giving to mankind the

intellect and senses to be aware of good and evil, right and wrong.

Only Divine Love could have this Extreme Love, allowing mankind the privilege to learn, make decisions and have an innate desire, also have the privilege to a ‘free will’, giving goals to life, and the freedom to choose, not just using instincts, or subject to what so many other things created are, such as water, plants, trees, animals, and so on and so on.”

Conscience — Behavior

Intellect — Possessiveness

Generosity — Selfishness

Honesty — Justice

Plus other characteristics that many times affect an individual’s

ideals, mentality, behavior, logical belief in God, in their having a Soul, and human life is special, bearing responsibilities that no other living thing or matter has.

Justice should begin with a human being's innate understanding that it is logically obvious that there is a 'Creator of All Things, an Authority to be recognized as Superior, and that human life is responsible to It'.

The Commandments of God must become obvious in all areas of human life. Without God's Commandments human life would be subjected to the 'personal discernment' of all individuals, which logic says would be dependent on the individual's 'personal opinion', not the in-depth meanings that each Commandment shows as Wisdom in Context, Purpose and Goal."

THE SACRED HEART

“Belief in God is Hope for life and in life. Without belief in God there is only despair, because our logic tells us that a Greater Entity of Being has to exist because of all we are about, and all that surrounds us every moment of every day.

Human life has Purpose beyond what all other things have, because innately we instinctively depend upon a need for hope in all areas of our life. Also, we fear ‘*fear*’, because it is innate in us to see, feel, anything that is detrimental to our physical well-being, or our life.”

MARCH 17, 1999 AT 10:00 A.M.

“Logic tells mankind that the foundation of and for the rules of life, for human life, are based on the original Laws from God to Moses.

Needless to say, the original dictation of These Important Rules were indelibly instilled into the mind of Moses so it was understandable that Moses could be able to deliver Them verbatim and in the full meaning of Each One.

Logically Moses was with God for a longer time than man has decreed it to have been.

Bible History has been unable to write ‘all the details’ of the History of several thousand years occurrence, but we are fortunate to at least be aware of the subject matter that is so important to our morals and concepts of the importance of what God expects human life to accept as a preparedness to one day returning our Soul to Him. Through the Soul we will become a part of other Souls that will share the Glory and Happiness of something

more Special than humanly possible to conceive in the human mind.

Divine Love is above and beyond human love, and in God's Love, Kindness, and Personal Love for His Creation of human life, He has passed down through those close to Him, the Goal He has for human life, that is to return that Portion of Him in us, the Soul."

“THE BIBLE”

“This Book tells the Greatest Story ever revealed to human beings because it addresses, in logical formation and purpose, the creation of all that exists.

Also, that only a Supreme Power beyond human ability and knowledge, had to be the only Source by which and through which, the Logical Formation and Power had to be beyond what anything we know, understand, or would be capable of, in its power, reason, and/or will.

We should all ask ourselves, as a ‘Power of This Magnitude’ logically exists, shouldn’t we recognize this Power to be Someone or Something that we should Honor, Respect, and innately know that because of the logic in creation, there has to be a reason for human life above and beyond what we daily think about life.

Human life has been created with so many Gifts, plus the innate knowledge that there is a Supreme Power that we will be subject to for how we lived, because of all the Gifts of human life over and above all other living matter or things.”

“Faith in God is an individual’s ability to believe in how God works, and also in the individual’s concept of how they can feel The Greatness of God and His Love for human life that He created, giving to each human being a Gift of His Divine Love, a Soul.

Logic says that the Soul, as a Portion of The Creator, makes human life different than all other living matter or things.

Human life has an intellect, logic, conscience, sound reasoning, the ability to perceive what is right over what is wrong, what is moral over what is immoral, what is just over what is unjust.”
